(57) **CLAIM**

The ornamental design for a three prong mount for smart device, as shown and described.

DESCRIPTION

FIG. 1 is a front isometric view of the three prong mount for smart device holding a smart device;
FIG. 2 is a front isometric view of the three prong mount for smart device holding a smart device and in an outlet attachment configuration;
FIG. 3 is a front isometric view of the three prong mount for smart device;
FIG. 4 is a front elevation view of the three prong mount for smart device;
FIG. 5 is a left elevation view of the three prong mount for smart device;
FIG. 6 is a right elevation view of the three prong mount for smart device;
FIG. 7 is a top plan view of the three prong mount for smart device;
FIG. 8 is a bottom plan view of the three prong mount for smart device; and,
FIG. 9 is a rear elevation view of the three prong mount for smart device.

The broken lines shown in the drawings represent portions of the three prong mount for smart device that form no part of the claimed design.
