(57) **CLAIM**

The ornamental design for an electronic device with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an electronic device with animated graphical user interface;

FIG. 2 is a top view of the electronic device of FIG. 1 with a first image for the display screen with animated graphical user interface showing our new design;

FIG. 3 is a top view of the electronic device of FIG. 1 with a second image for the display screen with animated graphical user interface showing our new design;

FIG. 4 is a top view of the electronic device of FIG. 1 with a third image for the display screen with animated graphical user interface showing our new design; and,

FIG. 5 is an enlarged view of circle 5 in FIG. 1 showing the claimed portion of the touch control area of the keyboard of FIGS. 1, 2, 3 and 4, shown isolated and enlarged for clarity of illustration.

The claim is directed towards the solid lines showing of an animated graphical user interface shown on the display screen and the solid line and shaded portions of the three circular recesses appearing on the upper left portion of the keyboard.

The appearance of the animated graphical user interface sequentially transitions between the first, second, and third images shown in FIGS. 2-4. The broken lines shown in the drawings, including all of the icons on the display screen in FIGS. 1-4, and all of the lettering appearing on the touch control area of the keyboard, illustrate portions of the electronic device that form no part of the claimed design.
