(57) **CLAIM**

The ornamental design for a drive caddy assembly for a storage device, as shown and described.

DESCRIPTION

FIG. **1** is a top front perspective view of a drive caddy assembly for a storage device in accordance with a first embodiment of the present design.

FIG. **2** is a top back perspective view of the first embodiment of the present design.

FIG. **3** is a front view of the first embodiment of the present design.

FIG. **4** is a rear view of the first embodiment of the present design.

FIG. **5** is a side view of the first embodiment of the present design.

FIG. **6** is a side view of the first embodiment of the present design.

FIG. **7** is a top view of the first embodiment of the present design.

FIG. **8** is a bottom view of the first embodiment of the present design.

FIG. **9** is a top front perspective view of the first embodiment of the present design, showing an unclaimed storage device attached thereto.

FIG. **10** is a is a top front perspective view of a drive caddy assembly for a storage device in accordance with a second embodiment of the present design.

FIG. **11** is a top back perspective view of the second embodiment of the present design.

FIG. **12** is a front view of the second embodiment of the present design.

FIG. **13** is a rear view of the second embodiment of the present design.

FIG. **14** is a side view of the second embodiment of the present design.

FIG. **15** is a side view of the second embodiment of the present design.

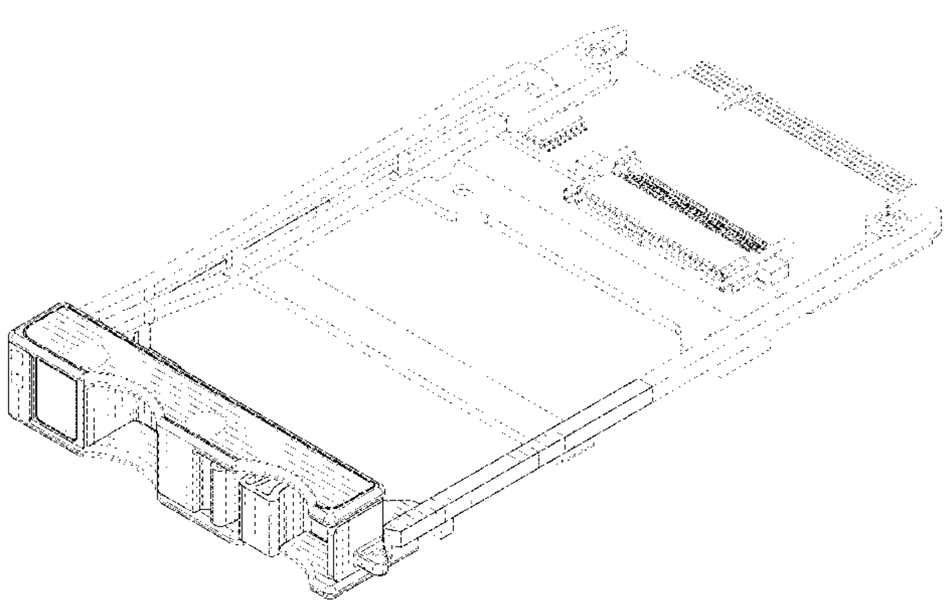
FIG. **16** is a top view of the second embodiment of the present design.

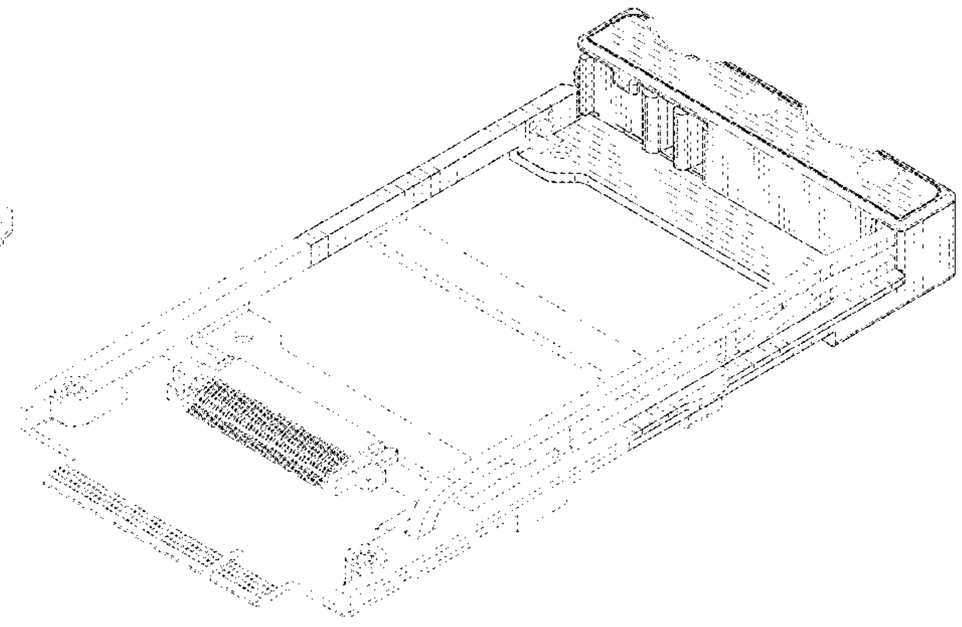
FIG. **17** is a bottom view of the second embodiment of the present design; and,

FIG. **18** is a top front perspective view of the second embodiment of the present design, showing an unclaimed storage device attached thereto.

The dot-dash broken lines define the boundary of the claim, which extends to the boundary but does not include the boundary. The additional broken lines in FIGS. **9** and **18** showing the docked storage device depict environmental subject matter only and form no part of the claim, while all

(Continued)





other broken lines depict portions of the drive caddy assembly that form no part of the claimed design.
