(57) **CLAIM**

The ornamental design for a television display screen with graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a first image of a television display screen with graphical user interface, showing our new design;  
FIG. 2 is a front view of a second image thereof; and,  
FIG. 3 is a front view of a third image thereof.  
The subject matter in this application includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.  
The broken lines in a region outside of the user interface depict an electronic device and form no part of the claimed design. Other broken lines in the user interface of the drawings form no part of the claimed design.
