(57) **CLAIM**

The ornamental design for an electronic device with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with animated graphical user interface showing a first image of the claimed design;

FIG. 2 is a second image thereof; and,

FIG. 3 is a front view of an electronic device having a display screen with the animated graphical user interface of FIG. 1 applied to the display screen. The animated graphical user interface design of FIG. 2 may be similarly applied thereto.

The outer dashed broken lines in FIGS. 1-3 show a display screen or portion thereof, or an electronic device having a display screen, and form no part of the claimed design. The other dashed broken lines in FIGS. 1-3 show portions of the animated graphical user interface that form no part of the claimed design.

The dot-dash broken lines in the figures and the areas within the dot-dash broken lines show portions of the animated graphical user interface that form no part of the claimed design.

The appearance of the animated image sequentially transitions between the images shown in FIGS. 1 and 2, respectively. The process or period in which one image transitions to another forms no part of the claimed design.
