(57) **CLAIM**

I claim the ornamental design for a holder for a vaping pod system, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a holder for a vaping pod system.  
FIG. 2 is a right side view thereof.  
FIG. 3 is a left side view thereof.  
FIG. 4 is a front view thereof.  
FIG. 5 is a rear view thereof.  
FIG. 6 is a top view thereof.  
FIG. 7 is a bottom view thereof; and,  
FIG. 8 is a view thereof along its longitudinal axis.

The broken lines in the drawings depict portions of the holder for vaping pod system that form no part of the claimed design.

The intended use of the claimed holder for a vaping pod system is to receive and hold a distal end of a vaping pod system. A vaping pod system is a vaping device that holds a cartridge of vaping liquid. An enlarged grasping portion (shown but unclaimed) attached to the holder for a vaping pod system enables a user to readily grasp and hold the vaping pod system during use.
