(57) **CLAIM**

I claim the ornamental design for a model vehicle wheel, as shown and described.

**DESCRIPTION**

FIG. 1 is an upper, left, front perspective view of a model vehicle wheel;

FIG. 2 is a front plan elevation view thereof;

FIG. 3 is a left side elevation view thereof;

FIG. 4 is a right side elevation view thereof;

FIG. 5 is a top plan elevation view thereof;

FIG. 6 is an upper, right, rear perspective view thereof; and,

FIG. 7 is an upper, right, front perspective environmental use view of the model vehicle wheel.

In the drawings, the broken line showing of features of the model vehicle wheel illustrate portions of the model vehicle wheel that form no part of the claimed design; whereas, the broken line showing of the environmental use view depicts environmental subject matter and is provided for the purposes of illustrating environmental use structure and context and also forms no part of the claimed design.

In the drawings, only the front plan elevation view and top plan elevation view of the model vehicle wheel are shown for the purposes of illustrating the claimed model vehicle wheel. The respective rear plan elevation view and bottom plan elevation view are mirror images of their corresponding front plan elevation view and top plan elevation view of the model vehicle wheel and were not provided due to this redundancy.
