(57) **CLAIM**  
We claim the ornamental design for a separable bedding system, as shown and described.

**DESCRIPTION**  
FIG. 1 is a perspective view of a separable bedding system with magnetic attachments along a seam section between separable bedding components.  
FIG. 2 is another perspective view of the separable bedding system showing the separable bedding components partially detached from one another.  
FIG. 3. is a magnified perspective view of one of the magnetic attachment mechanisms shown in FIG. 1.  
FIG. 4 illustrates an enlarged fragmentary top end view of one of the magnetic attachments on the seam section of the separable bedding system when the separable bedding components are attached as shown in FIG. 1.  
FIG. 5 illustrates an enlarged fragmentary bottom end view of the magnetic attachment on the seam section of shown in FIG. 4.  
FIG. 6 illustrates an enlarged fragmentary lengthwise cross-sectional view of the seam section when the separable bedding components are attached as shown in FIG. 1.  
FIG. 7 illustrates another enlarged fragmentary lengthwise cross-sectional view of the seam section when the separable bedding components are attached as shown in FIG. 1.  
FIG. 8 illustrates an enlarged fragmentary top view of one of the magnetic attachments on the seam section of the separable bedding system; and,  
FIG. 9 illustrates an enlarged fragmentary bottom view of one of the magnetic attachments on the seam section of the separable bedding system.  
The broken lines show stitching of the separable bedding system that is part of the claimed design.
