(57) **CLAIM**

The ornamental design for an accessory mount with an integrated switch, as shown and described.

DESCRIPTION

FIG. 1 is a top isometric view of a first embodiment of an accessory mount with an integrated switch, wherein an example illumination device is shown in broken lines;

FIG. 2 is a top isometric view of the accessory mount with an integrated switch shown in FIG. 1, wherein the example illumination device is not shown;

FIG. 3 is a bottom isometric view of the accessory mount with an integrated switch shown in FIG. 2;

FIG. 4 is a front view of the accessory mount with an integrated switch shown in FIG. 2;

FIG. 5 is a right side view of the accessory mount with an integrated switch shown in FIG. 2;

FIG. 6 is a back view of the accessory mount with an integrated switch shown in FIG. 2;

FIG. 7 is a left side view of the accessory mount with an integrated switch shown in FIG. 2;

FIG. 8 is a top view of the accessory mount with an integrated switch shown in FIG. 2;

FIG. 9 is a bottom view of the accessory mount with an integrated switch shown in FIG. 2;

FIG. 10 is a top isometric view of a second embodiment of an accessory mount with an integrated switch, wherein an example illumination device is shown in broken lines;

FIG. 11 is a top isometric view of the accessory mount with an integrated switch shown in FIG. 10, wherein the example illumination device is not shown;

FIG. 12 is a bottom isometric view of the accessory mount with an integrated switch shown in FIG. 11;

FIG. 13 is a front view of the accessory mount with an integrated switch shown in FIG. 11;

FIG. 14 is a right side view of the accessory mount with an integrated switch shown in FIG. 11;

FIG. 15 is a back view of the accessory mount with an integrated switch shown in FIG. 11;

FIG. 16 is a left side view of the accessory mount with an integrated switch shown in FIG. 11;

FIG. 17 is a top view of the accessory mount with an integrated switch shown in FIG. 11; and,

FIG. 18 is a bottom view of the accessory mount with an integrated switch shown in FIG. 11.

The broken lines showing the example illumination device form no part of the claimed design. The remainder of the

(Continued)

broken lines represent portions of the accessory mount with an integrated switch that form no part of the claimed design.
