(57) **CLAIM**

The ornamental design for an outlet-to-tube connector for positive airway pressure delivery console, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of an outlet-to-tube connector for positive airway pressure delivery console showing our new design in a first embodiment; FIG. 2 is another perspective view thereof showing the connector in isolation; FIG. 3 is a left side view thereof; FIG. 4 is a right side view thereof; FIG. 5 is a top view thereof; FIG. 6 is a bottom view thereof; FIG. 7 is a front view thereof; FIG. 8 is a rear view thereof; FIG. 9 is a reverse front perspective view thereof; FIG. 10 is a front perspective view of an outlet-to-tube connector for positive airway pressure delivery console showing our new design in a second embodiment; FIG. 11 is another perspective view thereof showing the connector in isolation; FIG. 12 is a left side view thereof; FIG. 13 is a right side view thereof; FIG. 14 is a top view thereof; FIG. 15 is a bottom view thereof; FIG. 16 is a front view thereof; FIG. 17 is a rear view thereof; and, FIG. 18 is a reverse front perspective view thereof. The broken lines in the drawings illustrate portions of the outlet-to-tube connector for positive airway pressure delivery console which form no part of the claimed design. The combination of line shading and stippling is intended to convey a contrast in appearance/materials.
