(57) **CLAIM**

The ornamental design for a cable management device, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of the cable management device, according to a first embodiment.

FIG. 2 is front view of the cable management device, according to a first embodiment.

FIG. 3 is rear view of the cable management device, according to a first embodiment.

FIG. 4 is a top view of the cable management device, according to a first embodiment.

FIG. 5 is a bottom view of the cable management device, according to a first embodiment.

FIG. 6 is a right side view of the cable management device, according to a first embodiment.

FIG. 7 is a left side view of the cable management device, according to a first embodiment.

FIG. 8 is a front perspective view of the cable management device, according to a second embodiment.

FIG. 9 is a front view of the cable management device, according to a second embodiment.

FIG. 10 is a rear view of the cable management device, according to a second embodiment.

FIG. 11 is a top view of the cable management device, according to a second embodiment.

FIG. 12 is a bottom view of the cable management device, according to a second embodiment.

FIG. 13 is a right side view of the cable management device, according to a second embodiment; and,

FIG. 14 is a left side view of the cable management device, according to a second embodiment.

The broken lines in the drawing views represent portions of the cable management device that form no part of the claimed design.
