(57) CLAIM

The ornamental design for a carton/dispenser package, as shown and described.

DESCRIPTION

FIG. 1 is a top, front, right-side perspective view of a first configuration of a carton/dispenser package, with a tear-off section defined in part by perforated tear lines, showing the new design;
 FIG. 2 is a top, rear, left-side perspective view of the first configuration of the carton/dispenser package, with the tear-off section;
 FIG. 3 is a bottom, rear, right-side perspective view of the first configuration of the carton/dispenser package, with the tear-off section;
 FIG. 4 is a bottom, front, left-side perspective view of the first configuration of the carton/dispenser package, with the tear-off section;
 FIG. 5 is a front view of the first configuration of the carton/dispenser package, with the tear-off section;
 FIG. 6 is a rear view of the first configuration of the carton/dispenser package, with the tear-off section;
 FIG. 7 is a left-side view of the first configuration of the carton/dispenser package, with the tear-off section, where in this view the carton/dispenser package can more easily be seen inclined backward;
 FIG. 8 is a right-side view of the first configuration of the carton/dispenser package, with the tear-off section, where in this view the carton/dispenser package can more easily be seen inclined backward;
 FIG. 9 is a top view of the first configuration of the carton/dispenser package, with the tear-off section;
 FIG. 10 is a bottom view of the first configuration of the carton/dispenser package, with the tear-off section;

FIG. 11 is a top, front, right-side perspective view of a second configuration of the carton/dispenser package, with the tear-off section removed;

FIG. 12 is a front, right-side perspective view of the second configuration of the carton/dispenser package, with the tear-off section removed;

FIG. 13 is a top, rear, left-side perspective view of the second configuration of the carton/dispenser package, with the tear-off section removed;

FIG. 14 is a bottom, rear, right-side perspective view of the second configuration of the carton/dispenser package, with the tear-off section removed;

FIG. 15 is a bottom, front, left-side perspective view of the second configuration of the carton/dispenser package, with the tear-off section removed;

FIG. 16 is a front view of the second configuration of the carton/dispenser package, with the tear-off section removed;

FIG. 17 is a rear view of the second configuration of the carton/dispenser package, with the tear-off section removed;

FIG. 18 is a left-side view of the second configuration of the carton/dispenser package, with the tear-off section removed, where in this view the carton/dispenser package can more easily be seen inclined backward;

FIG. 19 is a right-side view of the second configuration of the carton/dispenser package, with the tear-off section removed, where in this view the carton/dispenser package can more easily be seen inclined backward;

FIG. 20 is a top view of the second configuration of the carton/dispenser package, with the tear-off section removed; and,

FIG. 21 is a bottom view of the second configuration of the carton/dispenser package, with the tear-off section removed. The long dashed broken lines in the drawings represent perforated tear lines, and the short dashed broken lines represent environmental subject matter that forms no part of the claimed design.
