(57) **CLAIM**

The ornamental design for a display screen with a transitional graphical use interface for an interactive content overlay, as shown and described.

**DESCRIPTION**

A portion of the disclosure of this patent document contains material subject to copyright protection. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but otherwise reserves all copyright rights whatsoever.

FIG. 1 is a front view of a first image of a first embodiment of a display screen with a transitional graphical user interface for an interactive content overlay;

FIG. 2 is a front view of a second image thereof;

FIG. 3 is a front view of a third image thereof;

FIG. 4 is a front view of a fourth image thereof;

FIG. 5 is a front view of a fifth image thereof;

FIG. 6 is a front view of a first image of a second embodiment of a display screen with a transitional graphical user interface for an interactive content overlay;

FIG. 7 is a front view of a second image thereof;

FIG. 8 is a front view of a third image thereof;

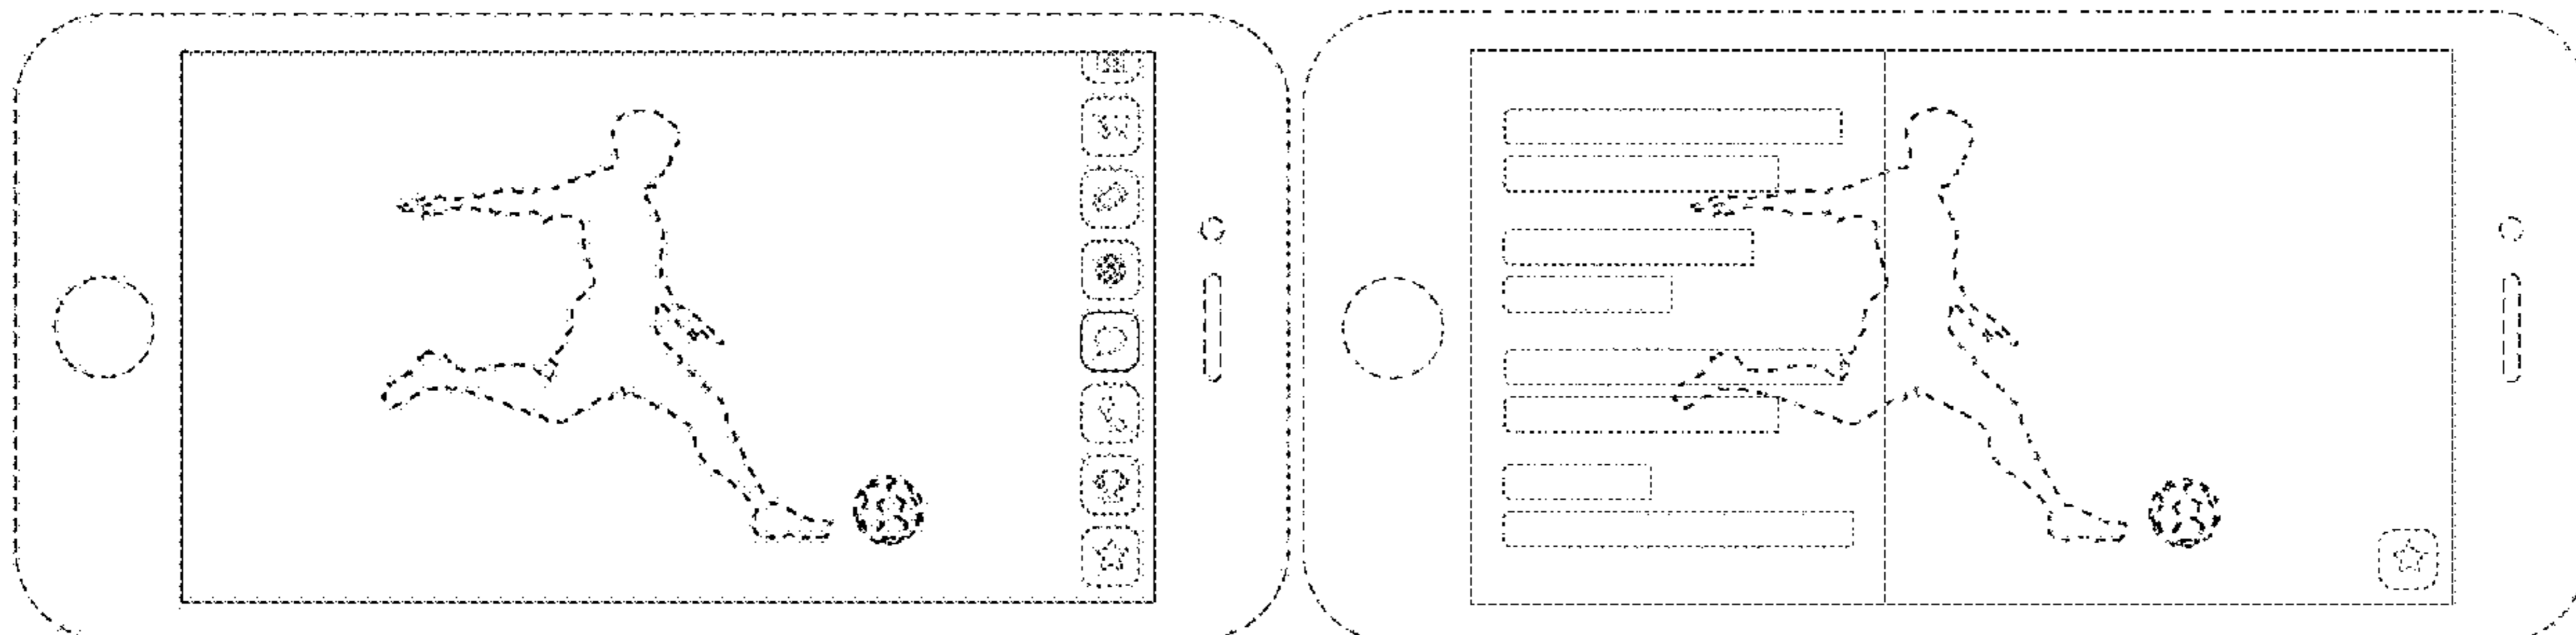

FIG. 9 is a front view of a fourth image thereof; and,

FIG. 10 is a front view of a fifth image thereof.

The appearance of the graphical user interface transitions between the images shown in FIGS. 1-5, and between the images shown in FIGS. 6-10. The process or period in which one image transitions to another image forms no part of the claimed design.

The broken-lines of the figures depict portions of a user device as well as related icon elements of an interactive content overlay and various environmental portions thereof. These broken line features are depicted for illustrative purposes, and form no part of the claimed design.
