(57) **CLAIM**

The ornamental design for an electric roller press, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view showing the top, front and right side of an electric roller press which forms our new design, wherein a front door of the roller press is shown closed; FIG. 2 is a perspective view showing the top, front and right side thereof, wherein the front door is shown opened; FIG. 3 is a front elevational view thereof with the front door shown closed; FIG. 4 is a front elevational view thereof with the front door shown opened; FIG. 5 is a rear elevational view thereof; FIG. 6 is a top plan view thereof with the front door shown closed; FIG. 7 is a top plan view thereof with the front door shown opened; FIG. 8 is a right side elevational view thereof with the front door shown closed; and, FIG. 9 is a right side elevational view thereof with the front door shown opened. The broken lines in the drawings depict portions of the electric roller press that form no part of the claimed design.
