(57) **CLAIM**

The ornamental design for a two-sided, solar-powered, electric vehicle recharging station, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a two-sided, solar-powered, electric vehicle recharging station, according to the present design

FIG. 2 is a front view of the two-sided, solar-powered, electric vehicle recharging station of FIG. 1, according to the present design;

FIG. 3 is right end view of the two-sided, solar-powered, electric vehicle recharging station of FIG. 1, the left end view being a mirror image thereof, according to the present design;

FIG. 4 is a back view of the two-sided, solar-powered, electric vehicle recharging station of FIG. 1, according to the present design; and,

FIG. 5 is a top view of the two-sided, solar-powered, electric vehicle recharging station of FIG. 1, according to the present design.

The bottom view constitutes no part of the present design of the two-sided, solar-powered, electric vehicle recharging station.
