(57) **CLAIM**

The ornamental design for a display screen with an animated graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a first image in a sequence of an animated graphical user interface for a display screen showing the claimed design.

FIG. 2 is a front view of a second image thereof; and, FIG. 3 is a front view of a third image thereof.

The appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1-3. The process or period in which an image transitions to another forms no part of the claimed design. The broken lines shown in these figures form no part of the claimed design. The outermost solid line illustrates the perimeter of the display screen with the animated graphical user interface. The broken lines within the outermost solid lines illustrate portions of the display screen with the animated graphical user interface. The broken lines outside of the outermost solid lines illustrate portions of an electronic device.
