(57) **CLAIM**

The ornamental design for a display screen with graphical user interface for a pharmaceutical dashboard, as shown and described.

DESCRIPTION

The FIGURE is a front view of a display screen with graphical user interface for a pharmaceutical dashboard, showing the new design.

The outermost broken line rectangle shows the display screen, and forms no part of the claimed design. All other broken lines show portions of the graphical user interface and form no part of the claimed design. The appearance of the portion between the break lines forms no part of the claimed design.
