(57) **CLAIM**

The ornamental design for a fire-resistant evacuation and rescue bag, as shown and described.

DESCRIPTION

FIG. 1 is a front, left side, and top perspective view of a fire-resistant evacuation and rescue bag showing my new design;

FIG. 2 is a front view thereof;

FIG. 3 is a left side view thereof;

FIG. 4 is a right side view thereof;

FIG. 5 is a rear view thereof;

FIG. 6 is a top view thereof;

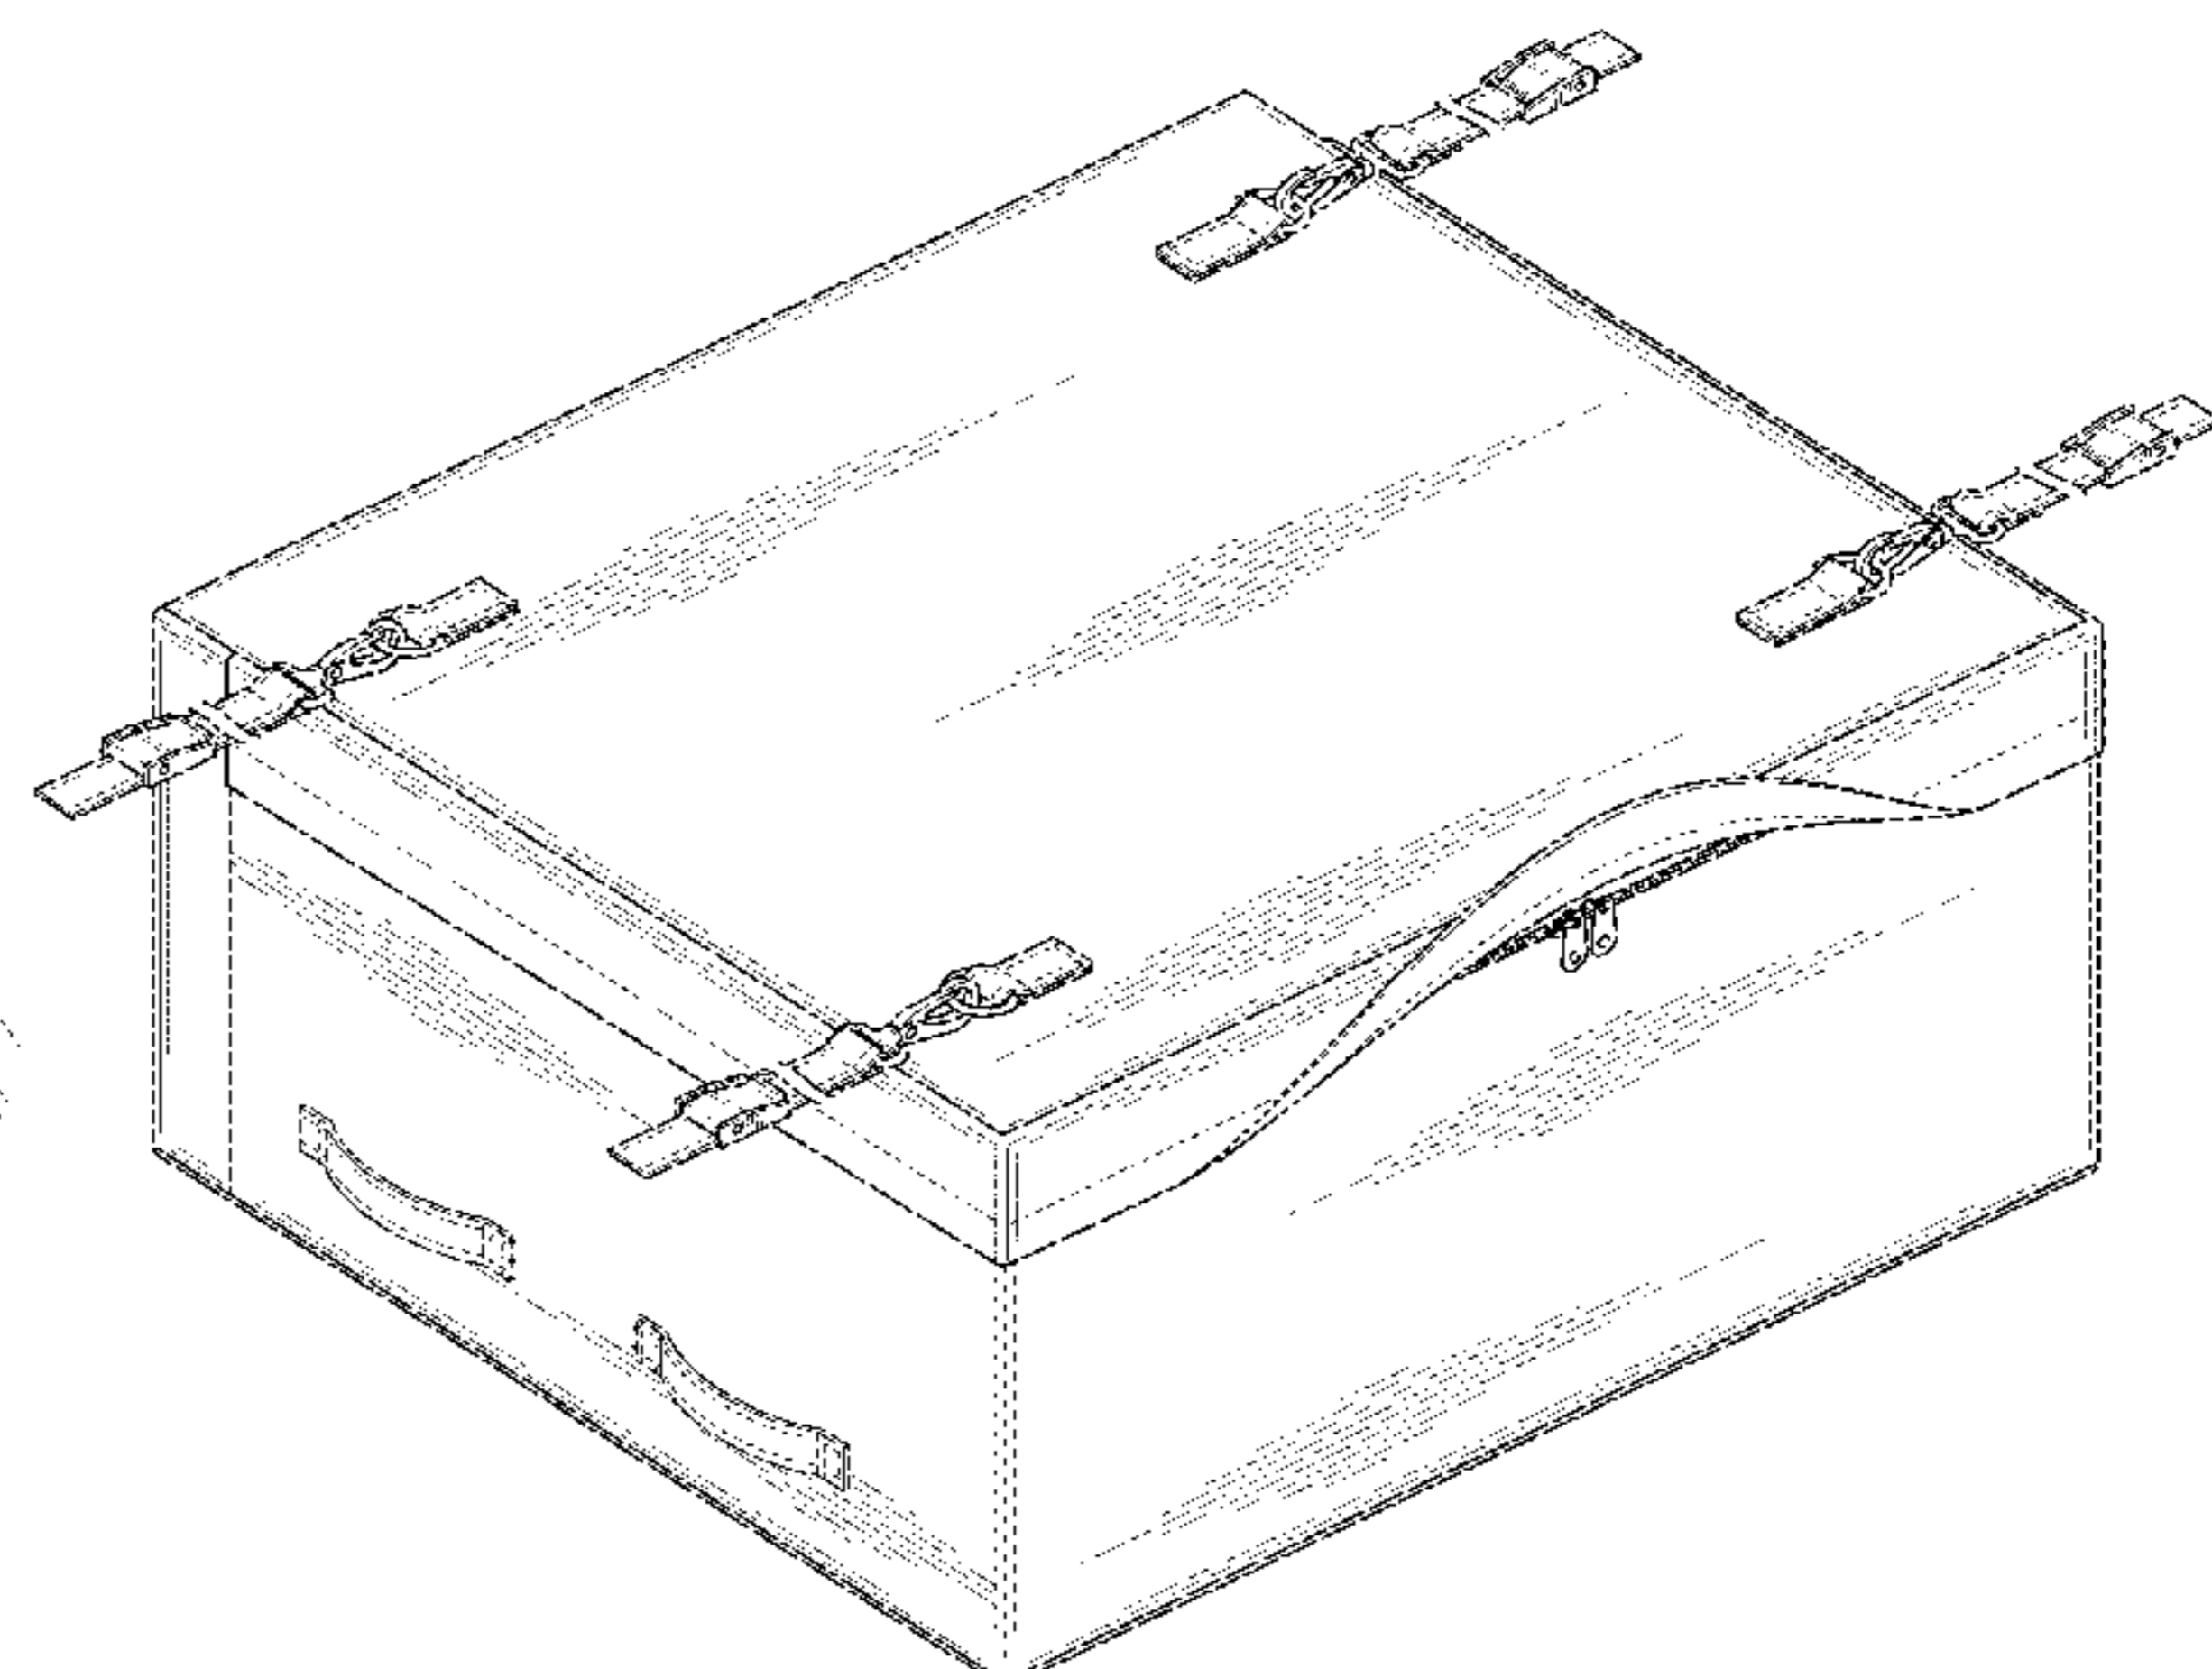

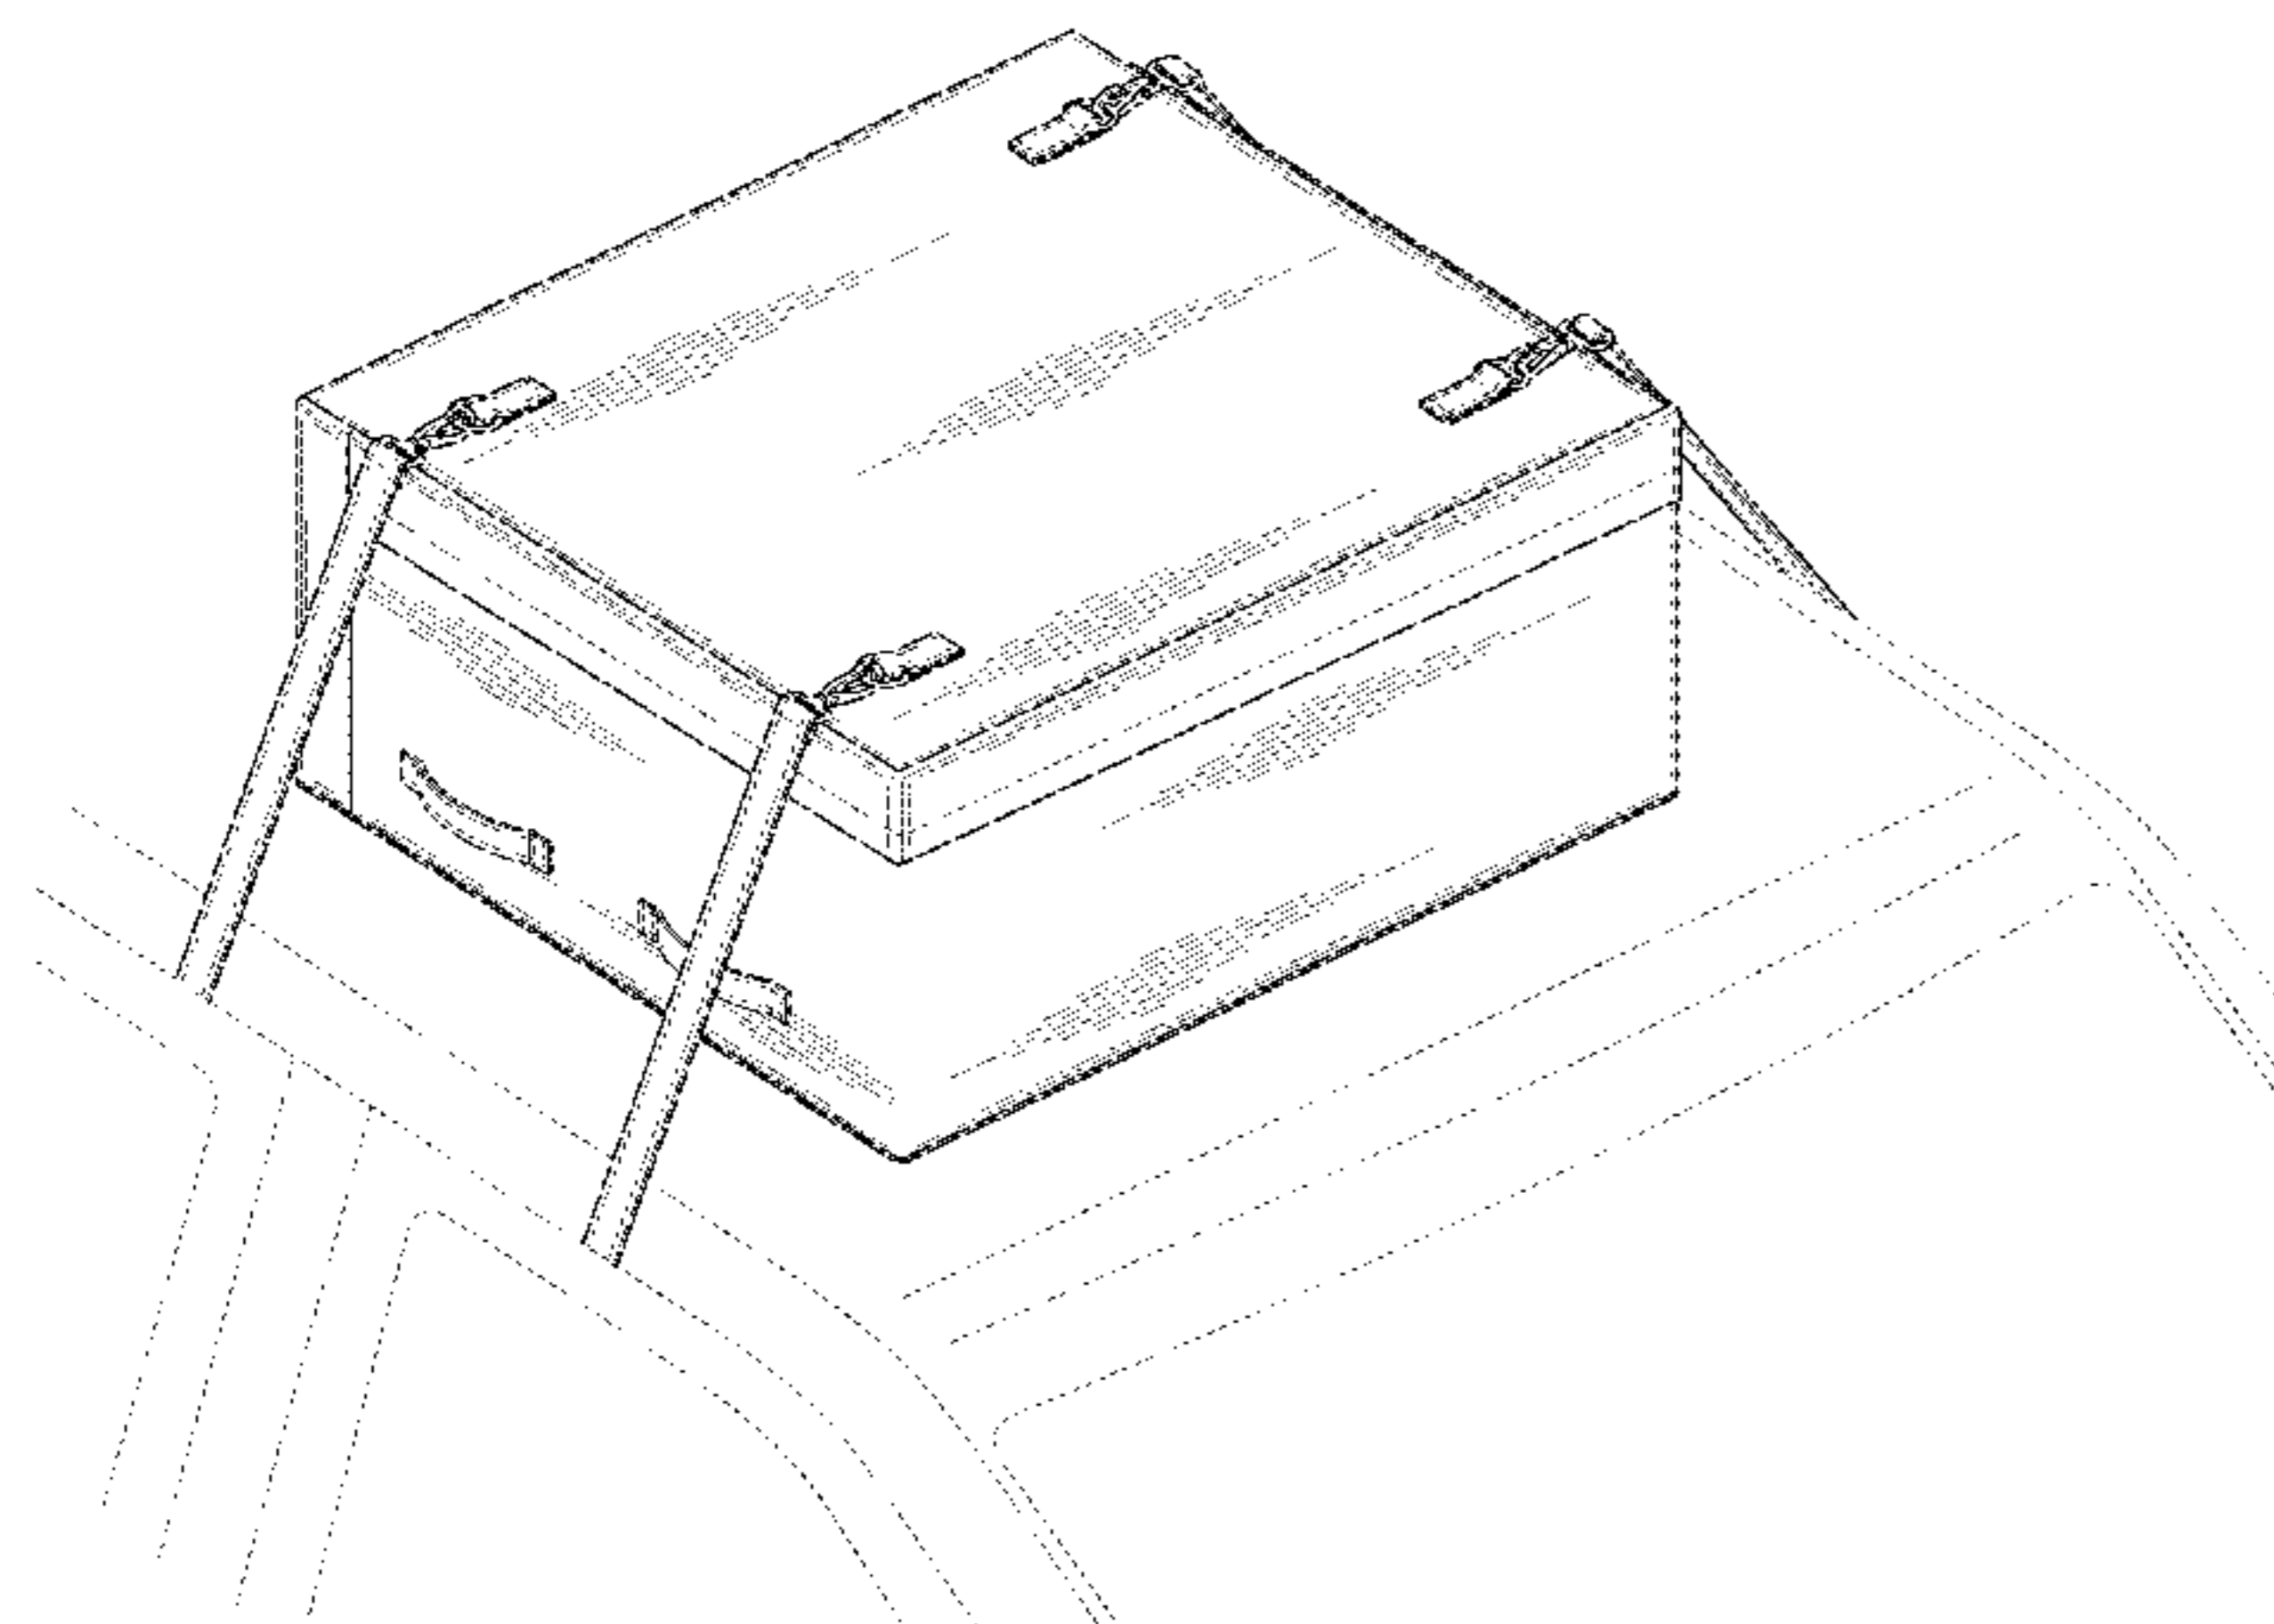

FIG. 7 is a bottom view thereof;

FIG. 8 is a second front, left side, and top perspective view showing the fire-resistant evacuation and rescue bag in a position of use attached to the top of a vehicle; and,

FIG. 9 is a third front, left side, and top perspective view thereof with the fire-resistant storm flap partially raised exposing a double toggle fire-resistant zipper.

The broken lines in FIG. 8 depicting a vehicle represents environmental subject matter that forms no part of the claimed design. The remaining broken lines in the figures depicting lines of stitching form a part of the claimed design. The four attachment straps are shown with symbolic breaks in their length for ease of illustration.

1 Claim, 9 Drawing Sheets
