**10 Fennec fox**

They are called a desert fox or a fennec fox, large ears are sensitive to even small sounds, making them easy to guard around or find small prey. Therefore, they get stressed easily when it comes to loud sounds, and personality is also very wary and sensitive. They live in groups of up to a dozen, and hide in burrows or hideouts during the day, hunting in groups at night. Also, as an omnivorous animal, they eat fruits such as scorpions, termites, and insects such as snakes and mice. they are known to have some immunity to scorpions or small snake venom. they are also resistant to drought, so you can live with only a small amount of water contained in the food without having to take water. Hair grown to the soles of the feet serves to protect the sandy surface of the hot desert to walk.

**21 Hippopotamus**

"We live in groups of 20 to 30 animals on average and are more sensitive to UV rays than other living things because of the nature of our skin, so if we are exposed to UV rays for a long time, we get a big scar. In some cases, wounds caused by ultraviolet rays worsen and die after only three days of exposure to sunlight, and young babies and adults who were kicked out of the hippopotamus due to the male hippopotamus' tendency to die in pain due to sunlight within two to three days. Therefore, they usually stay in the water during the day when the sun is hot and hot, and stay out of the water at night to eat grass. The hippopotamus is very they are also thanks to this fast healing power that does not cause many wounds despite always quarreling because of his fierce temper."

**67 Rabbit**

rabbit belong to mammals and include domestic rabbit that has bred and wild type. In Korea, Korean Hare are common species, and there are home rabbit that have been tamed and breeds that have been improved as pets. rabbit have always been wary and sensitive because they are preyed on by predators, so they are often likened to scared and weak people. "Surprised rabbit hops." "The rabbit's tail is as big as rabbit tail." However, in the story of "The Rabbit's Tale," which was taken to the palace but escaped again with their wit, the rabbit they are sometimes seen as a clever animal. Also, like the lyrics of the children's song "One Tree Rabbit and One Tree of Cinnamon," Koreans have a folk belief that rabbit live on the moon and show their symbolism like the spirit of the moon.
