(57) **CLAIM**

The ornamental design for a floating mooring fender, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of a floating mooring fender, showing our new design;

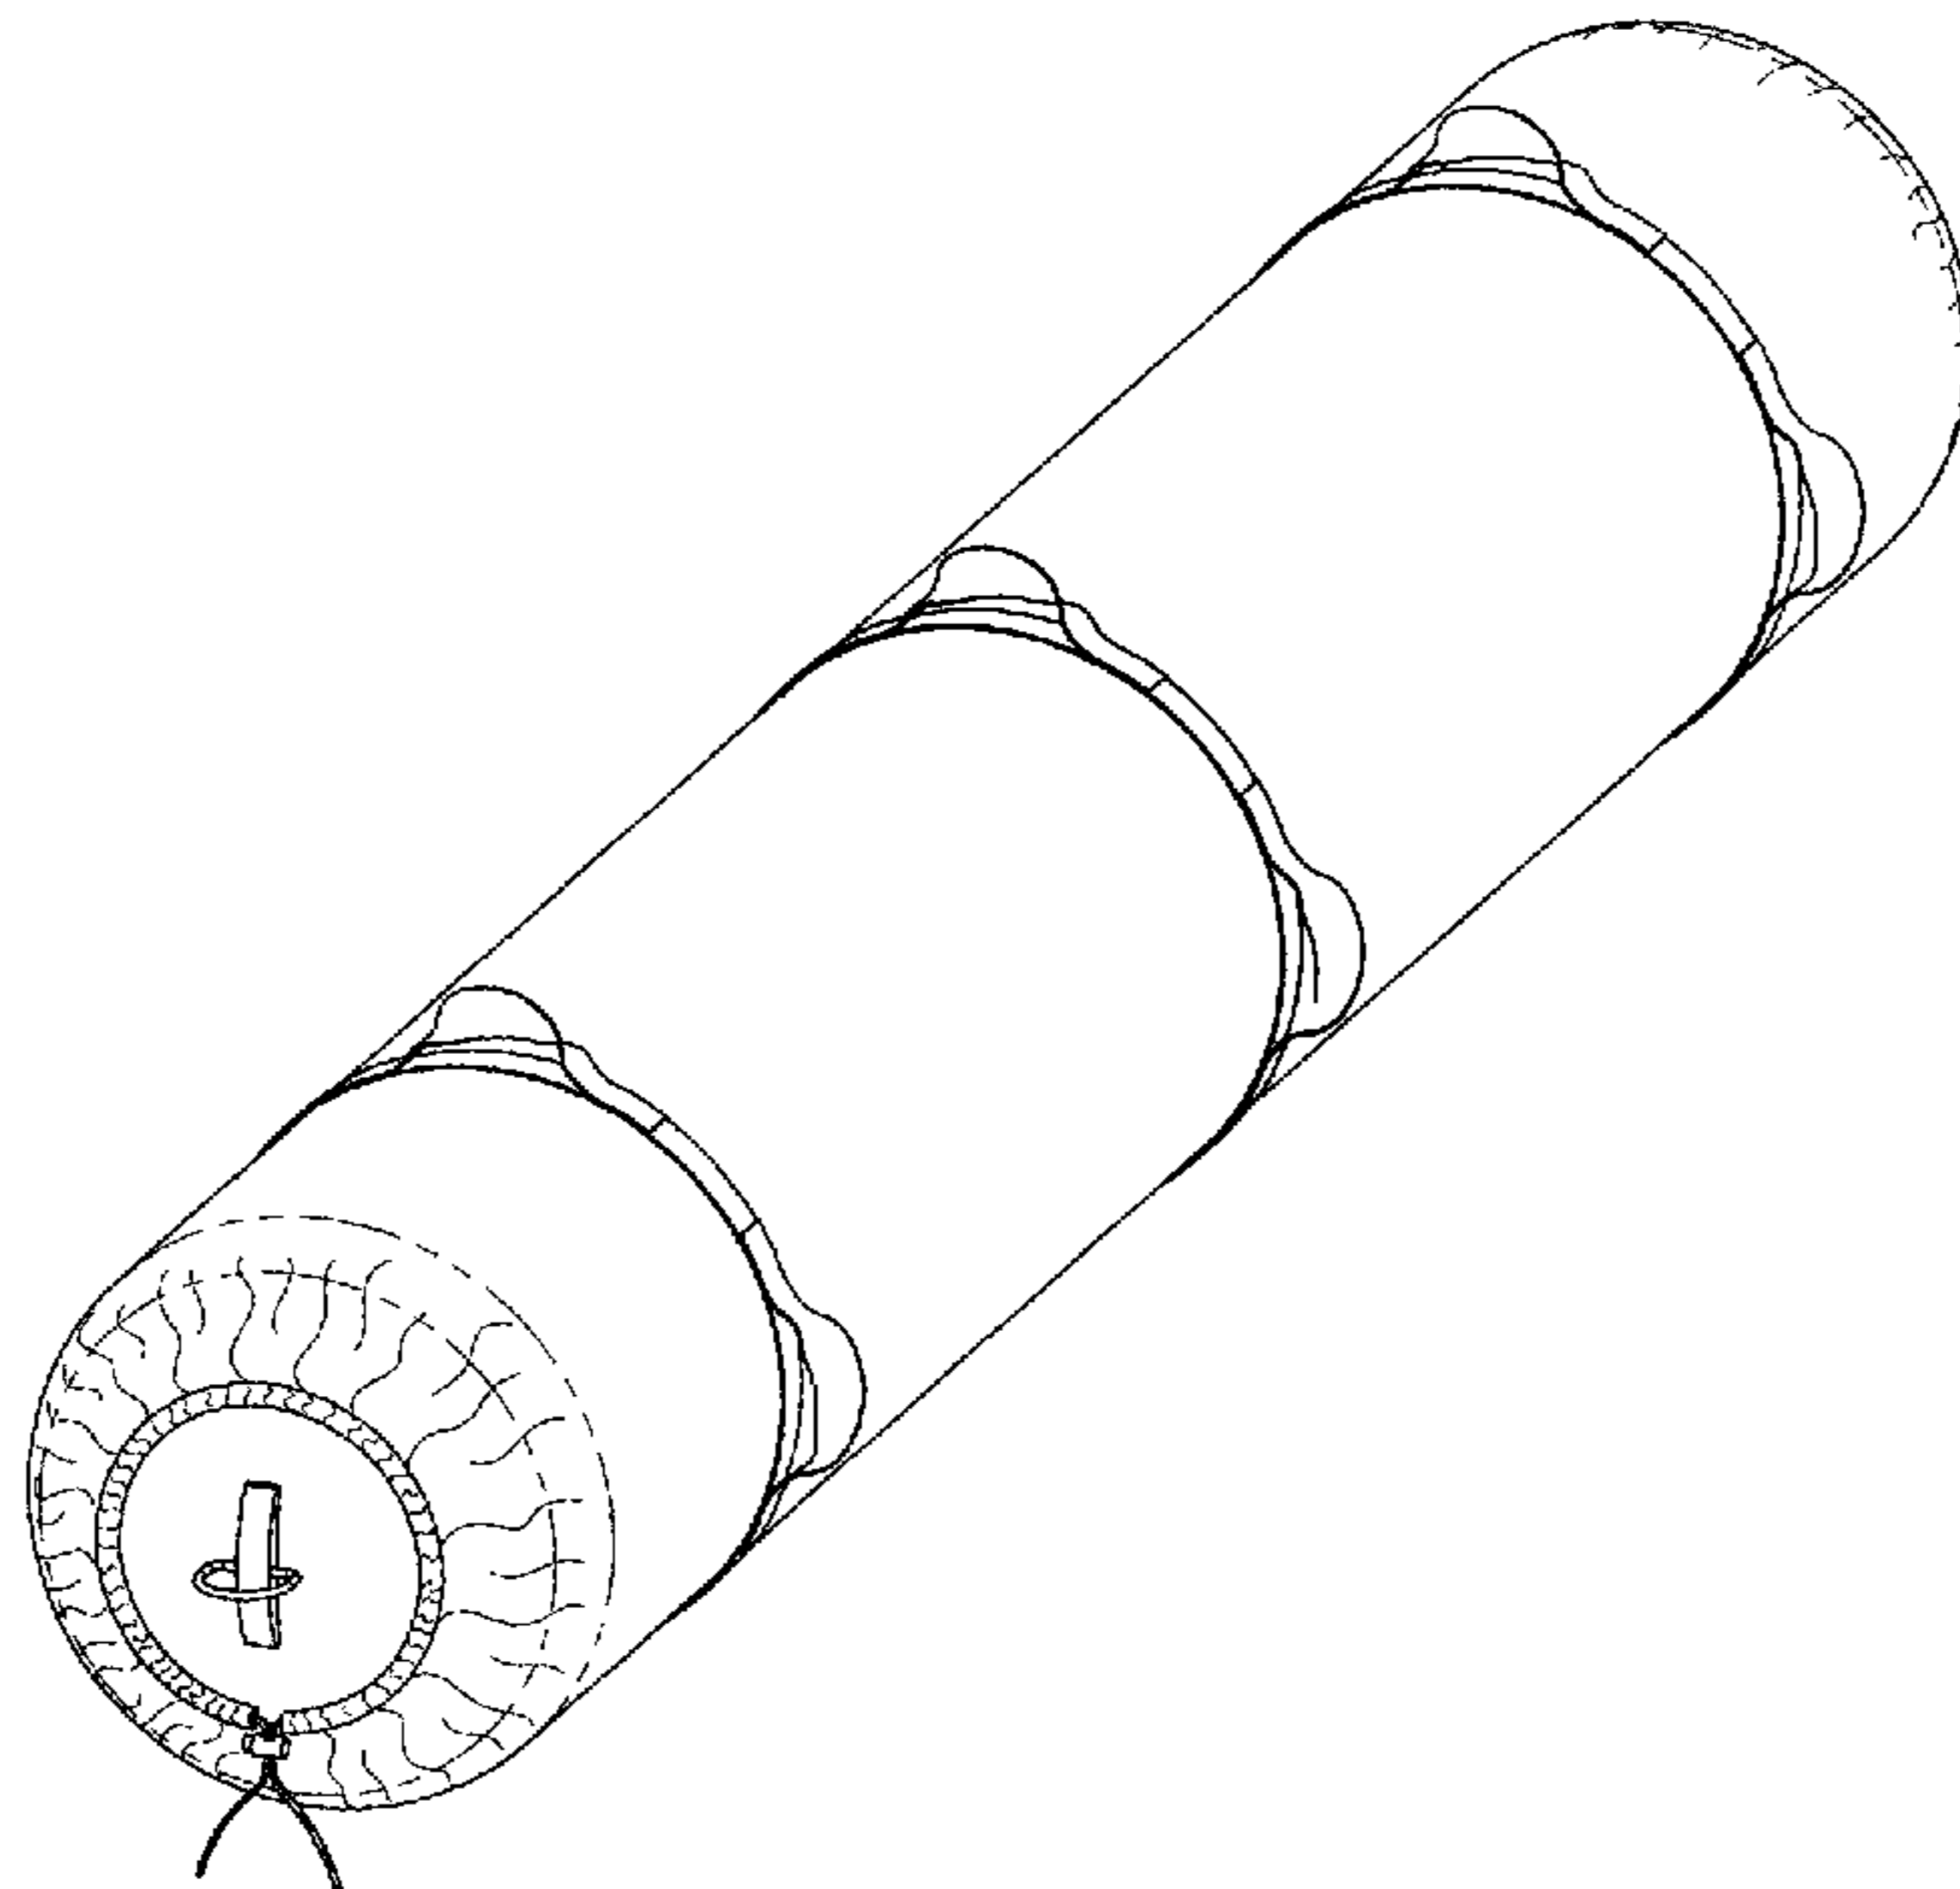

FIG. 2 is a front-end view thereof, with the rear end view being identical to the front-end view;

FIG. 3 is a top plan view thereof, with the bottom plan view being identical to the top plan view; and,

FIG. 4 is a right-side elevational view thereof, with the left side elevational view being identical to the right-side elevational view.

The broken lines shown illustrate portions of the floating mooring fender that form no part of the claimed design.
