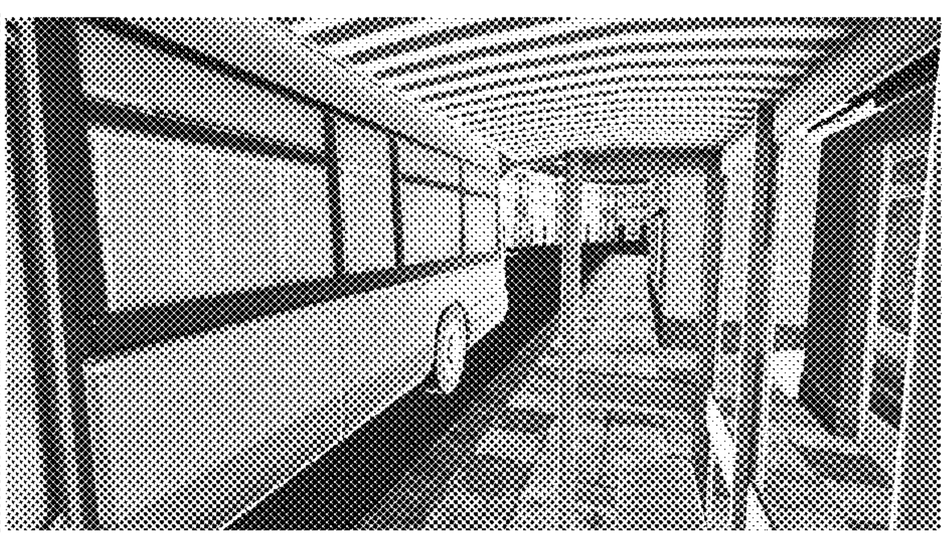
(57) **CLAIM**

We claim the ornamental design for a virtual reality goggles with graphical user interface, as shown and described.

DESCRIPTION

FIG. **1** is a front view of virtual reality goggles with graphical user interface that may be employed for viewing virtual reality images illustrated in FIGS. **7** through **15**;
FIG. **2** is a rear view of the virtual reality goggles with graphical user interface of FIG. **1**;
FIG. **3** is a right-side view of the virtual reality goggles with graphical user interface of FIG. **1**;
FIG. **4** is a left-side view of the virtual reality goggles with graphical user interface of FIG. **1**;
FIG. **5** is a top view of the virtual reality goggles with graphical user interface of FIG. **1**;
FIG. **6** is an underside view of the virtual reality goggles with graphical user interface of FIG. **1**;
FIG. **7** is a front view of the virtual reality goggles with graphical user interface of FIG. **1**, illustrating a first virtual reality image of a series of sequential images constituting a first embodiment;
FIG. **8** is an enlarged view of the first virtual reality image of the first embodiment from FIG. **7**;
FIG. **9** is another virtual reality image of the first embodiment subsequent to the image of FIG. **8**;
FIG. **10** is another virtual reality image of the first embodiment subsequent to the image of FIG. **9**;
FIG. **11** is another virtual reality image of the first embodiment subsequent to the image of FIG. **10**;
FIG. **12** is another virtual reality image of the first embodiment subsequent to the image of Figure;
FIG. **13** is another virtual reality image of the first embodiment subsequent to the image of FIG. **12**;
FIG. **14** is another virtual reality image of the first embodiment subsequent to the image of FIG. **13**; and,
FIG. **15** is another virtual reality image of the first embodiment subsequent to the image of FIG. **14**.
The dot-dash-dot broken lines define the bounds of the claimed design and form no part thereof. The dashed broken line showing of virtual reality goggles is included for the
(Continued)



purpose of illustrating portions of the article and forms no part of the claimed design. The appearance of the transitional image sequentially transitions between the images shown in FIG. **8-15**. The process or period in which one image transitions to another image forms no part of the claimed design.
