The ornamental design for a display screen or portion thereof with a graphical user interface, as shown and described.

See application file for complete search history.

**DESCRIPTION**

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.  
FIG. 1 is a front view of a display screen or portion thereof with a graphical user interface showing the new design.  
FIG. 2 is a front view of a second embodiment thereof; and, FIG. 3 is a front view of a third embodiment thereof.  
The broken lines showing a display screen, portions of the display screen, text, and graphical elements form no part of the claimed design.
