(57) **CLAIM**

The ornamental design for a display screen with graphical user interface for a lighting system control panel, as shown and described.

DESCRIPTION

FIG. 1 is a first front view of a display screen with graphical user interface for a lighting system control panel, and, FIG. 2 is a second front view thereof, shown in the context of different broken-line subject matter.

The outermost broken-line rectangle shown in FIGS. 1 and 2 illustrates a display screen and forms no part of the claimed design. The remaining broken lines illustrate portions of a graphical user interface and form no part of the claimed design.

1 Claim, 1 Drawing Sheet
