(57) **CLAIM**

The ornamental design for a display screen or portion thereof with transitional graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is the first image in a sequence for a display screen or portion thereof with transitional graphical user interface showing our new design;

FIG. 2 is the second image thereof;

FIG. 3 is the third image thereof;

FIG. 4 is an enlarged view of the rounded square shape in the lower right corner in FIG. 1, shown separately for clarity of illustration;

FIG. 5 is an enlarged view of the rectangular shape and the rounded square shape in the lower right corner in FIG. 2, shown separately for clarity of illustration;

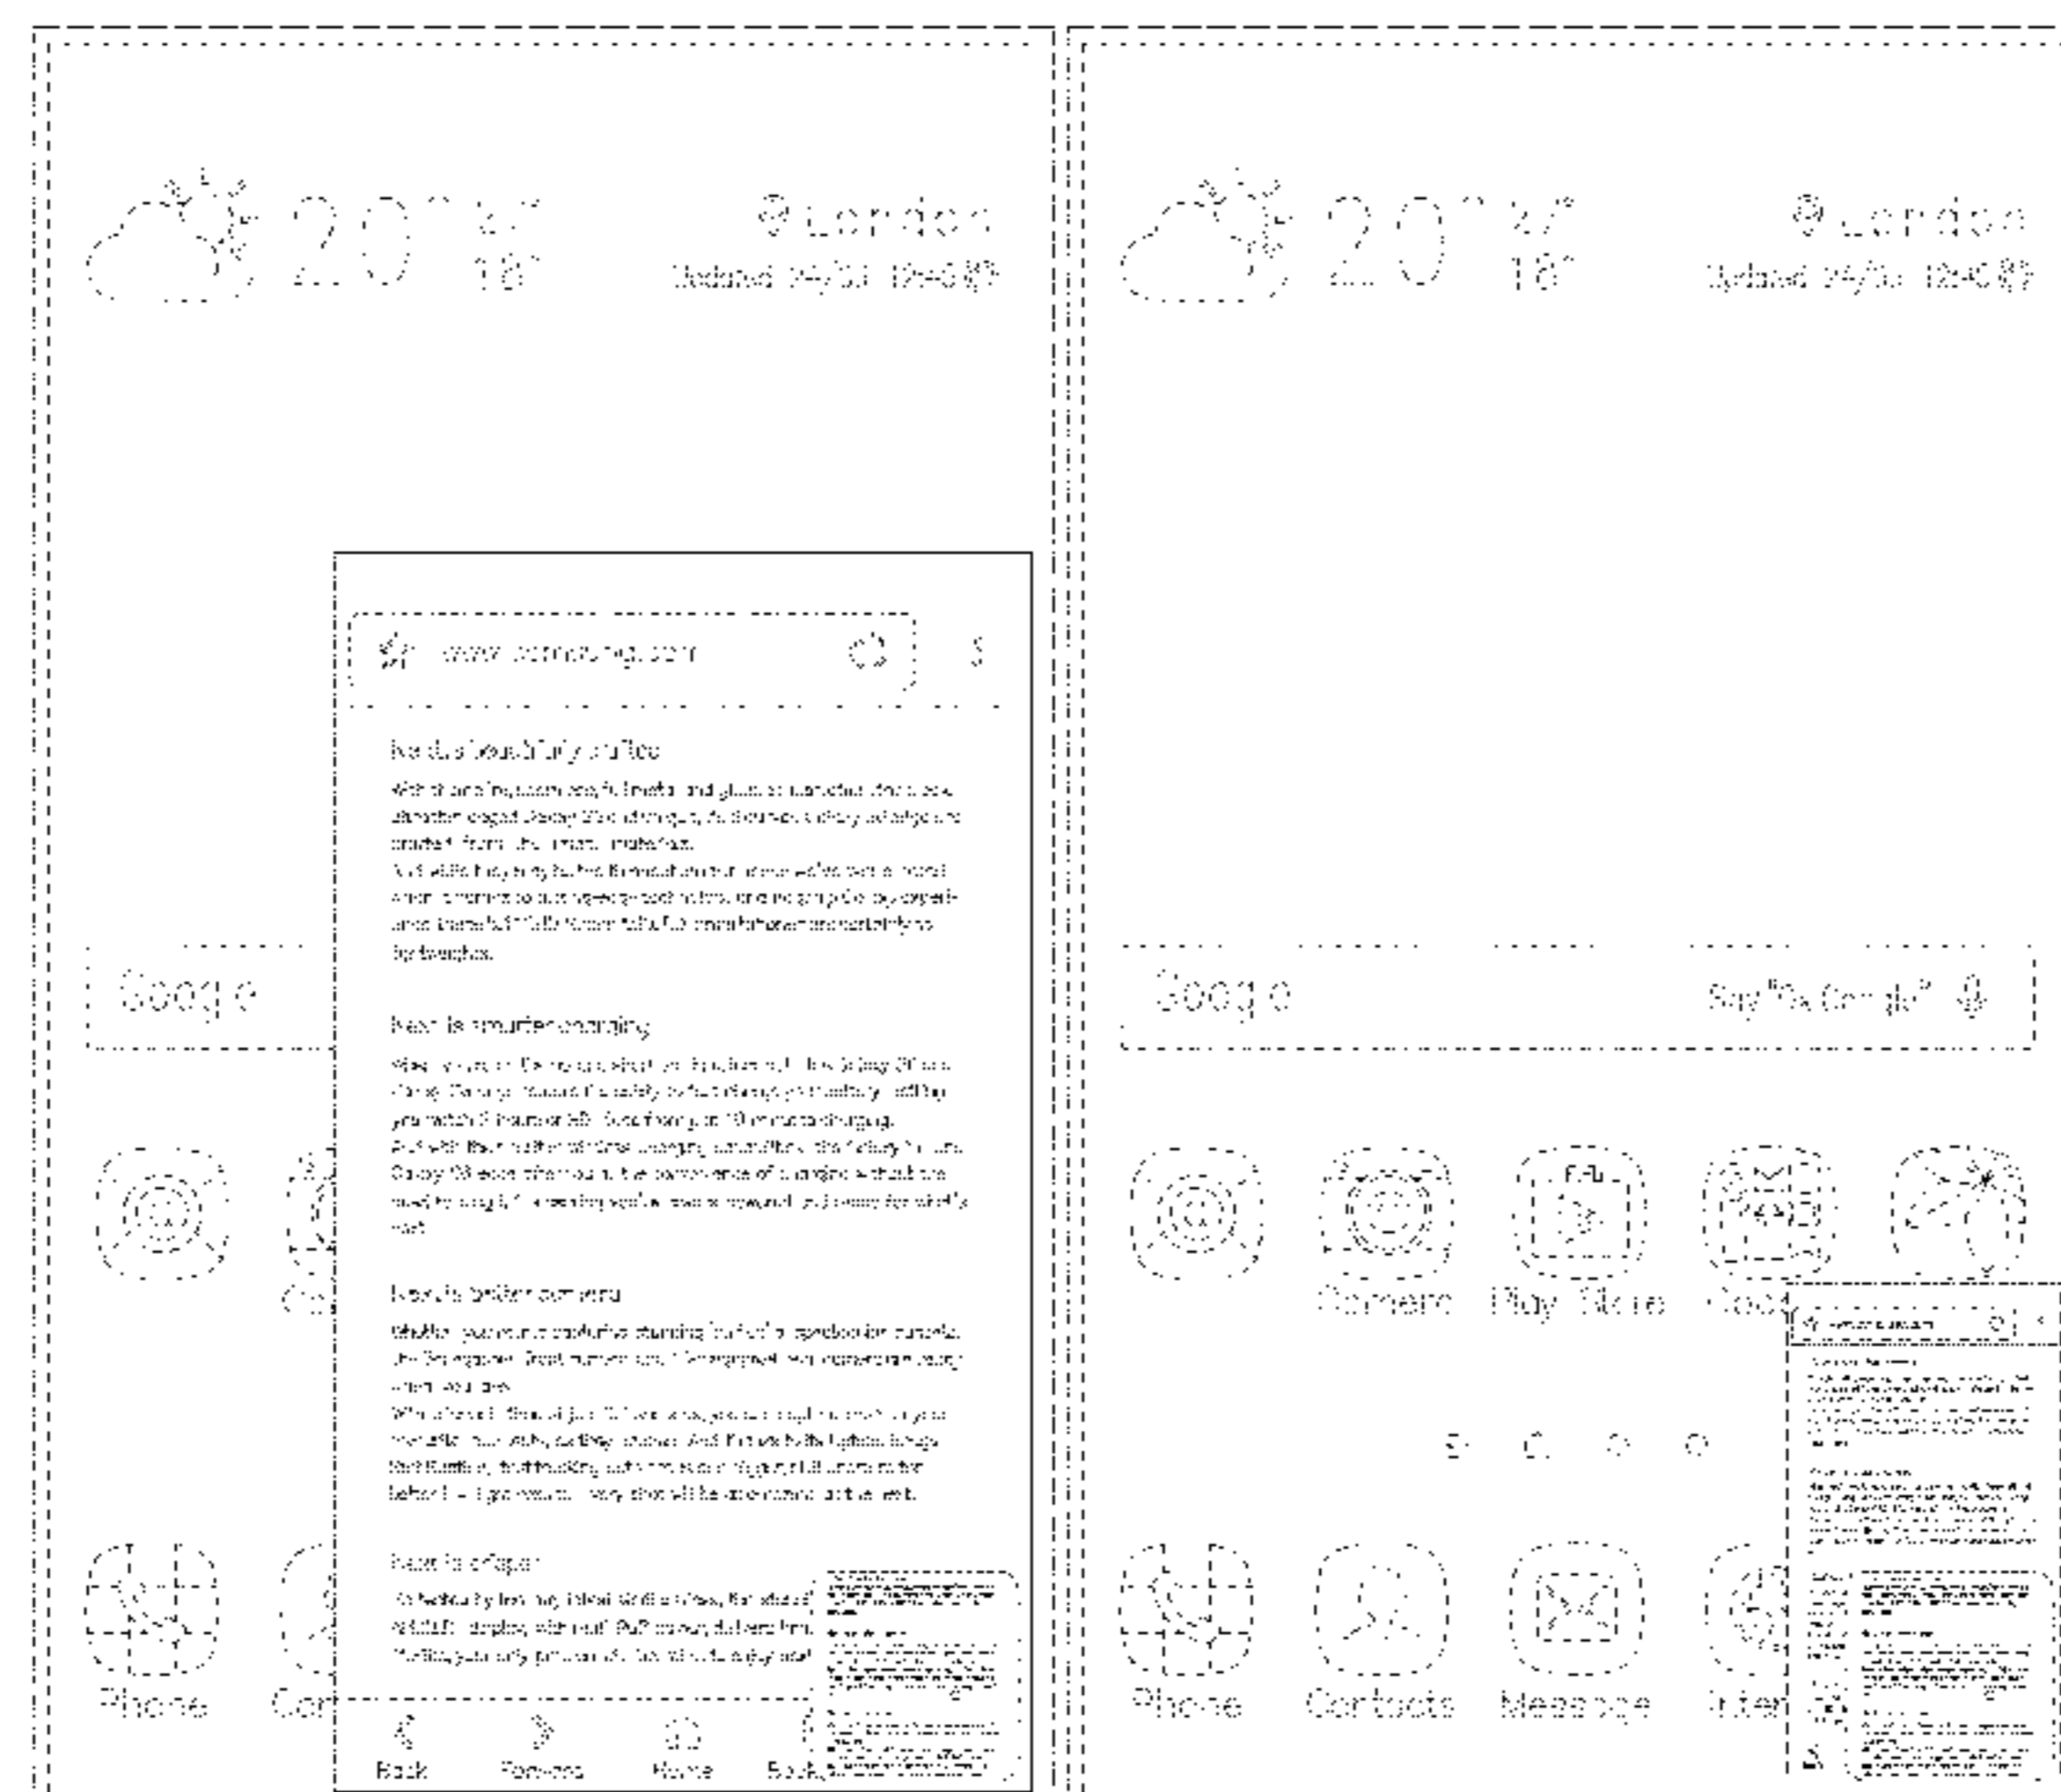

FIG. 6 is an enlarged view of the rounded square shape in the lower right corner in FIG. 2, shown separately for clarity of illustration;

FIG. 7 is an enlarged view of the rectangular shape and the rounded square shape in the lower right corner in FIG. 3, shown separately for clarity of illustration; and,

FIG. 8 is an enlarged view of the rounded square shape in the lower right corner in FIG. 3, shown separately for clarity of illustration.

The outer perimeter illustrated in broken lines in FIGS. 1-3 depicts a display screen or portion thereof and forms no part of the claimed design. The remaining broken lines in the drawings depict portions of the graphical user interface that form no part of the claimed design.

(Continued)

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design.

**1 Claim, 8 Drawing Sheets**

**Related U.S. Application Data**

continuation of application No. 29/592,363, filed on Jan. 30, 2017, now Pat. No. Des. 843,399.

