(57) **CLAIM**

The ornamental design for an insect catching lid for disposable cups, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of an insect catching lid for disposable cups according to a first embodiment of the design;

FIG. 2 is a bottom perspective view of the insect catching lid shown in FIG. 1;

FIG. 3 is a top plan view thereof;

FIG. 4 is a bottom plan view thereof;

FIG. 5 is a side elevation view thereof;

FIG. 6 is a front elevation view of the insect catching lid fitted over the top rim of a large disposable cup;

FIG. 7 is a top perspective view of an insect catching lid for disposable cups showing a second embodiment of the design;

FIG. 8 is a bottom perspective view of the insect catching lid shown in FIG. 7;

FIG. 9 is a top plan view thereof;

FIG. 10 is a bottom plan view thereof;

FIG. 11 is a side elevation view thereof; and,

FIG. 12 is a front elevation view of the insect catching lid fitted over the top rim of a small disposable cup.

The rear elevation views and the side elevation views for the first embodiment and the second embodiment of the insect catching lid are substantially the same as shown in the corresponding front elevation views.

The broken lines in FIGS. 6 and 12 illustrate the cups on which the insect catching lid is placed and are shown to depict the environment in which the insect catching lid is used. The broken lines in FIGS. 7-10 depict optional holes that can be formed on the top side of the insect catching lid and are for illustrative purposes. None of the broken lines form a part of a part of the claimed design for the insect catching lid.

1 Claim, 6 Drawing Sheets
