(57) **CLAIM**

The ornamental design for a portion of a display screen with a graphical user interface, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawings will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a first embodiment of a portion of a display screen with a graphical user interface showing the new design; and,

FIG. 2 is a front view of a second embodiment of the portion of the display screen with the graphical user interface showing the new design.

The broken line perimeter shown in the drawings is included for the purpose of showing a portion of a display screen and forms no part of the claimed design.

1 Claim, 2 Drawing Sheets
