(57) **CLAIM**

The ornamental design for a posterior lumbar interbody fusion device, as shown and described.

DESCRIPTION

FIG. 1 is a top front perspective view of a posterior lumbar interbody fusion device showing our new design; FIG. 2 is a left side view thereof and also represents a right side view; FIG. 3 is a front view thereof and also represents a rear view; FIG. 4 is a top view thereof; FIG. 5 is a bottom view thereof; and, FIG. 6 is an enlarged view of a serrated face portion of FIG. 5.

The dash-dash broken lines illustrate portions of the posterior lumbar interbody fusion device. The dot-dash broken lines illustrate the enlarged portion from which FIG. 6 is taken from. The dot-dot-dash broken lines illustrate the bounds of the claim. None of the broken lines form part of the claimed design.

1 Claim, 5 Drawing Sheets
