(57) **CLAIM**

What is claimed is the ornamental design for a display screen with graphical user interface for conversations, as shown and described herein.

DESCRIPTION

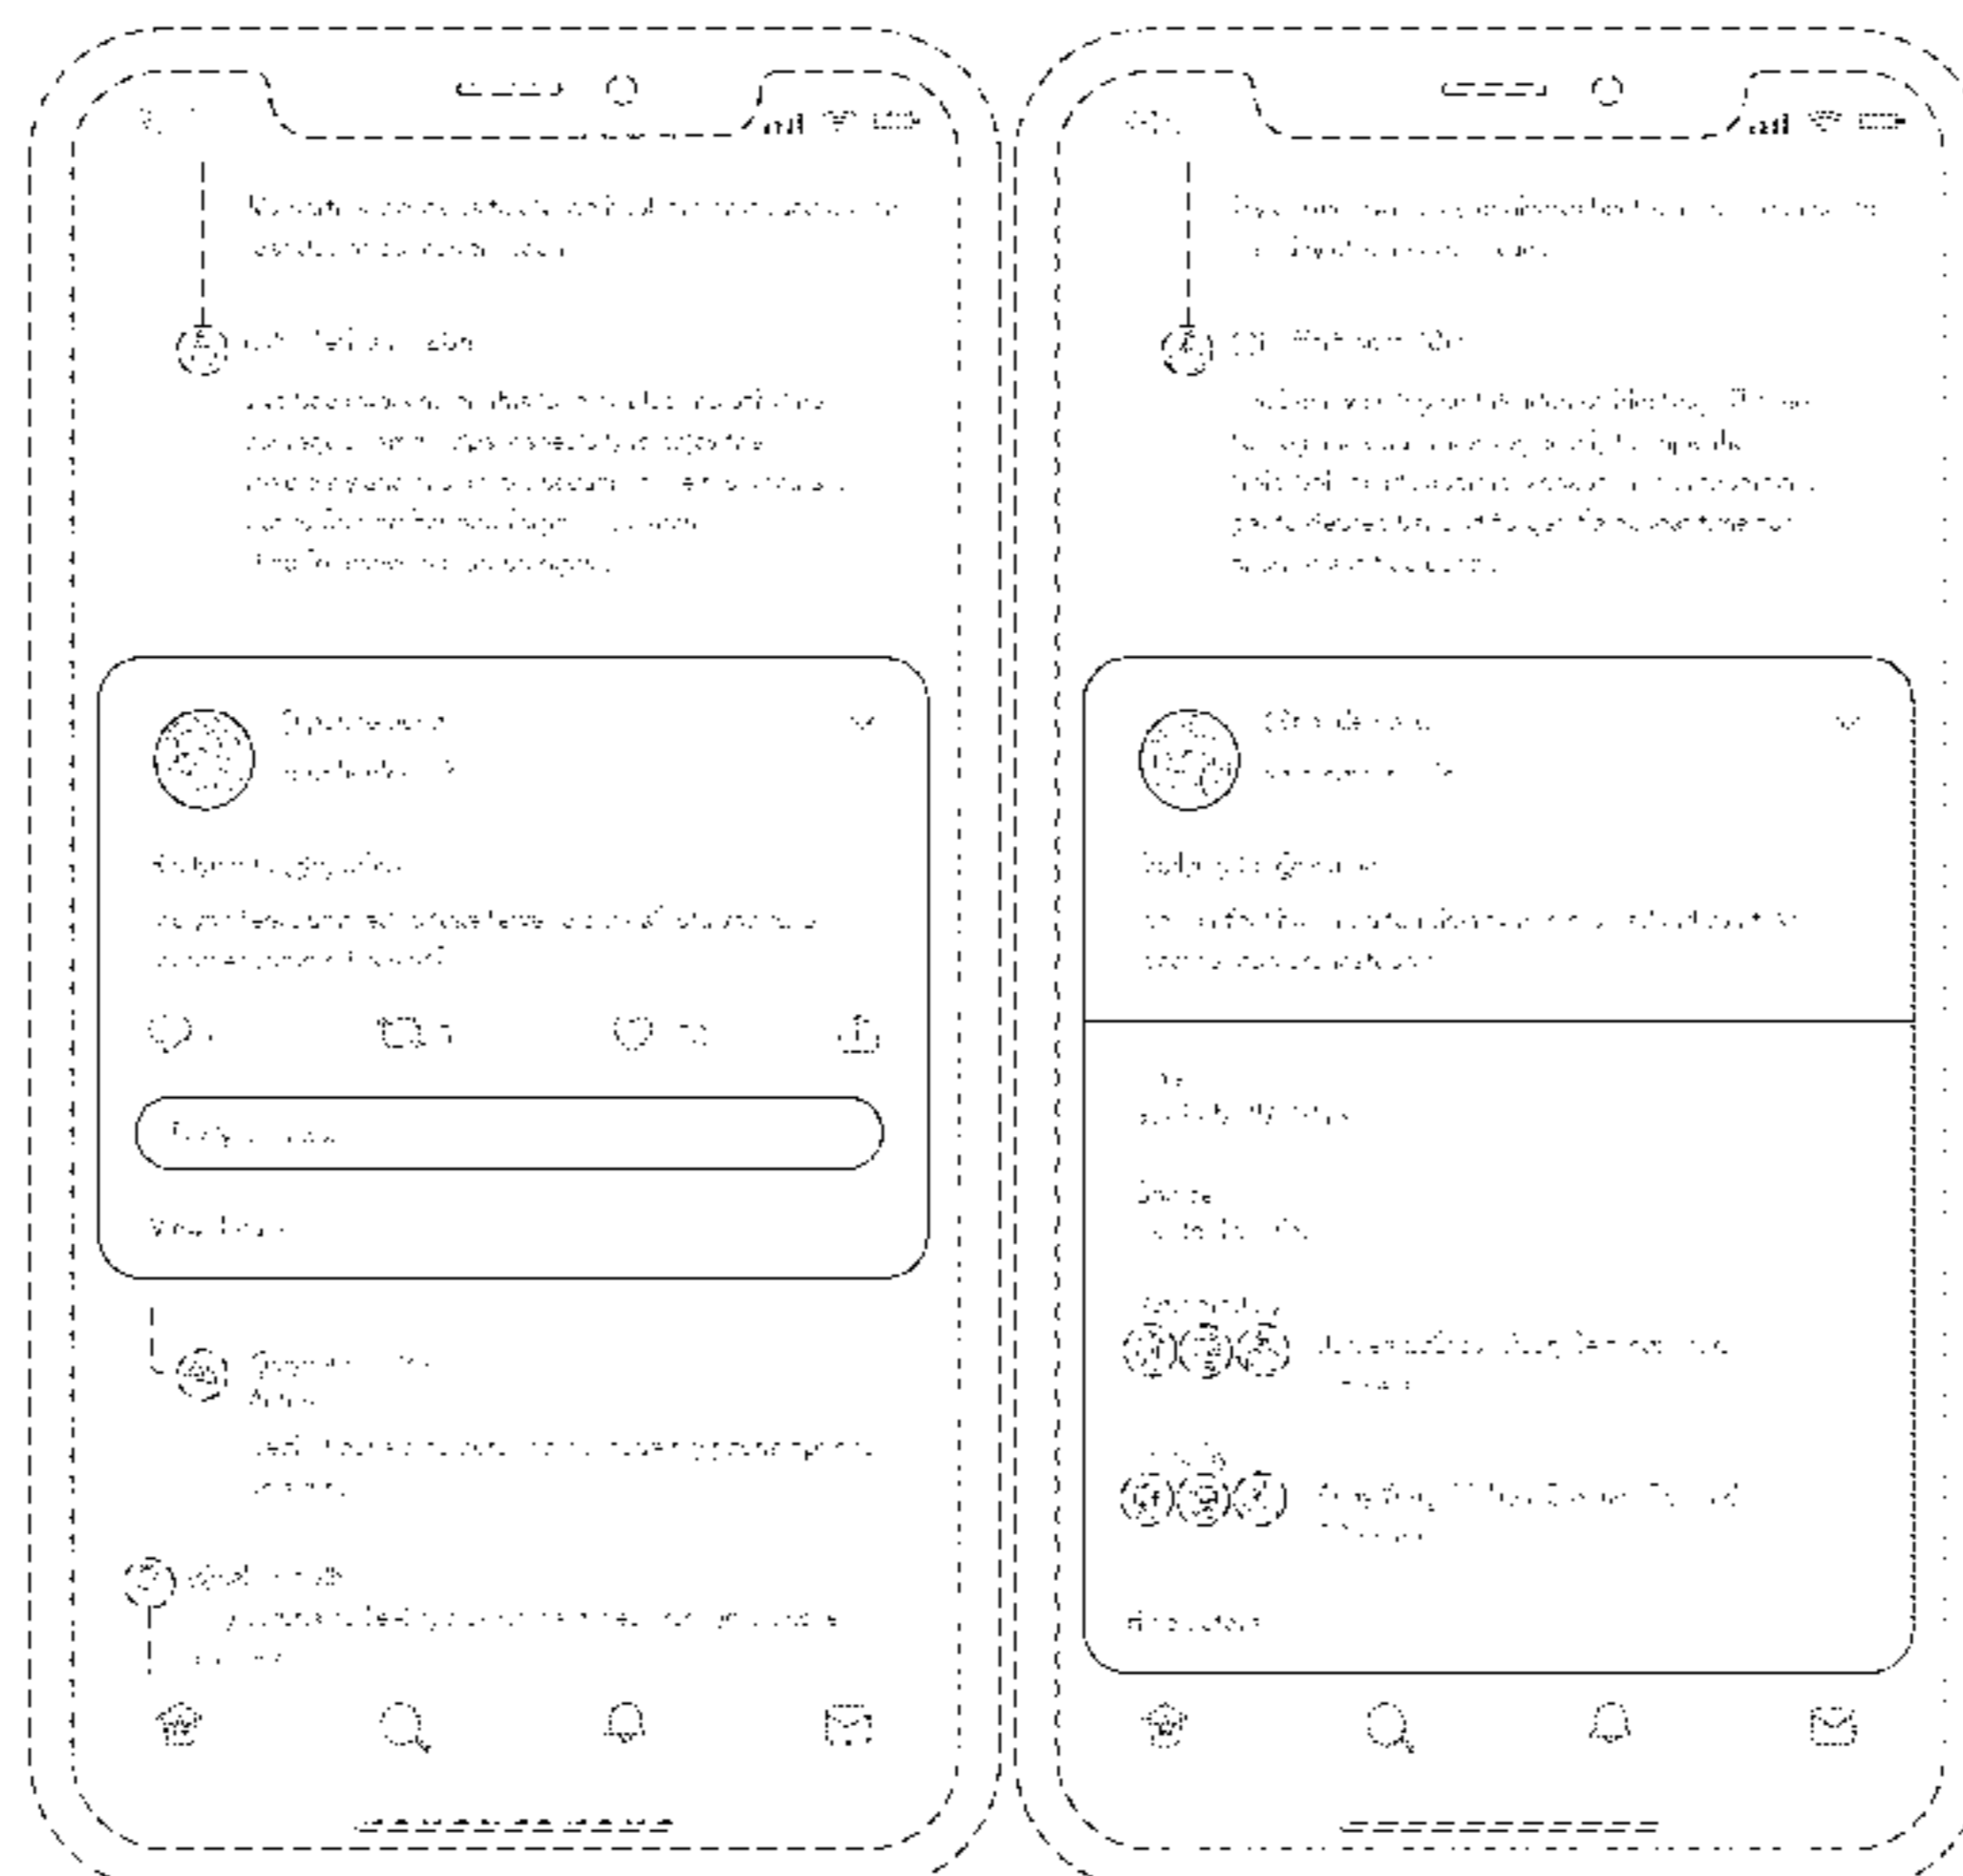

FIG. 1 is a front view of a first image in a sequence of a display screen with graphical user interface for conversations;

FIG. 2 is a front view of a second image thereof; and, FIG. 3 is a front view of a third image thereof.

The appearance of the animated image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design.

The outermost broken lines illustrate an electronic device, which is the environment of the design and forms no part of the claim. The remaining broken lines illustrate a display screen and portions of the graphical user interface that form no part of the claimed design.
