DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a display screen with graphical user interface for glucose management showing our new design; FIG. 2 is a front view of a second embodiment thereof; FIG. 3 is a front view of a third embodiment thereof; and, FIG. 4 is a front view of a fourth embodiment thereof.

The outer broken lines illustrate a portion of a display screen and form no part of the claimed design. The text and numerals shown in broken line in the graphical user interface form no part of the claimed design. The gray vertical broken line shown in the graphical user interface forms part of the claimed design.
