(57) **CLAIM**

The ornamental design for a separable package, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of a separable package of the present invention showing our new design, the separable package being in a first configuration with a first portion and a second portion joined together;

FIG. 2 is a bottom perspective view of the separable package of the present invention showing our new design;

FIG. 3 is a top plan view of the separable package of the present invention showing our new design;

FIG. 4 is a bottom plan view of the separable package of the present invention showing our new design;

FIG. 5 is a side view of the separable package of the present invention showing our new design;

FIG. 6 is an opposing side view rotated 180 degrees from the side view in FIG. 5;

FIG. 7 is a front view of the separable package of the present invention showing our new design;

FIG. 8 is a rear view of the separable package of the present invention showing our new design;

FIG. 9 is a top perspective view of a separable package of the present invention showing our new design, the separable package being in a second configuration with a first portion and a second portion separated from one another;

FIG. 10 is a bottom perspective view of the separable package of the present invention showing our new design;

FIG. 11 is a top plan view of the separable package of the present invention showing our new design;

FIG. 12 is a bottom plan view of the separable package of the present invention showing our new design;

FIG. 13 is a side view of the separable package of the present invention showing our new design;

FIG. 14 is an opposing side view rotated 180 degrees from the side view in FIG. 13;

FIG. 15 is a front view of the separable package of the present invention showing our new design; and,

(Continued)

FIG. 16 is a rear view of the separable package of the present invention showing our new design. The broken lines shown herein depict environmental subject matter only and form no part of the claimed design.
