(57) **CLAIM**

I claim the ornamental design for a model vehicle upper suspension arm, as shown and described.

DESCRIPTION

FIG. 1 is an upper, left, front perspective view of a model vehicle upper suspension arm;
FIG. 2 is a front side elevation view thereof;
FIG. 3 is a rear side elevation view thereof;
FIG. 4 is a left side elevation view thereof;
FIG. 5 is a right side elevation view thereof;
FIG. 6 is a top plan view thereof;
FIG. 7 is a bottom plan view thereof;
FIG. 8 is a lower, right, rear perspective view thereof; and,
FIG. 9 is an upper, left, front perspective environmental use view of the model vehicle upper suspension arm.

In the drawings, the broken line showing of features of the model vehicle upper suspension arm illustrate portions of the model vehicle upper suspension arm that form no part of the claimed design; whereas, the broken line showing of the environmental use view depicts environmental subject matter and is provided for the purposes of illustrating environmental use structure and context and also forms no part of the claimed design.

In the drawings, only the first embodiment of the model vehicle upper suspension arm is shown. The second embodiment of the claimed design is a right model vehicle upper suspension arm which is a mirror image of the left model vehicle upper suspension arm disclosed in the first embodiment.

1 Claim, 7 Drawing Sheets
