(57) **CLAIM**

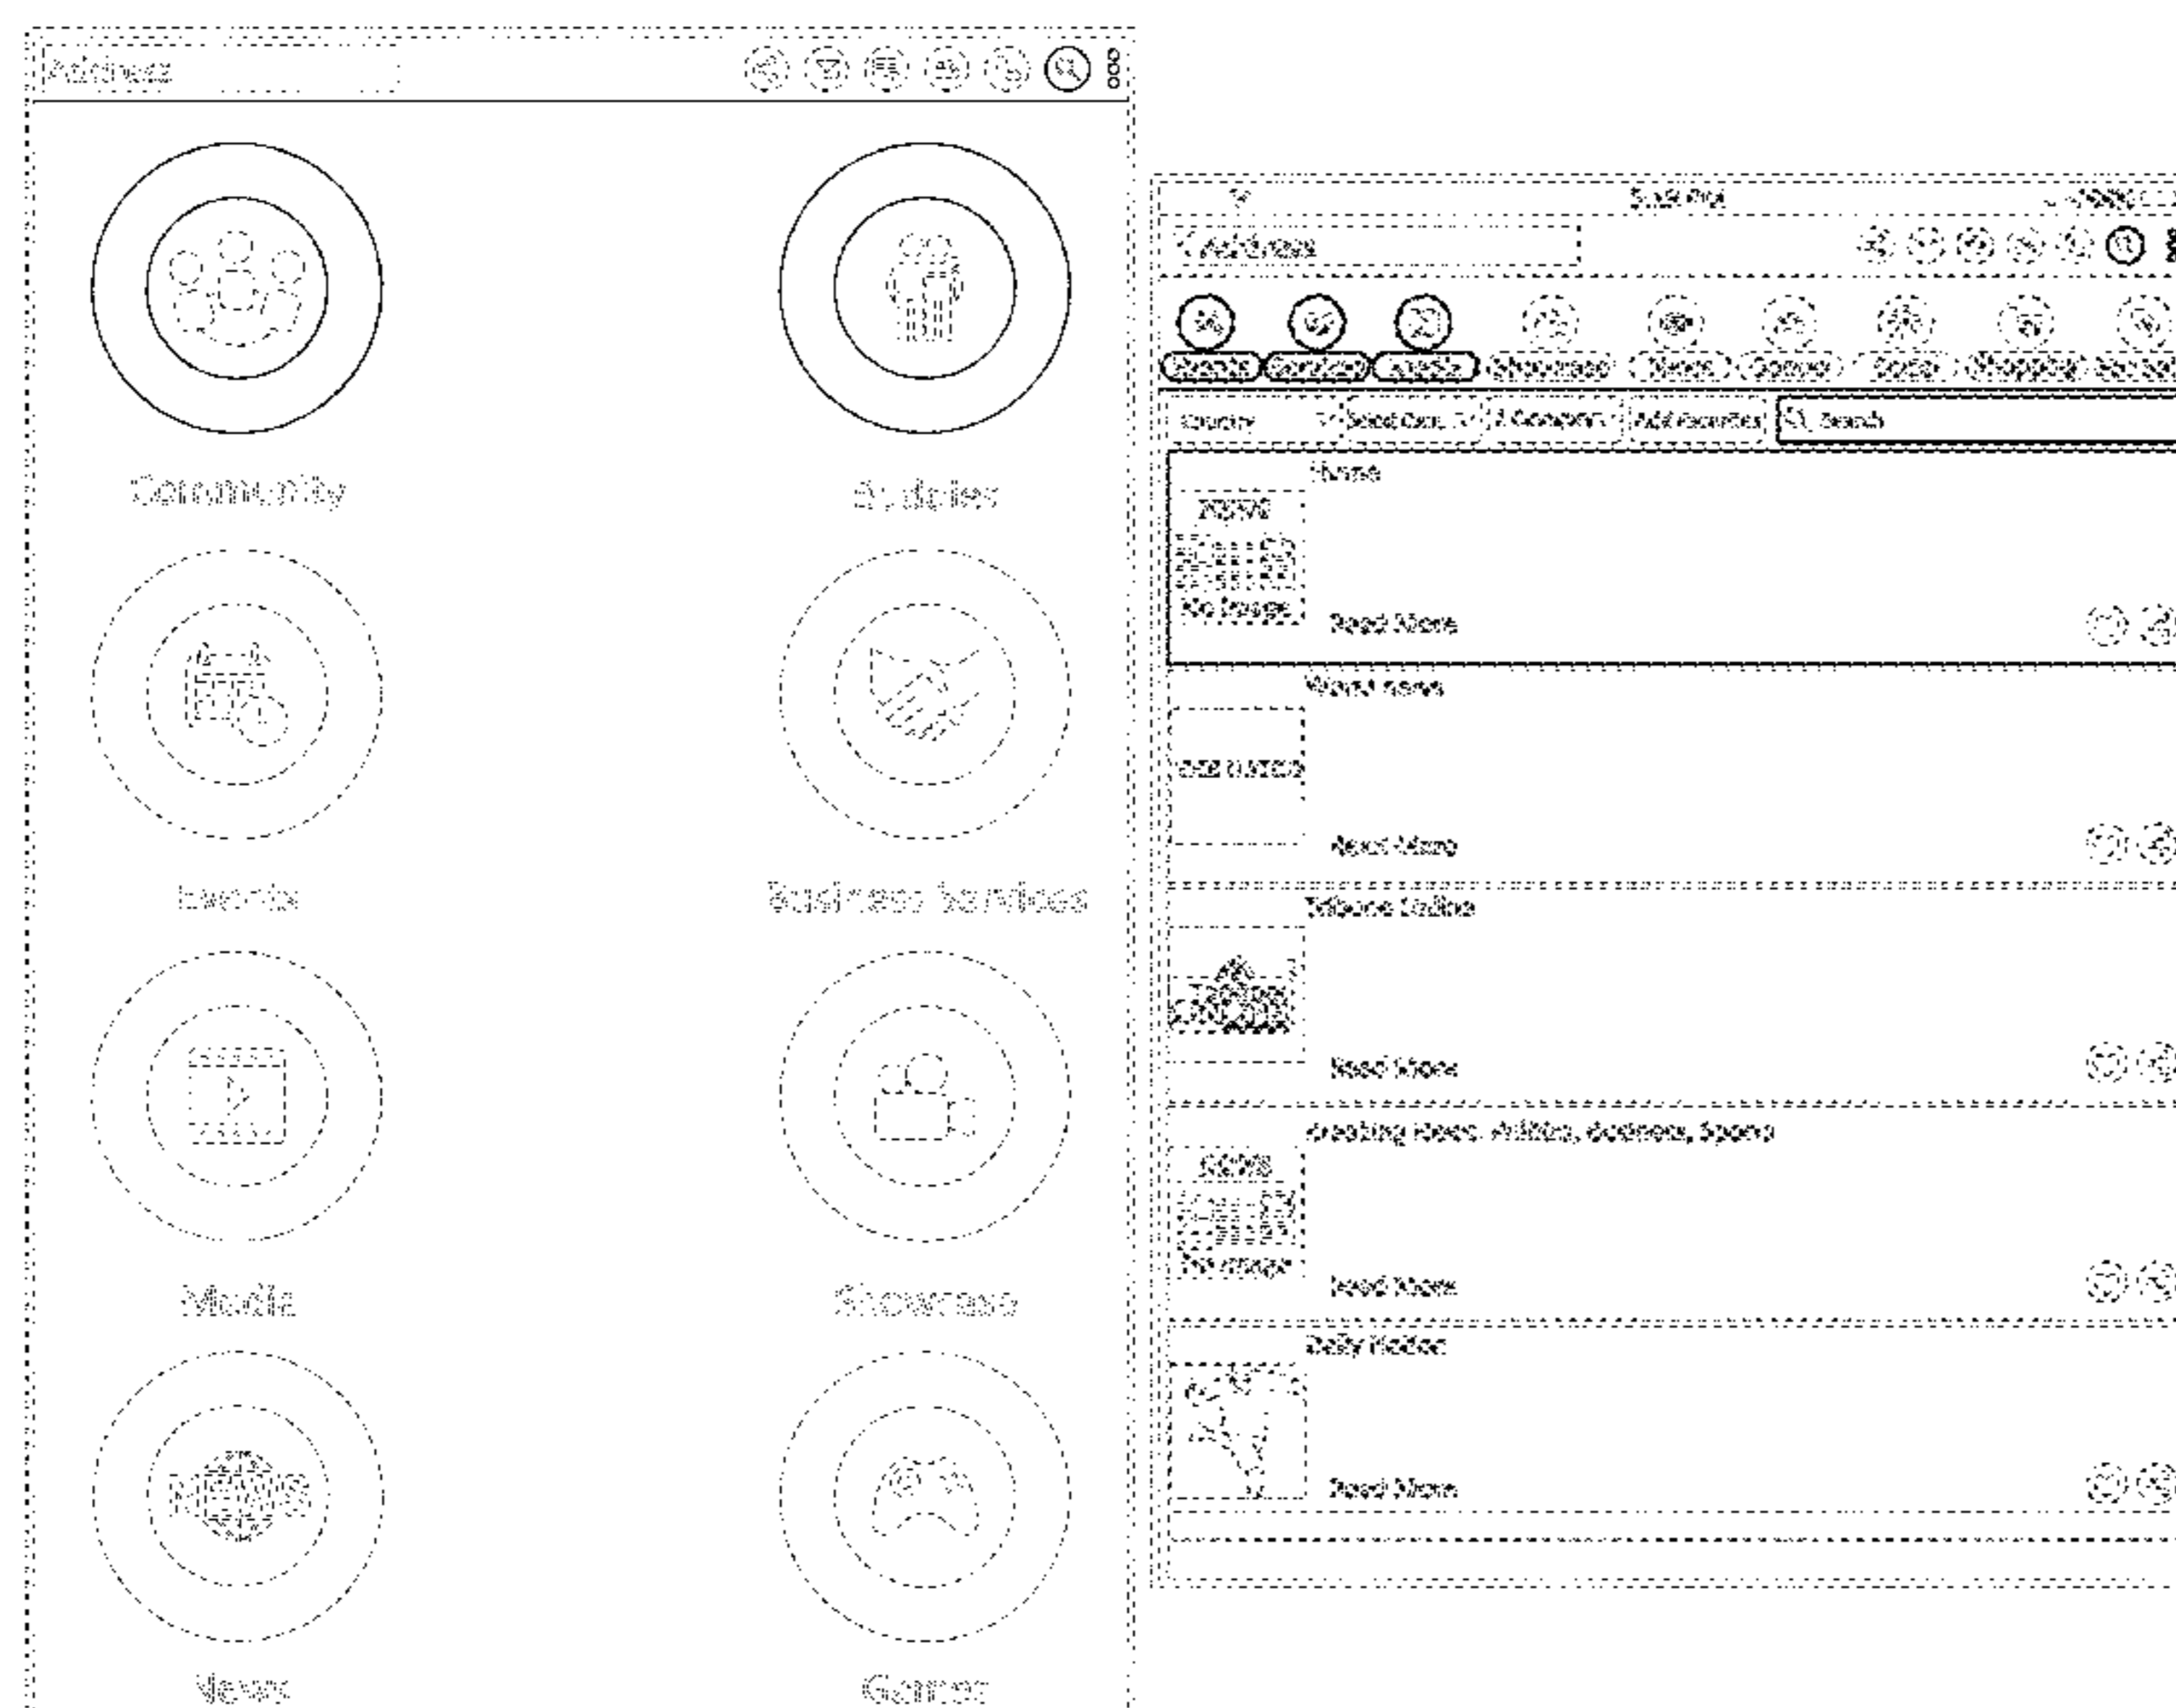

The ornamental design for a display screen or portion thereof with an animated graphical user interface for a native super application, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a first image in a sequence for a display screen or portion thereof with an animated graphical user interface for a native super application showing my new design; and,

FIG. 2 is a second image thereof in the sequence. The broken lines showing the device, device display screen, portion thereof, or other features form no part of the claimed design. However, content shown in solid lines within the broken lines are part of the claimed design. The appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1-2. The process or period in which one image transitions to another forms no part of the claimed design.
