(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, substantially as shown and described.

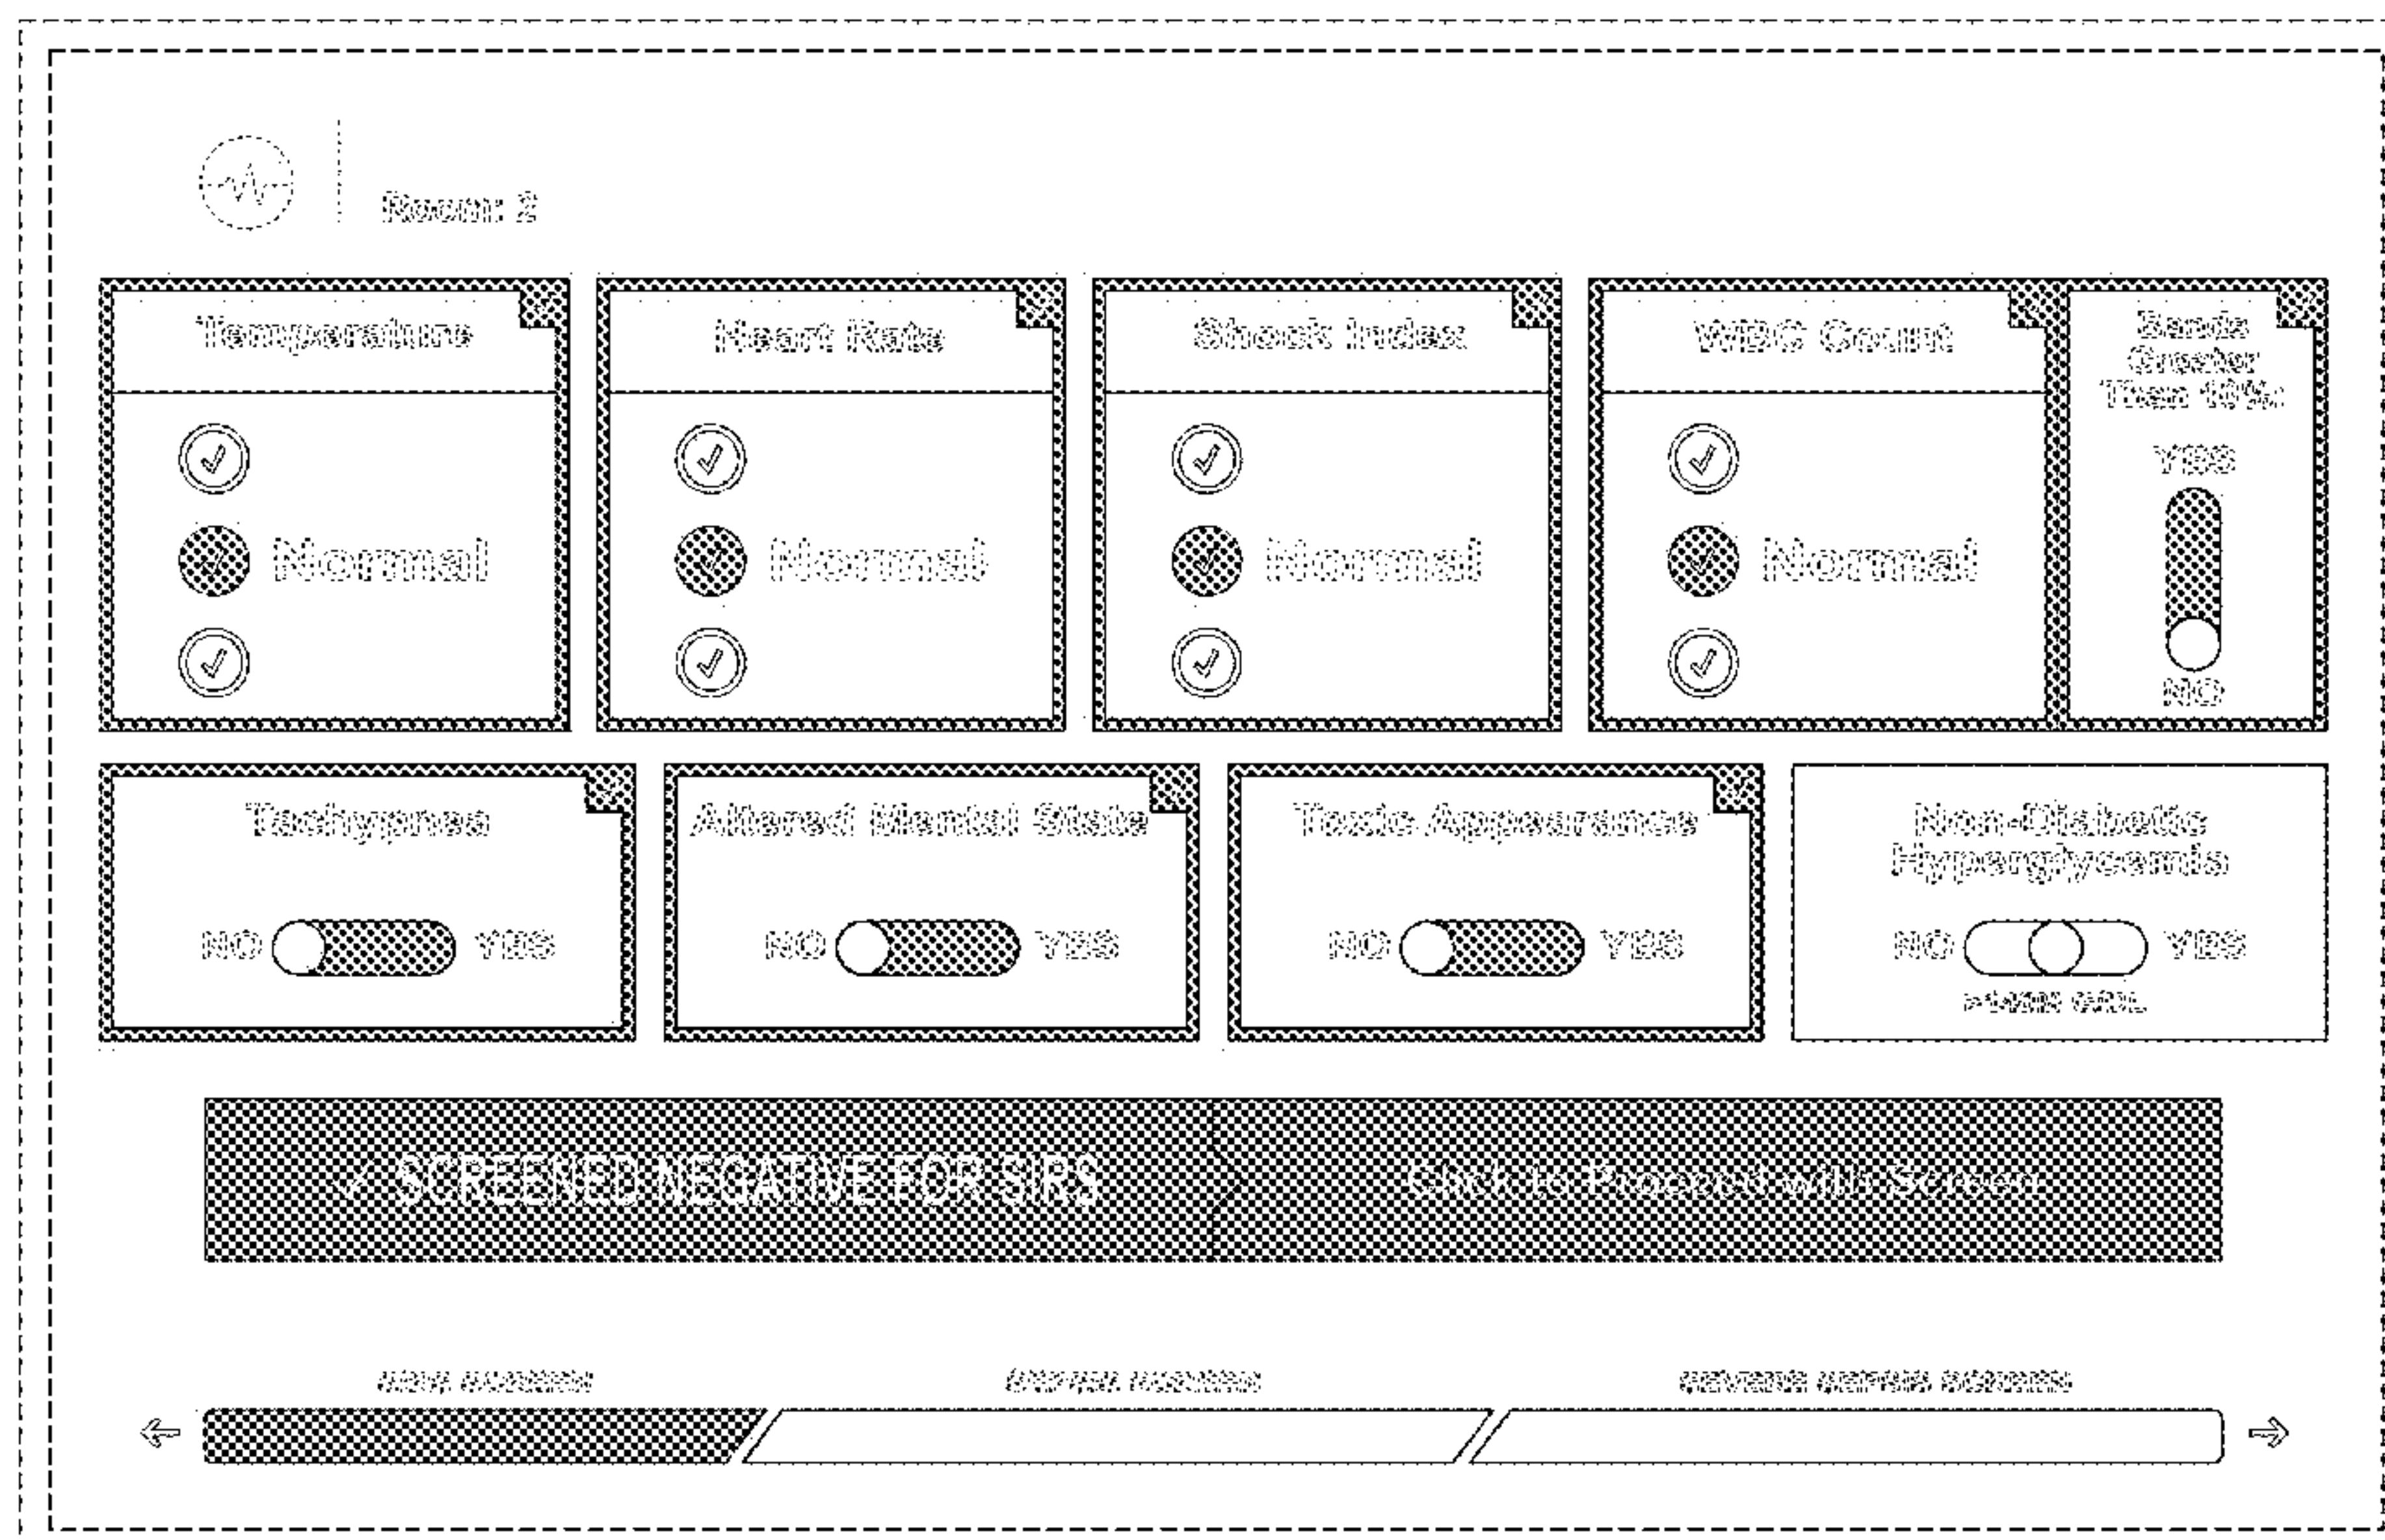

DESCRIPTION

The file of this patent contains drawings executed in color. Copies of this patent with the color drawings will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of the image of a display screen or portion thereof with graphical user interface; and, FIG. 2 is a front view of the image of a display screen or portion thereof with graphical user interface, which is an alternate embodiment.

The broken lines showing a display screen or portion thereof and elements of the graphical user interface illustrate portions of the article, and form no part of the claim design.