FIG. 1

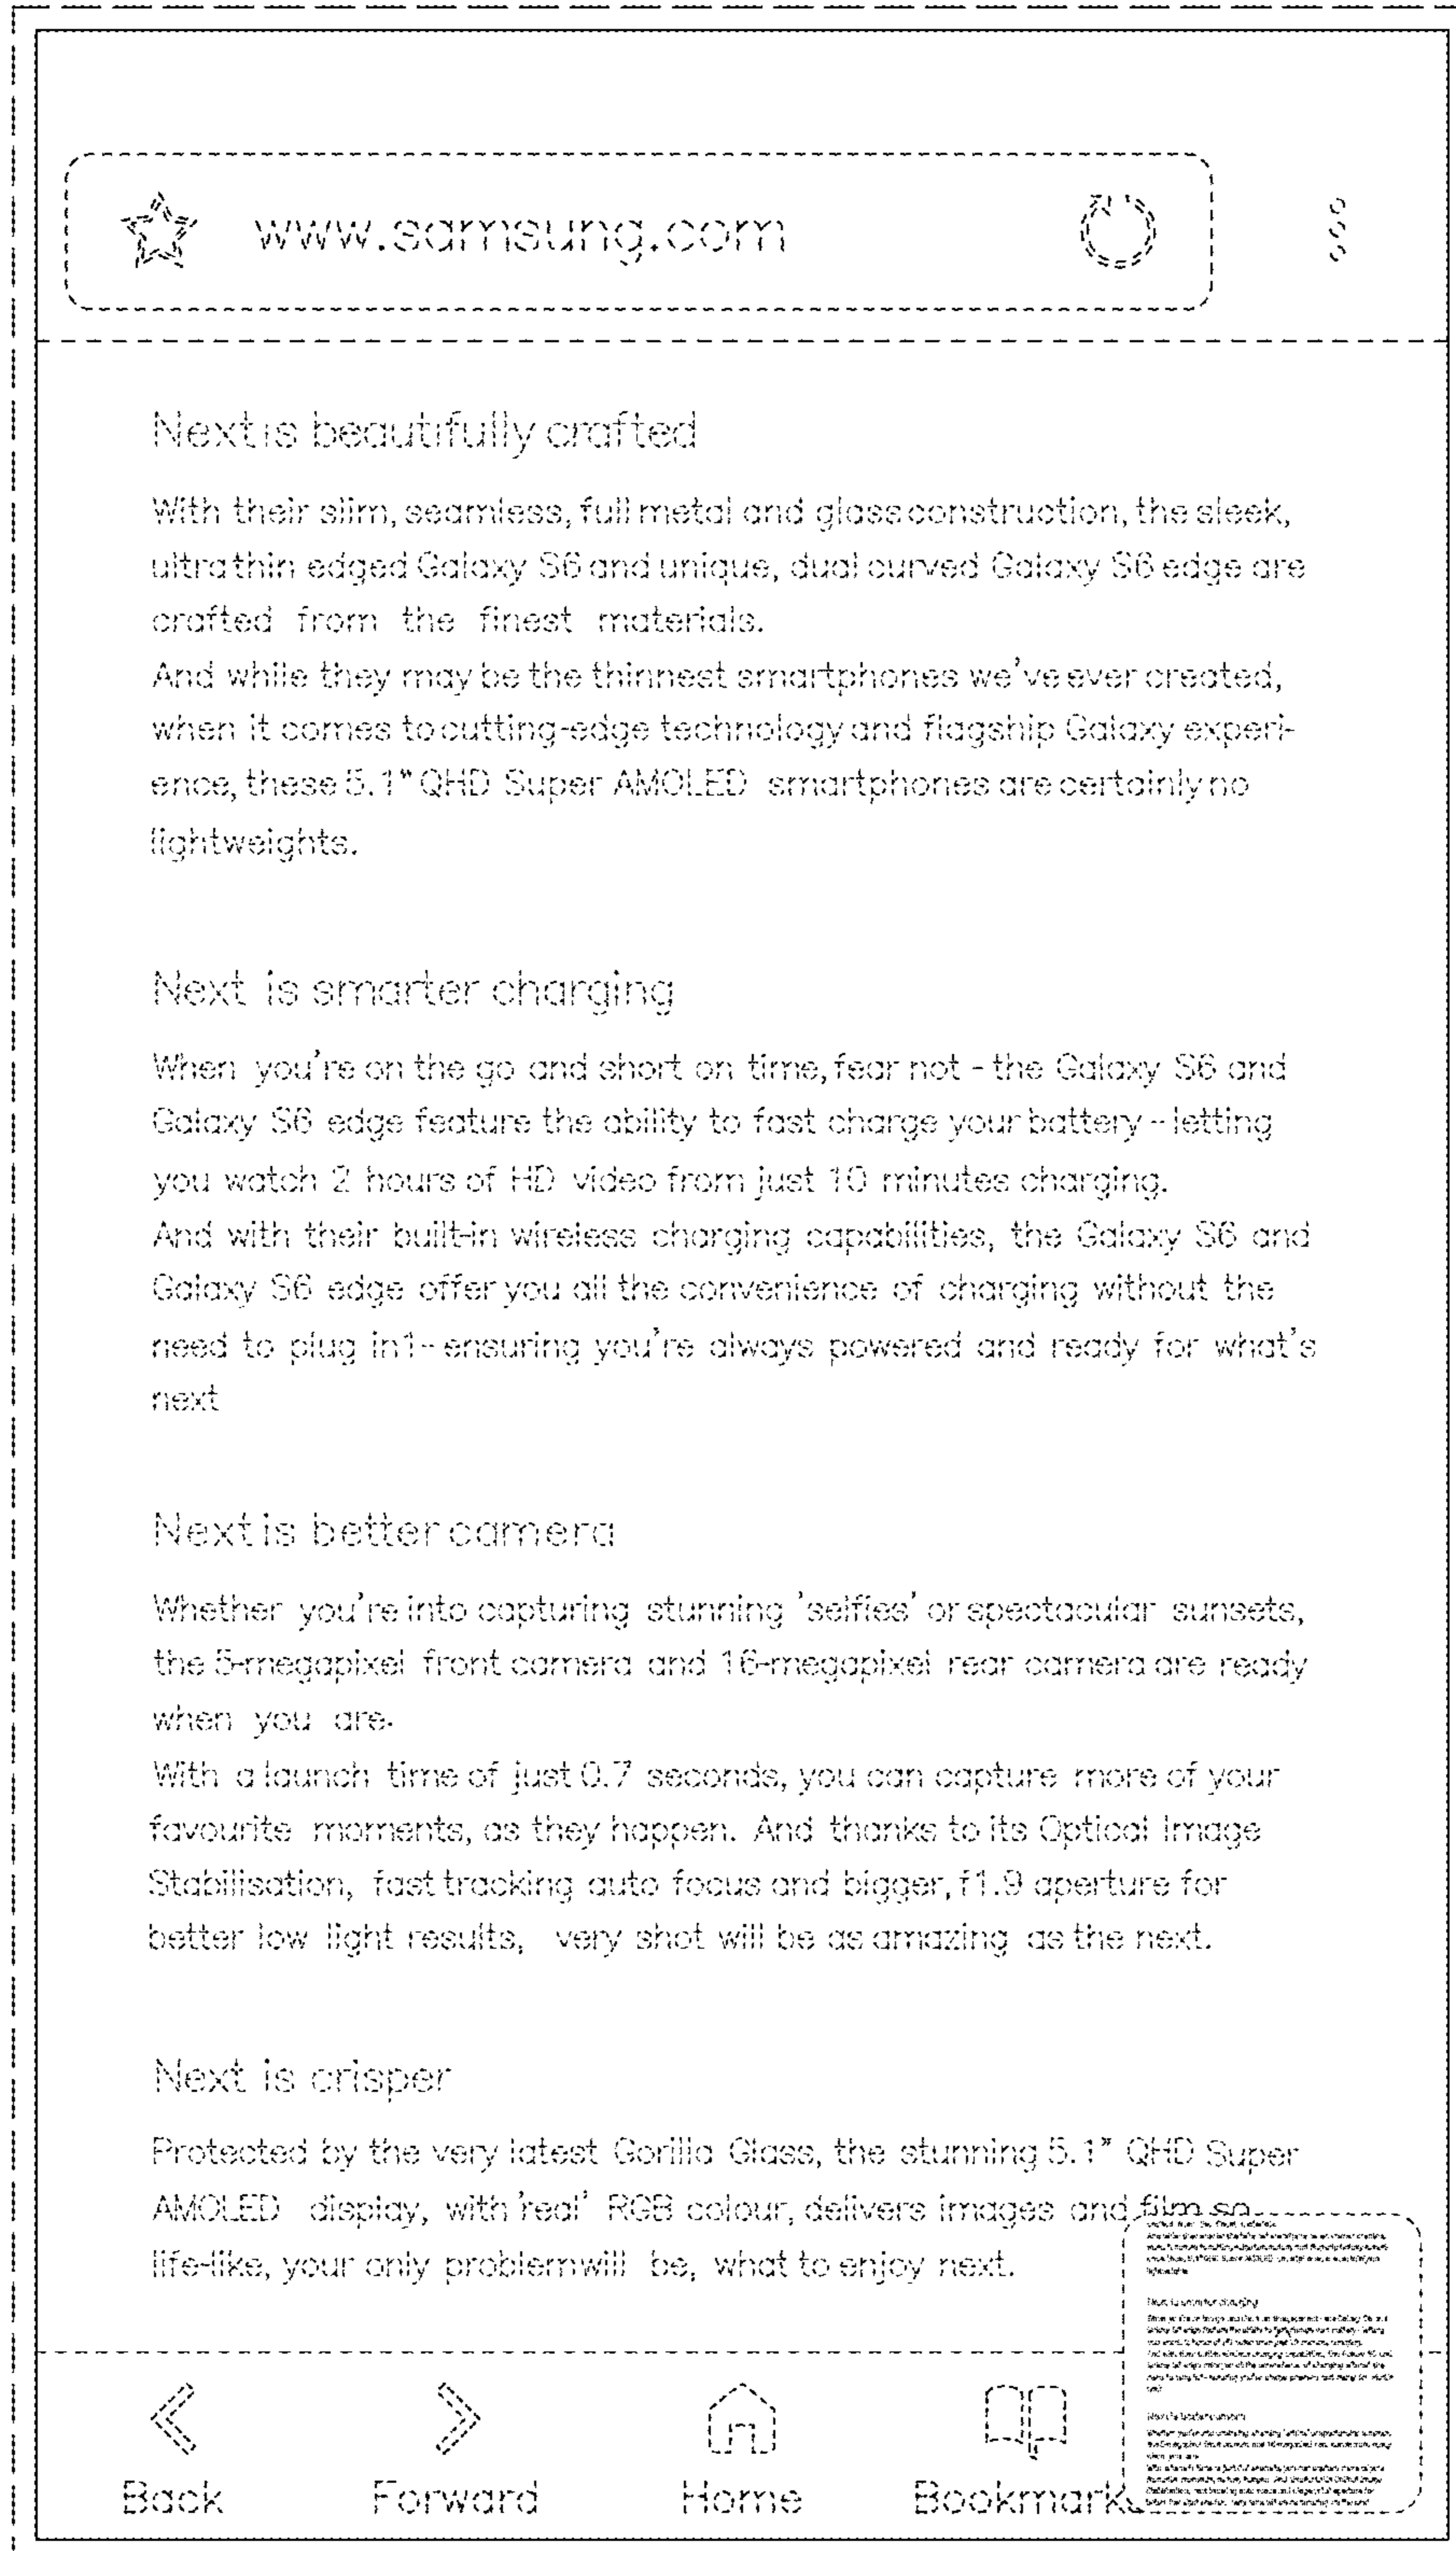

FIG. 2

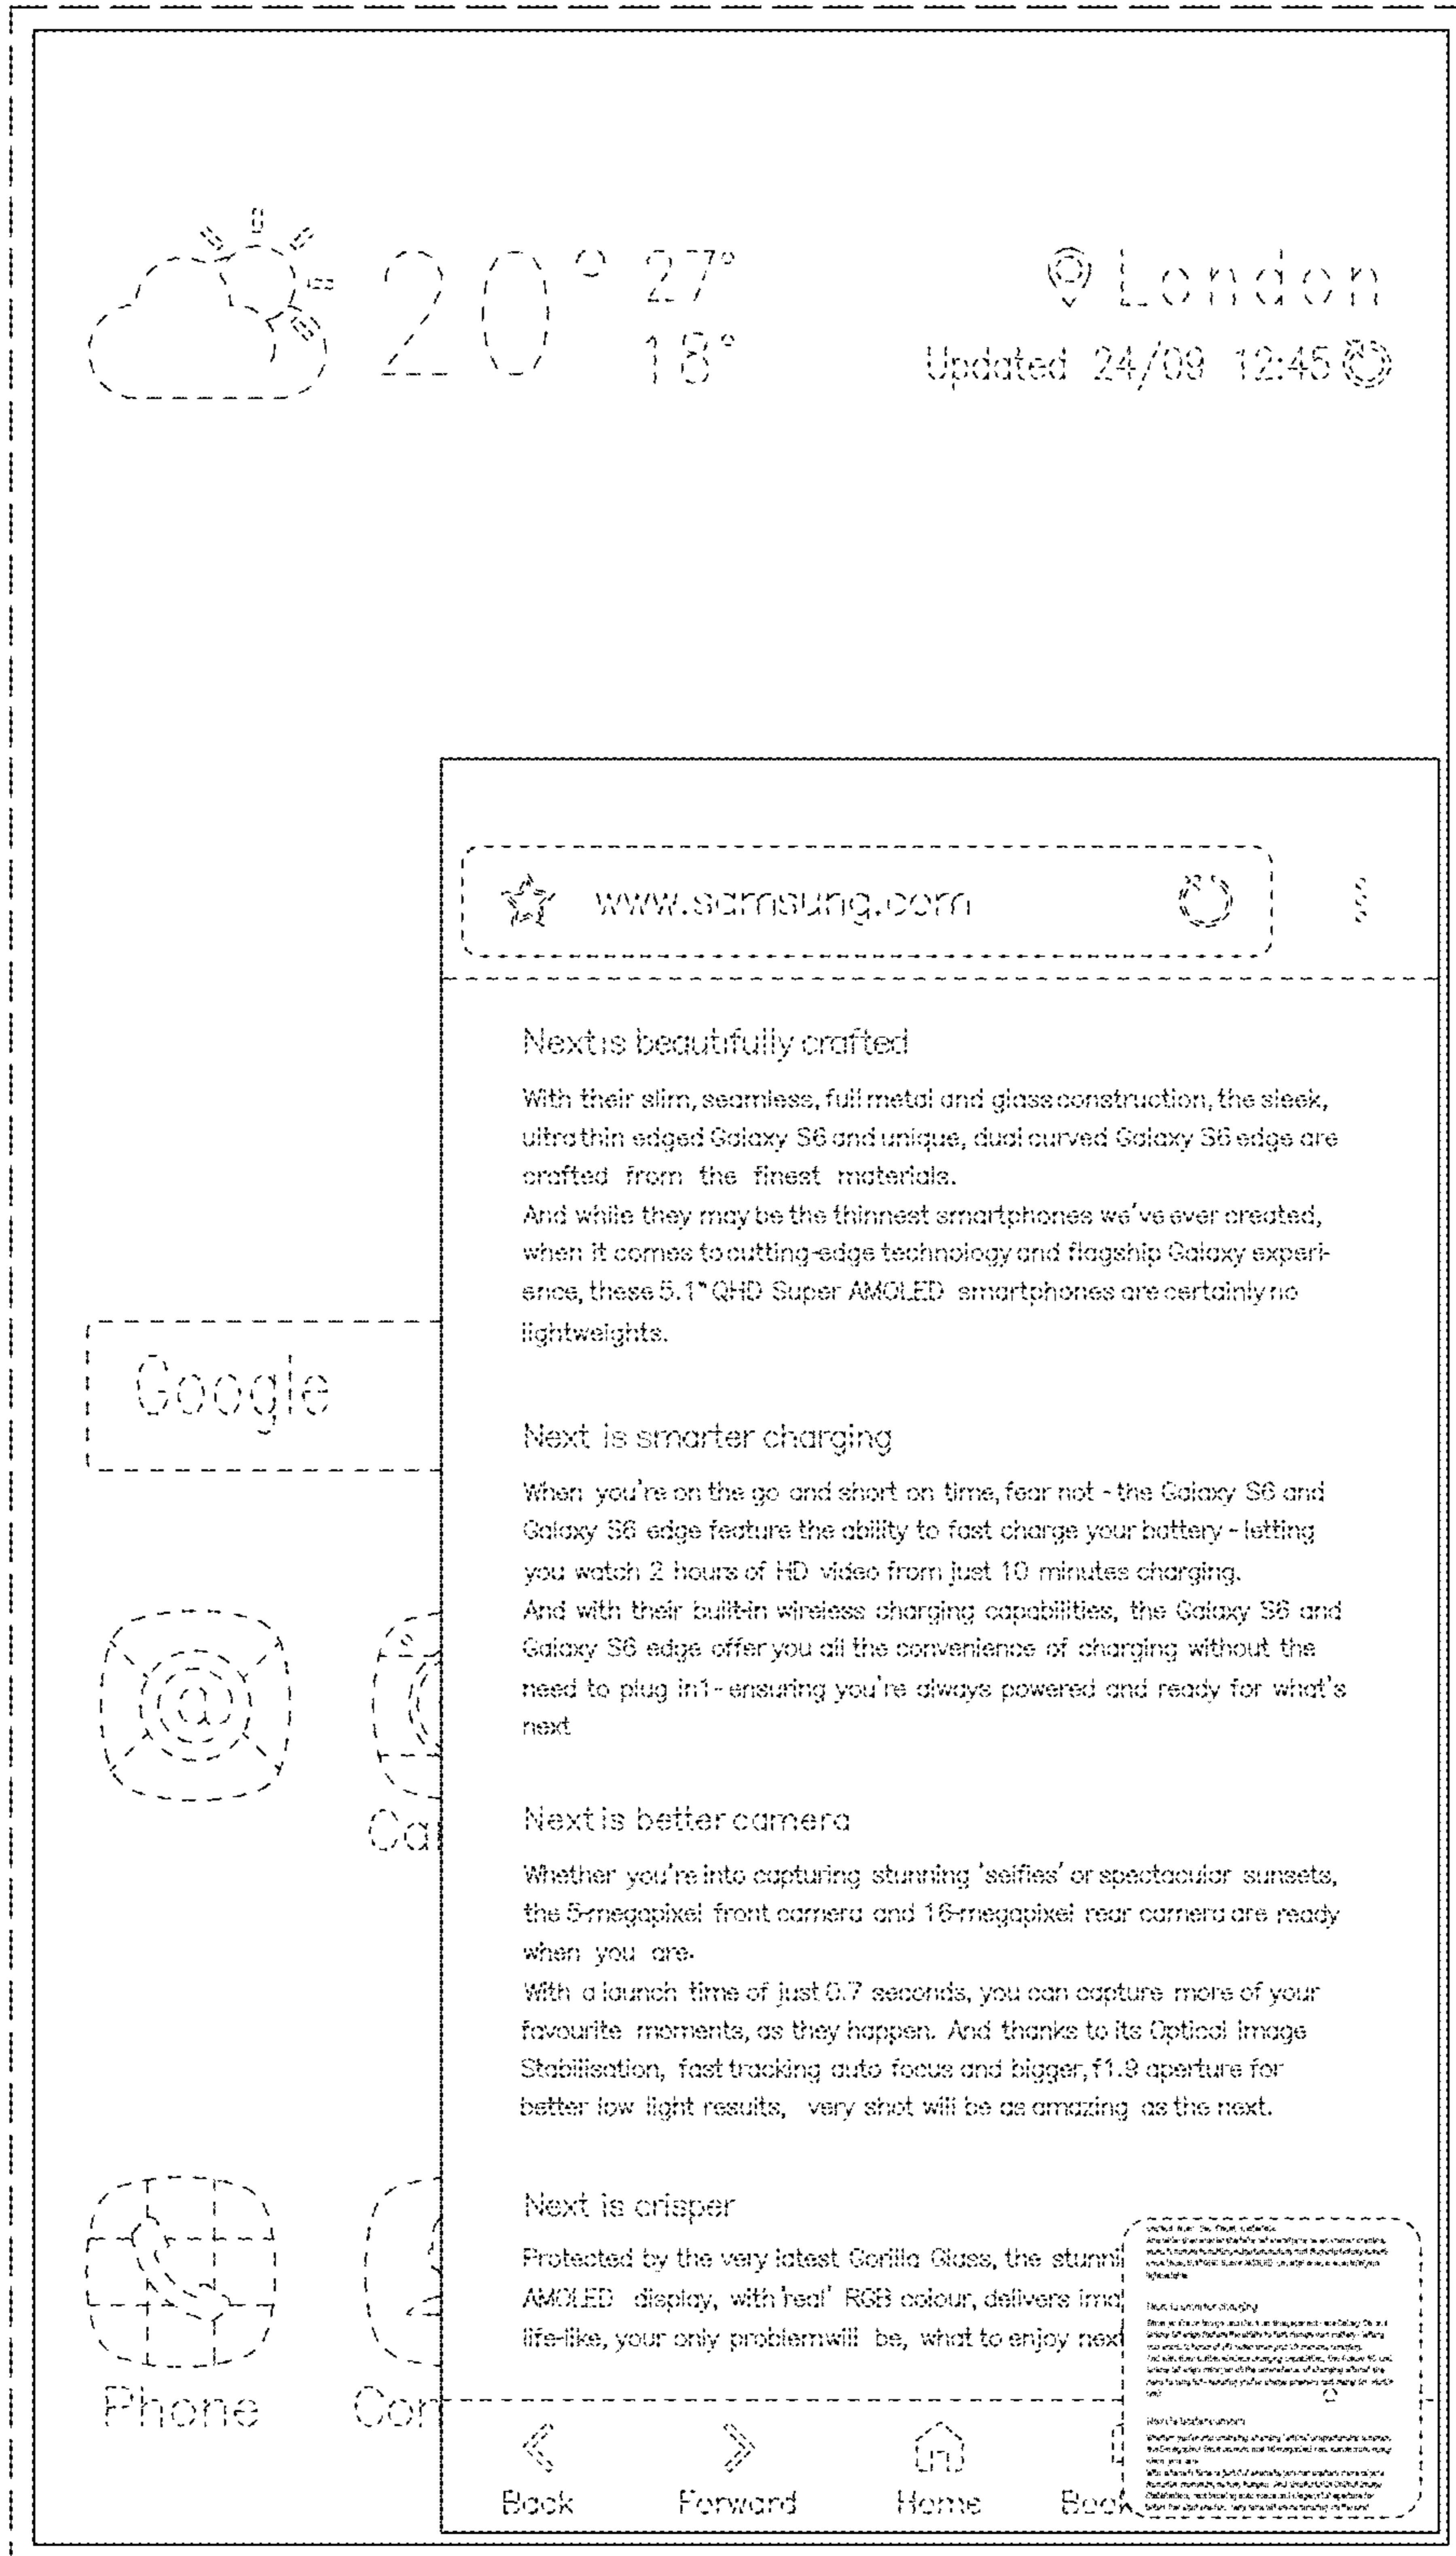

FIG. 3

## FIG. 4

crafted from the finest materials.

And while they may be the thinnest smartphones we've ever created, when it comes to cutting-edge technology and flagship Galaxy experience, these 5.1" QHD Super AMOLED smartphones are certainly no lightweights.

