See application file for complete search history.

FIG. 1 is a front view of a display screen or portion thereof with a transitional graphical user interface for annotating radioanatomy images.

FIG. 2 is a second image thereof.

FIG. 3 is a third image thereof.

FIG. 4 is a fourth image thereof.

FIG. 5 is a fifth image thereof.

FIG. 6 is a sixth image thereof.

FIG. 7 is a seventh image thereof.

FIG. 8 is a eighth image thereof; and,

FIG. 9 is a ninth image thereof.

The appearance of the graphical user interface transitions sequentially between the figures. The process or period in which one image transitions to another forms no part of the claimed design.

The perimeter dashed box forming a frame around the transitional graphical user interface are for the purpose of illustrating a display screen or a portion thereof that forms no part of the claimed design. The other broken lines within the graphical user interface represent portions of the graphical user interface. None of the aforementioned broken lines form part of the of the claimed design.
