**Related U.S. Application Data**

The ornamental design for an electronic device with graphical user interface for continuous blood glucose values and associated data, as shown and described.

(62) Division of application No. 29/735,007, filed on May 18, 2020, now Pat. No. Des. 929,427, which is a division of application No. 29/613,788, filed on Aug. 14, 2017, now Pat. No. Des. 887,420.

**DESCRIPTION**

(30) **Foreign Application Priority Data**

The patent or patent application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawings will be provided by the Office upon request and payment of the necessary fee. The FIGURE is a front view of an electronic device with graphical user interface for continuous blood glucose values and associated data.
