(57) **CLAIM**

The ornamental design for a display screen or portion thereof having a graphical user interface for a presentation of information, as shown and described.

DESCRIPTION

The FIGURE is a front view of a display screen or portion thereof having a graphical user interface for a presentation of information showing our new design.

The outermost broken lines illustrate an electronic device, the broken line at the periphery of the graphical user interface illustrates the display screen or portion thereof, and the remaining broken line showing of text, numbers and graphical images illustrate portions of the graphical user interface. None of the broken lines form part of the claimed design.
