(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. **1** is a front view of a display screen with graphical user interface according to the claimed design; and,

FIG. **2** is a front view of the display screen with graphical user interface, with a medical imaging system interface shown in environment.

The dash-dot-dash broken lines in FIGS. **1-2** showing the display screen illustrate environmental subject matter that forms no part of the claimed design.

The dash-dash broken lines in FIGS. **1-2** illustrate portions of the graphical user interface and environmental subject matter that form no part of the claimed design.

The oblique line shading on the central feature of the graphical user interface in FIGS. **1-2** represents the appearance of transparency of the central feature, through which portions of the unclaimed medical imaging system interface are visible.

The graphical user interface is arranged on the display screen in the drawings for the convenience of illustration, and the relative positioning of the graphical user interface on the display screen forms no part of the claimed design.
