(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

Fig. 1.1 is a front view of a display screen with graphical user interface, showing our new design;

Fig. 1.2 is a rear view thereof;

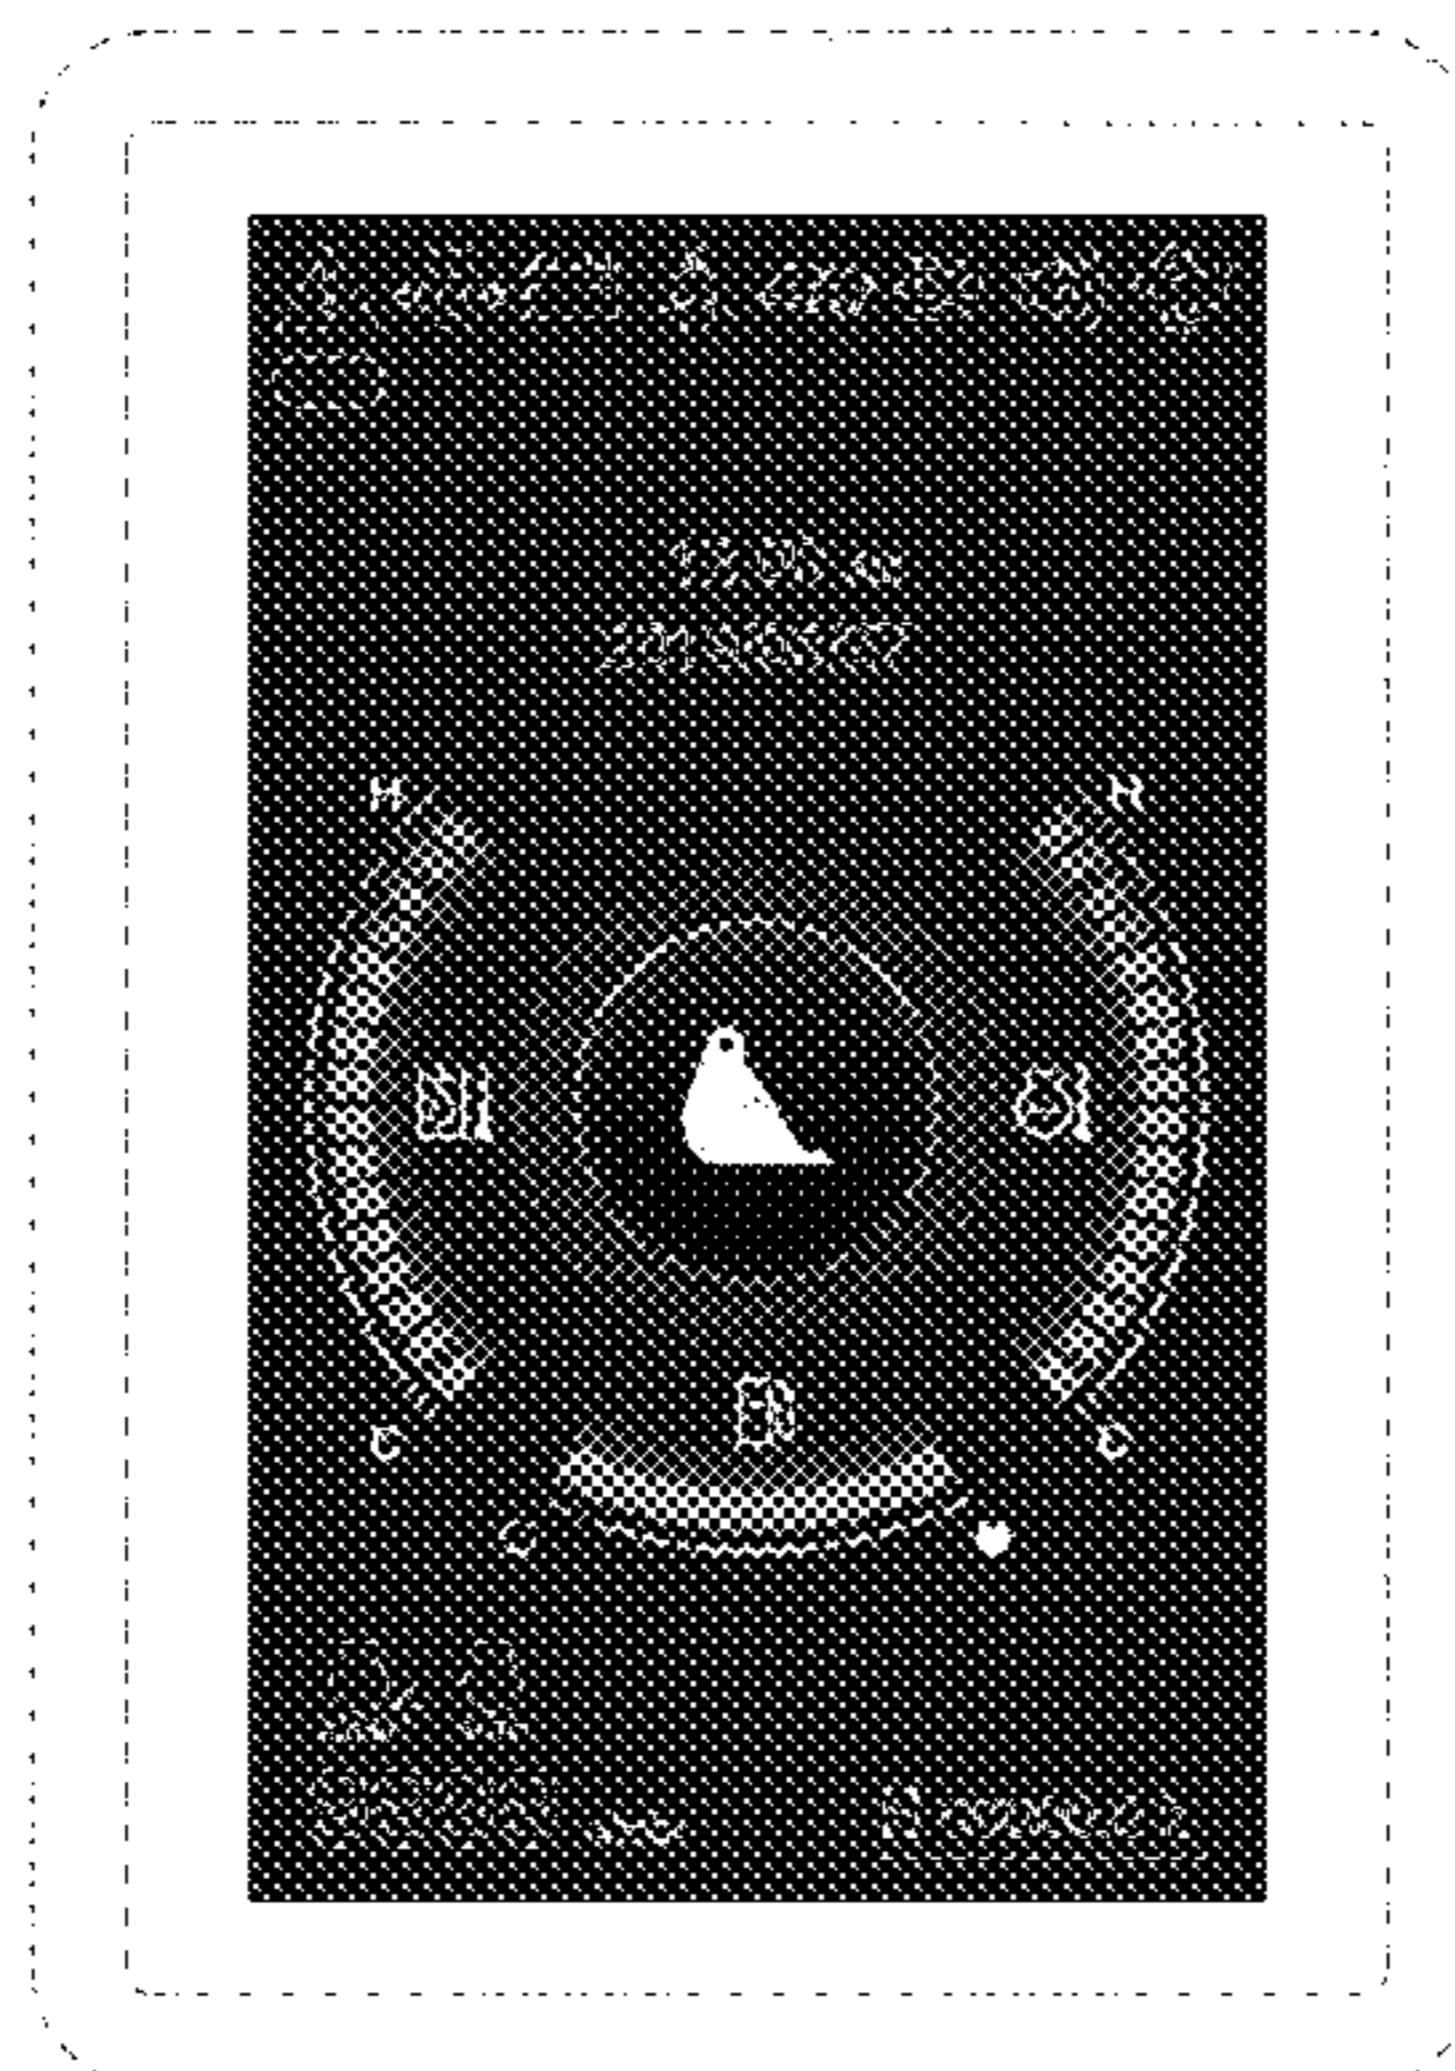

Fig. 1.3 is a left side view thereof;

Fig. 1.4 is a top view thereof; and

Fig. 1.5 is a partial enlarged detail view of 1.1, showing the graphical user interface separated from the broken line display screen for clarity of illustration.

The broken lines showing the work machine display screen in Figs. 1.1-1.4, as well as the broken lines showing portions of the graphical user interface in Figs. 1.1 and 1.5, form no part of the claimed design. The right side view and the bottom view appear symmetrically, respectively, to the left side view and the top view and are thus omitted herein.
