(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of the first image in a sequence of a display screen with transitional computer graphical user interface, according to a first embodiment of the new design; FIG. 2 is the second image thereof;

FIG. 3 is a front view of a first image in a sequence for a display screen with transitional graphical user interface, according to a second embodiment of the new design; and FIG. 4 is a second image thereof.

FIG. 5 is a front view of a first image in a sequence for a display screen with transitional graphical user interface, according to a third embodiment of the new design;

FIG. 6 is a second image thereof;

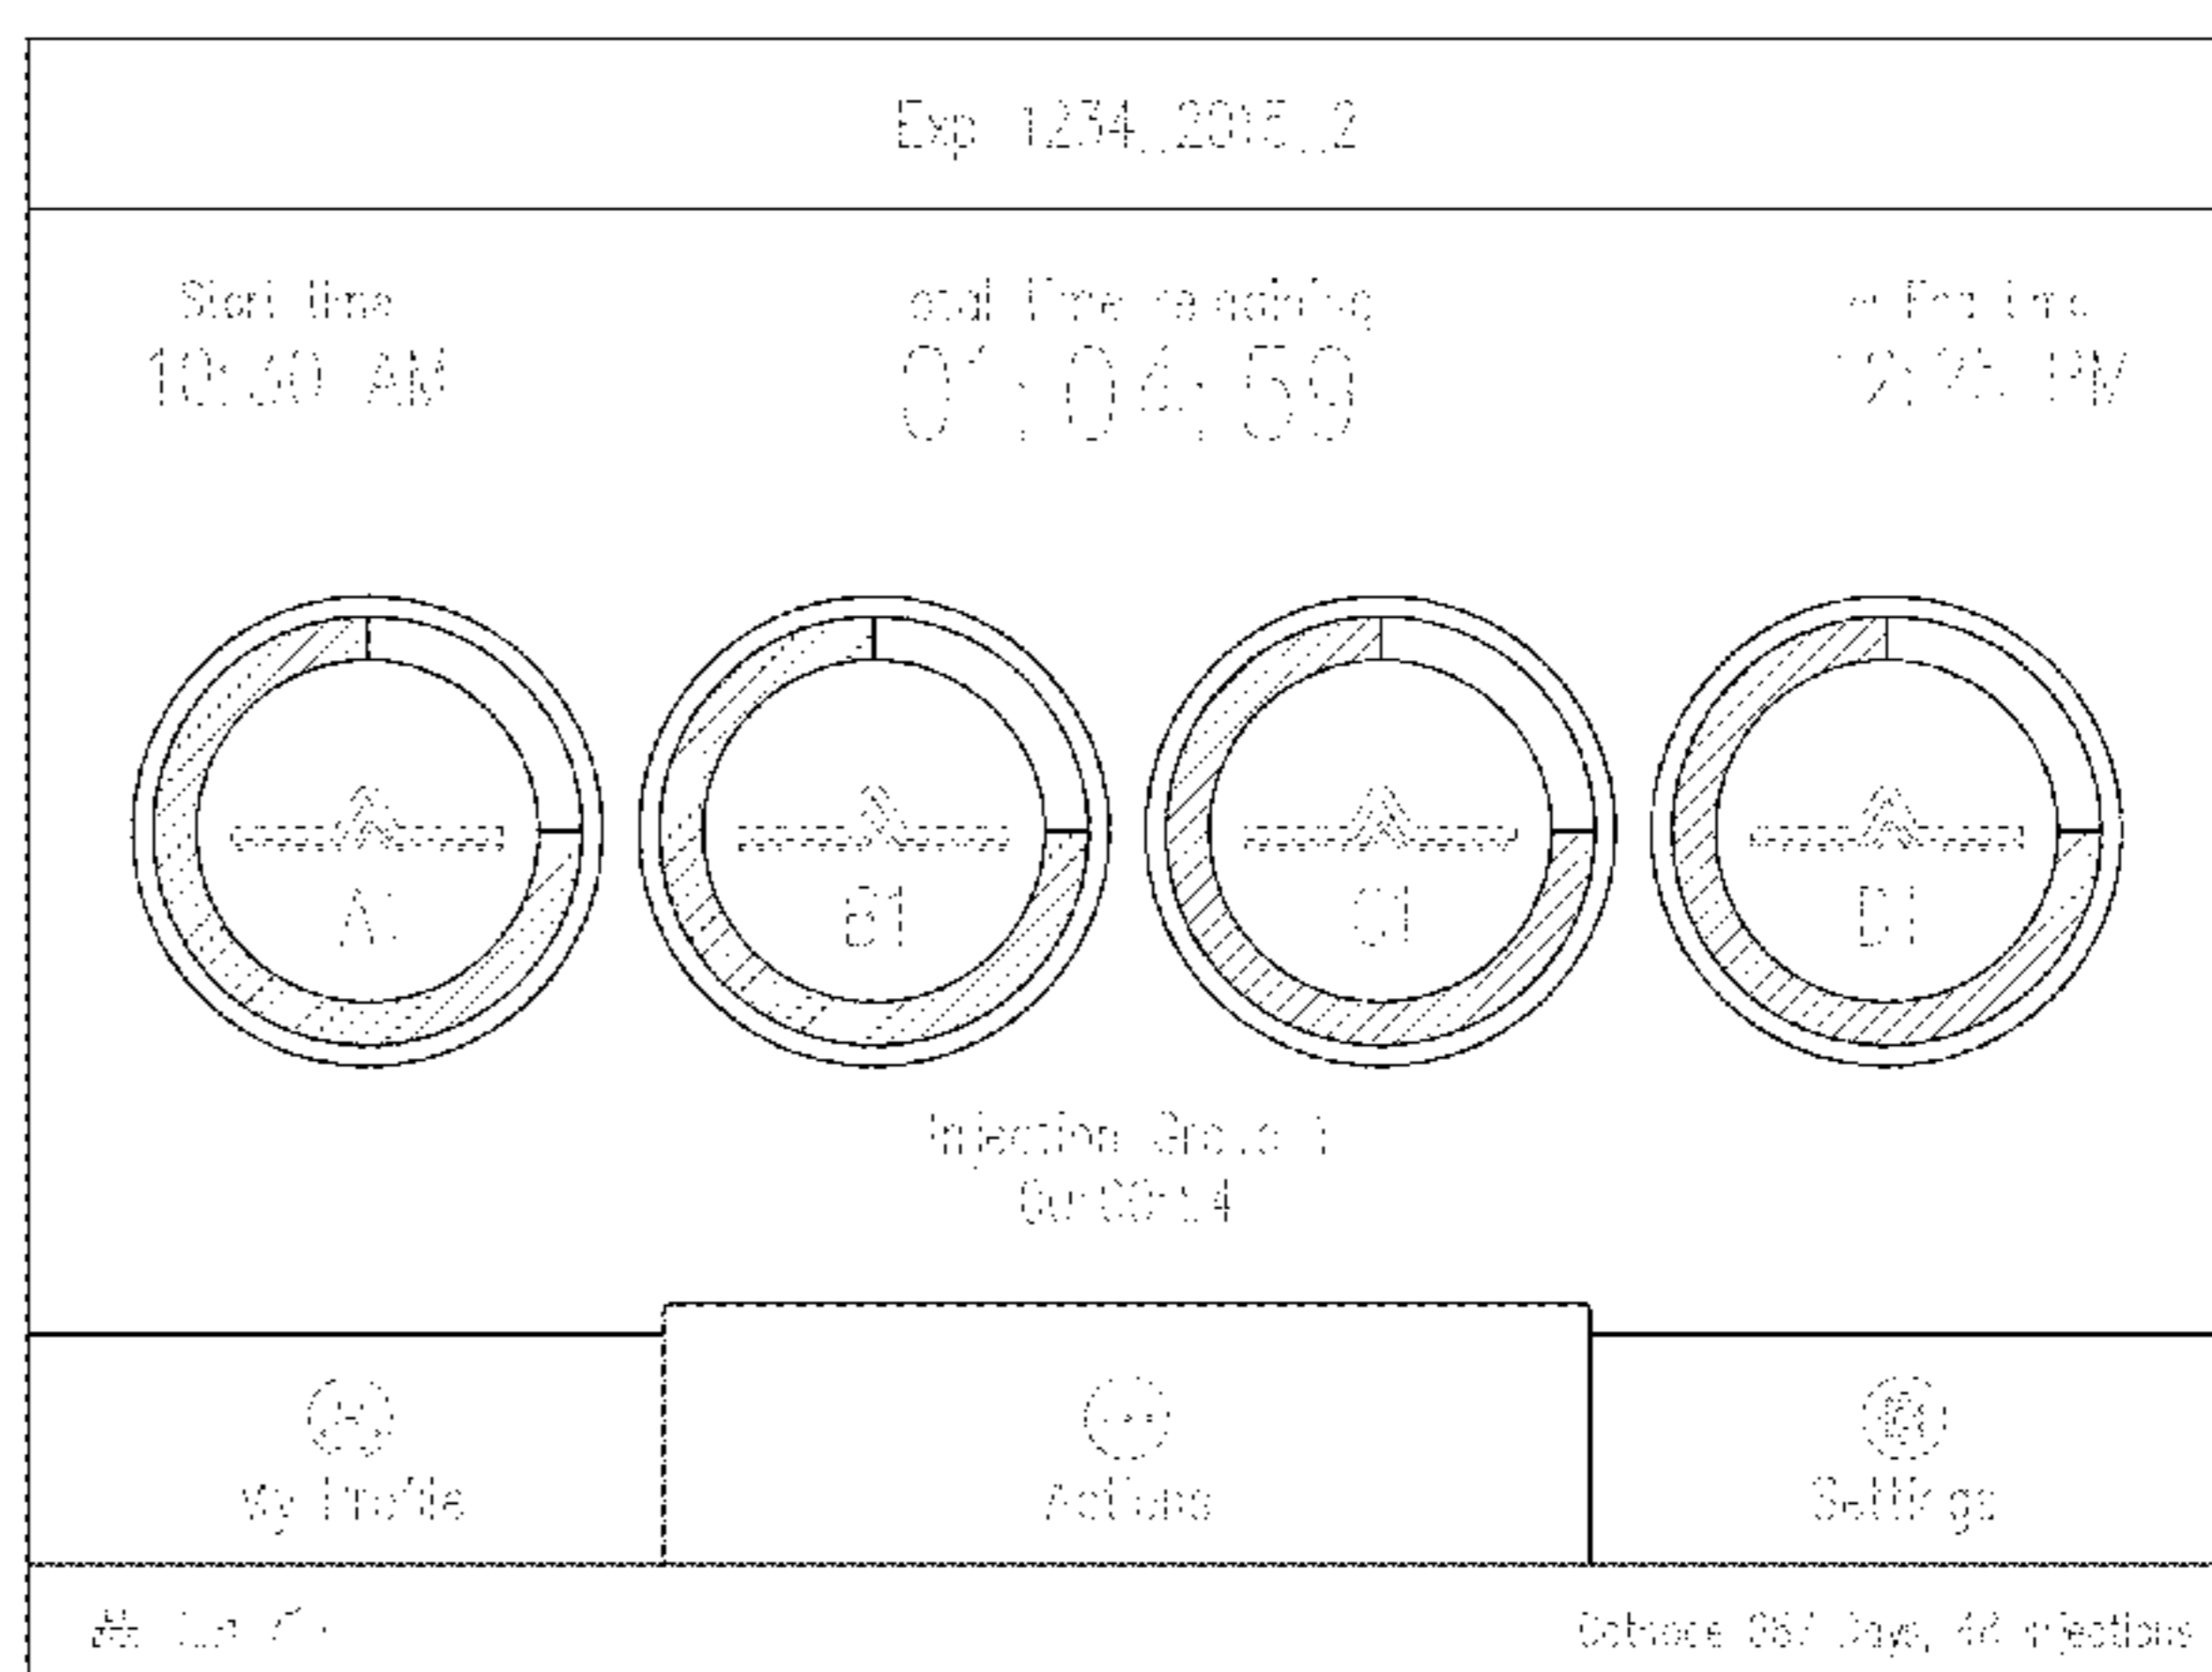

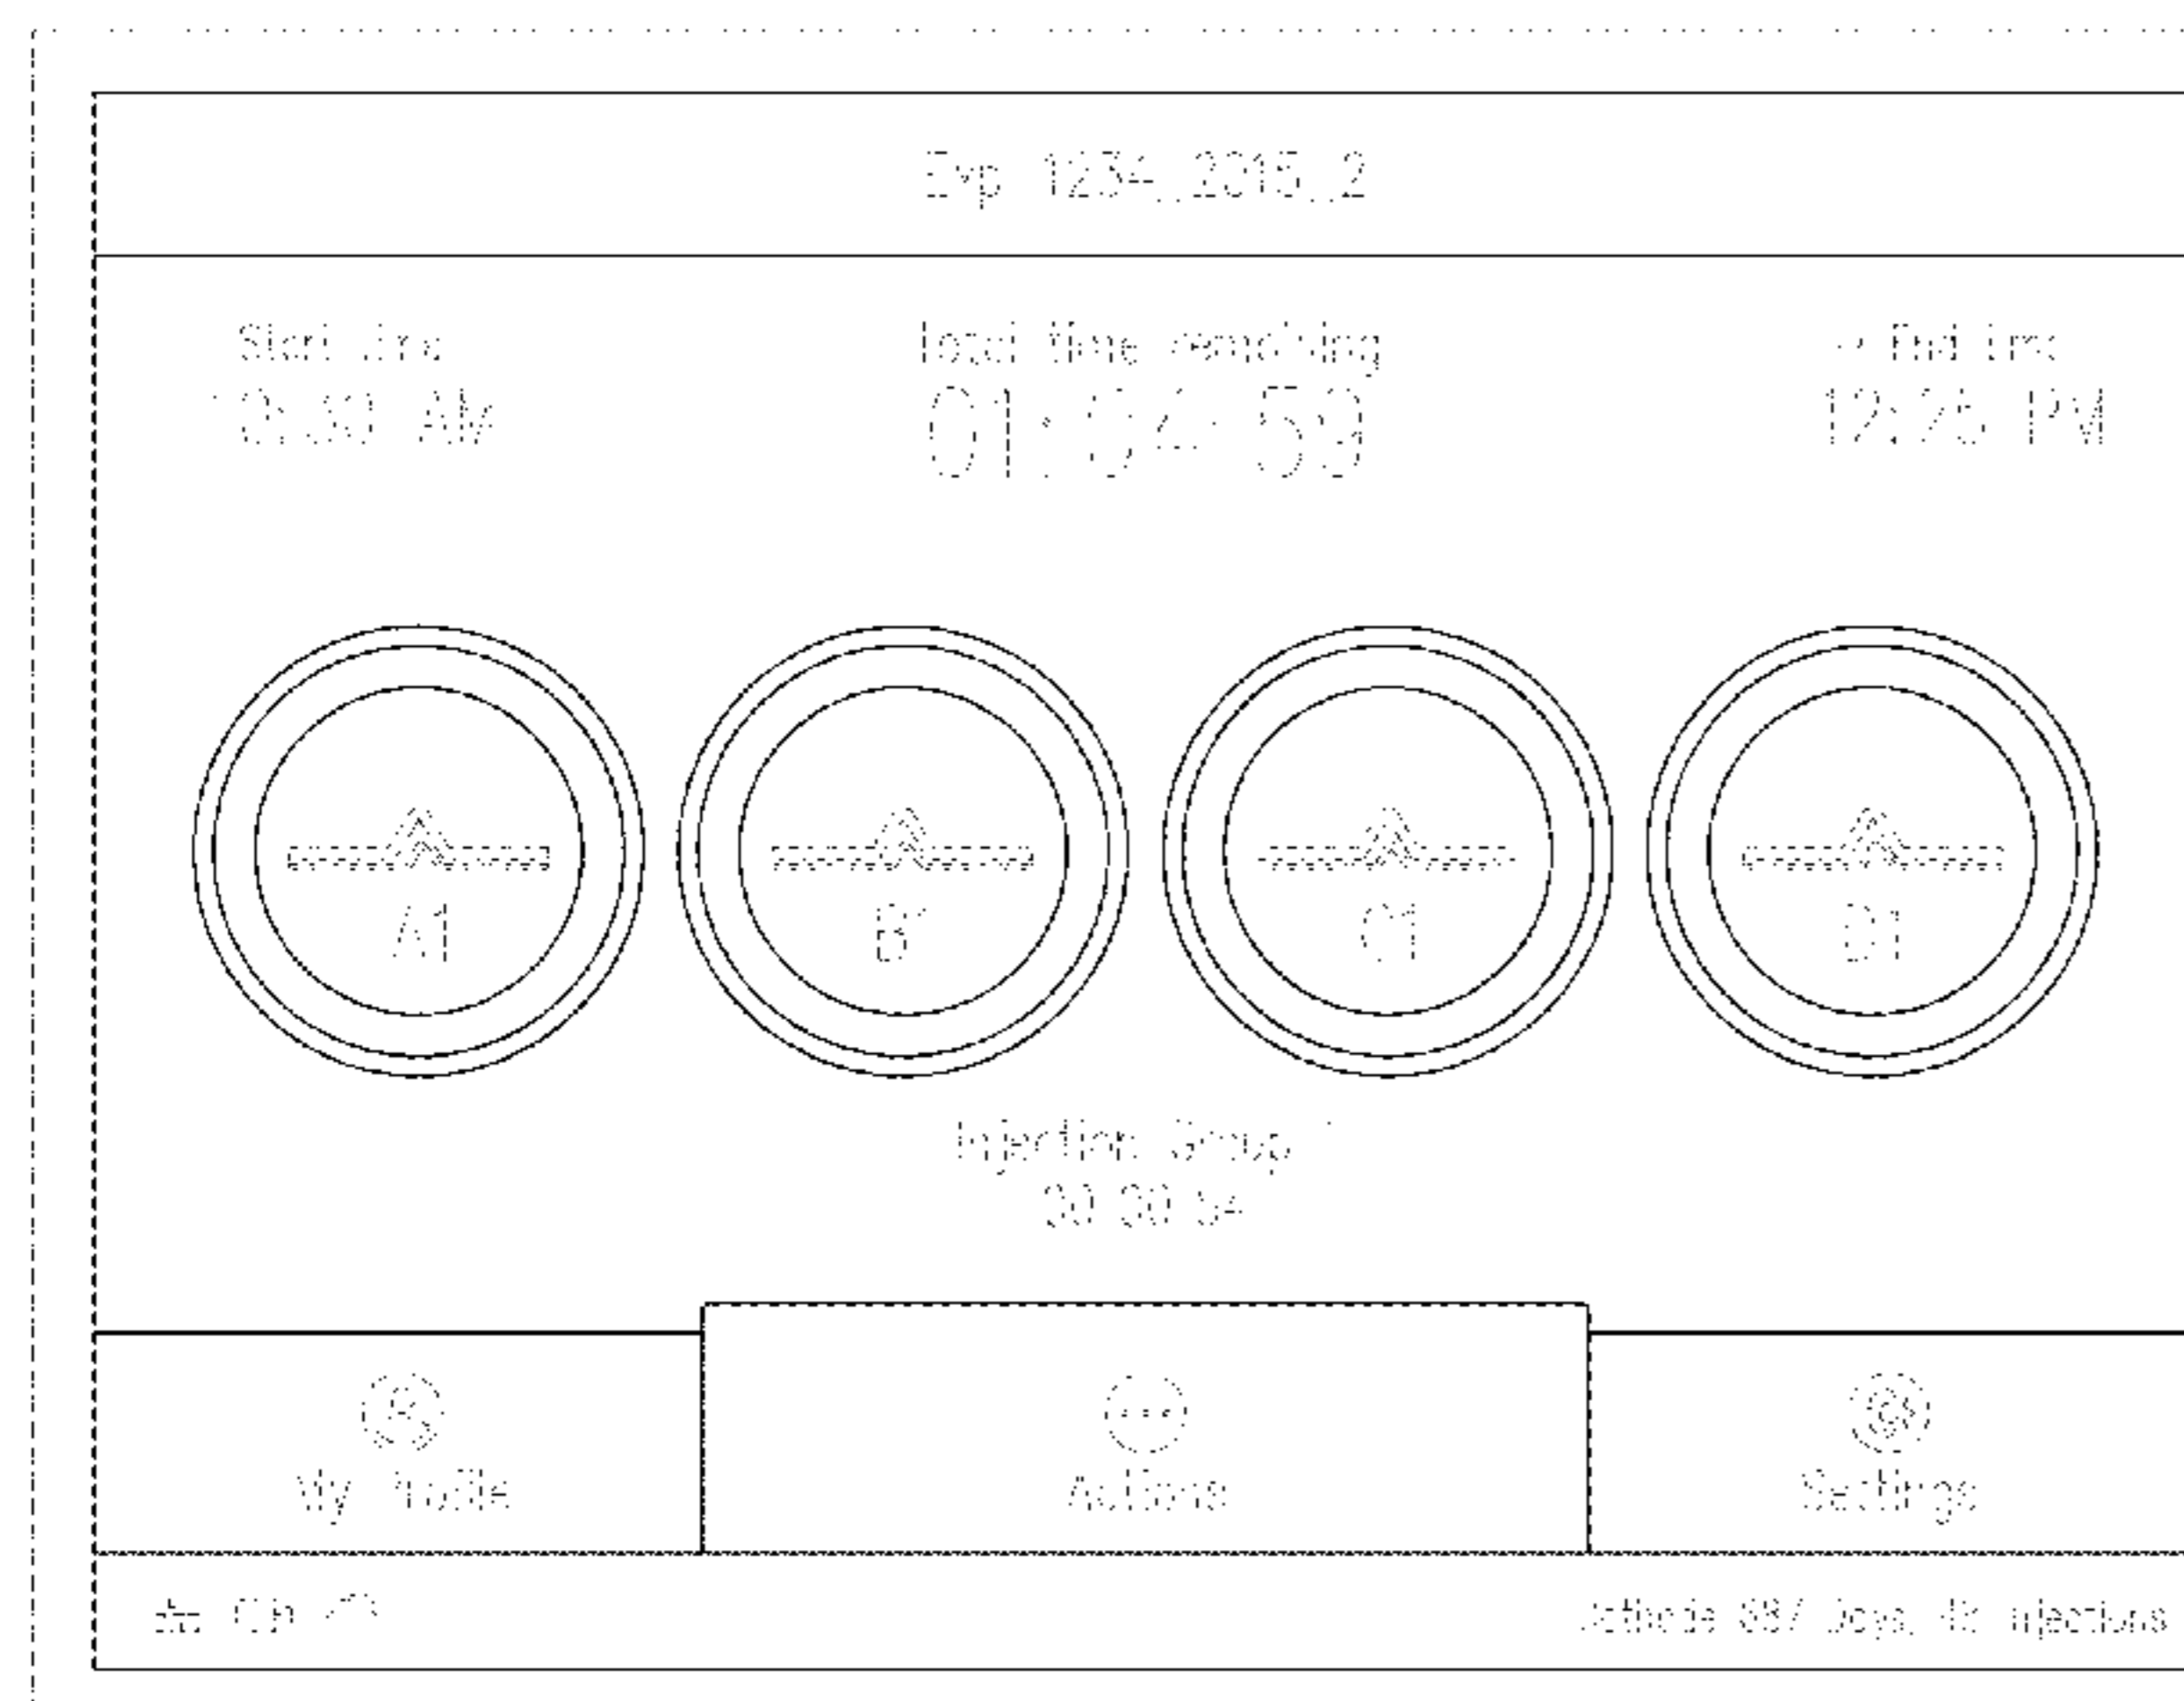

FIG. 7 is a front view of a first image in a sequence for a display screen with transitional graphical user interface, according to a fourth embodiment of the new design;

FIG. 8 is a second image thereof;

FIG. 9 is a front view of a first image in a sequence for a display screen with transitional graphical user interface, according to a fifth embodiment of the new design; and, FIG. 10 is a second image thereof.

In accordance with the present disclosure, the appearance of the graphical user interface transitions in a dynamic manner from the image shown in FIG. 1 to the image shown in FIG. 2. The appearance of the graphical user interface transitions in a dynamic manner from the image shown in FIG. 3 to the image shown in FIG. 4. The appearance of the graphical user interface transitions in a dynamic manner from the image shown in FIG. 5 to the image shown in FIG. 6. The appearance of the graphical user interface transitions in a dynamic manner from the image shown in FIG. 7 to the image shown in FIG. 8. The appearance of the graphical user interface transitions in a dynamic manner from the image shown in FIG. 9 to the image shown in FIG. 10. The process or period, in which one image transitions to another image, forms no part of the claimed design.

(Continued)

The broken line showing of the display screen and all other broken lines showing portions of the graphical user interface illustrate portions of the article and form no part of the claimed design.

**1 Claim, 10 Drawing Sheets**
