(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with transitional graphical user interface showing a first image in a sequence according to the claimed design; FIG. 2 is a front view of a second image in the sequence; and FIG. 3 is a front view of a third image in the sequence; and, FIG. 4 is a front view of a fourth image in the sequence. The appearance of the transition is sequential from FIG. 1 to FIG. 4. The process or period in which an image transitions to another image forms no part of the claimed design. The shading is part of the claim. The outermost broken line illustrates the display screen and a boundary and the remaining broken lines illustrate portions of the transitional graphical user interface. None of the broken lines form part of the claimed design.