#### Next is smarter charging

When you're on the go and short on time, fear not - the Galaxy S6 and Galaxy S6 edge feature the ability to *fast* charge your battery - letting you watch 2 hours of HD video from just 10 minutes charging.

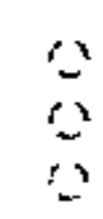

And with their built-in wireless charging capabilities, the Galaxy S6 and Galaxy S6 edge offer you all the convenience of charging without the need to plug in - ensuring you're always powered and ready for what's next.

#### Next is better camera

Whether you're into capturing stunning 'selfies' or spectacular sunsets, the 5-megapixel front camera and 16-megapixel rear camera are ready when you are.

With a launch time of just 0.7 seconds, you can capture more of your favourite moments, as they happen. And thanks to its Optical Image Stabilisation, fast tracking auto focus and bigger, f1.9 aperture for better low light results, every shot will be as amazing as the next.

FIG. 5

www.samsung.com

Next is beautifully crafted

With their slim, seamless, full metal and glass construction, the sleek, ultrathin edged Galaxy S6 and unique, dual curved Galaxy S6 edge are crafted from the finest materials.

And while they may be the thinnest smartphones we've ever created, when it comes to cutting-edge technology and flagship Galaxy experience, these 5.1" QHD Super AMOLED smartphones are certainly no lightweights.
