(57) **CLAIM**

The ornamental design for a display screen with an animated graphical user interface, as shown and described.

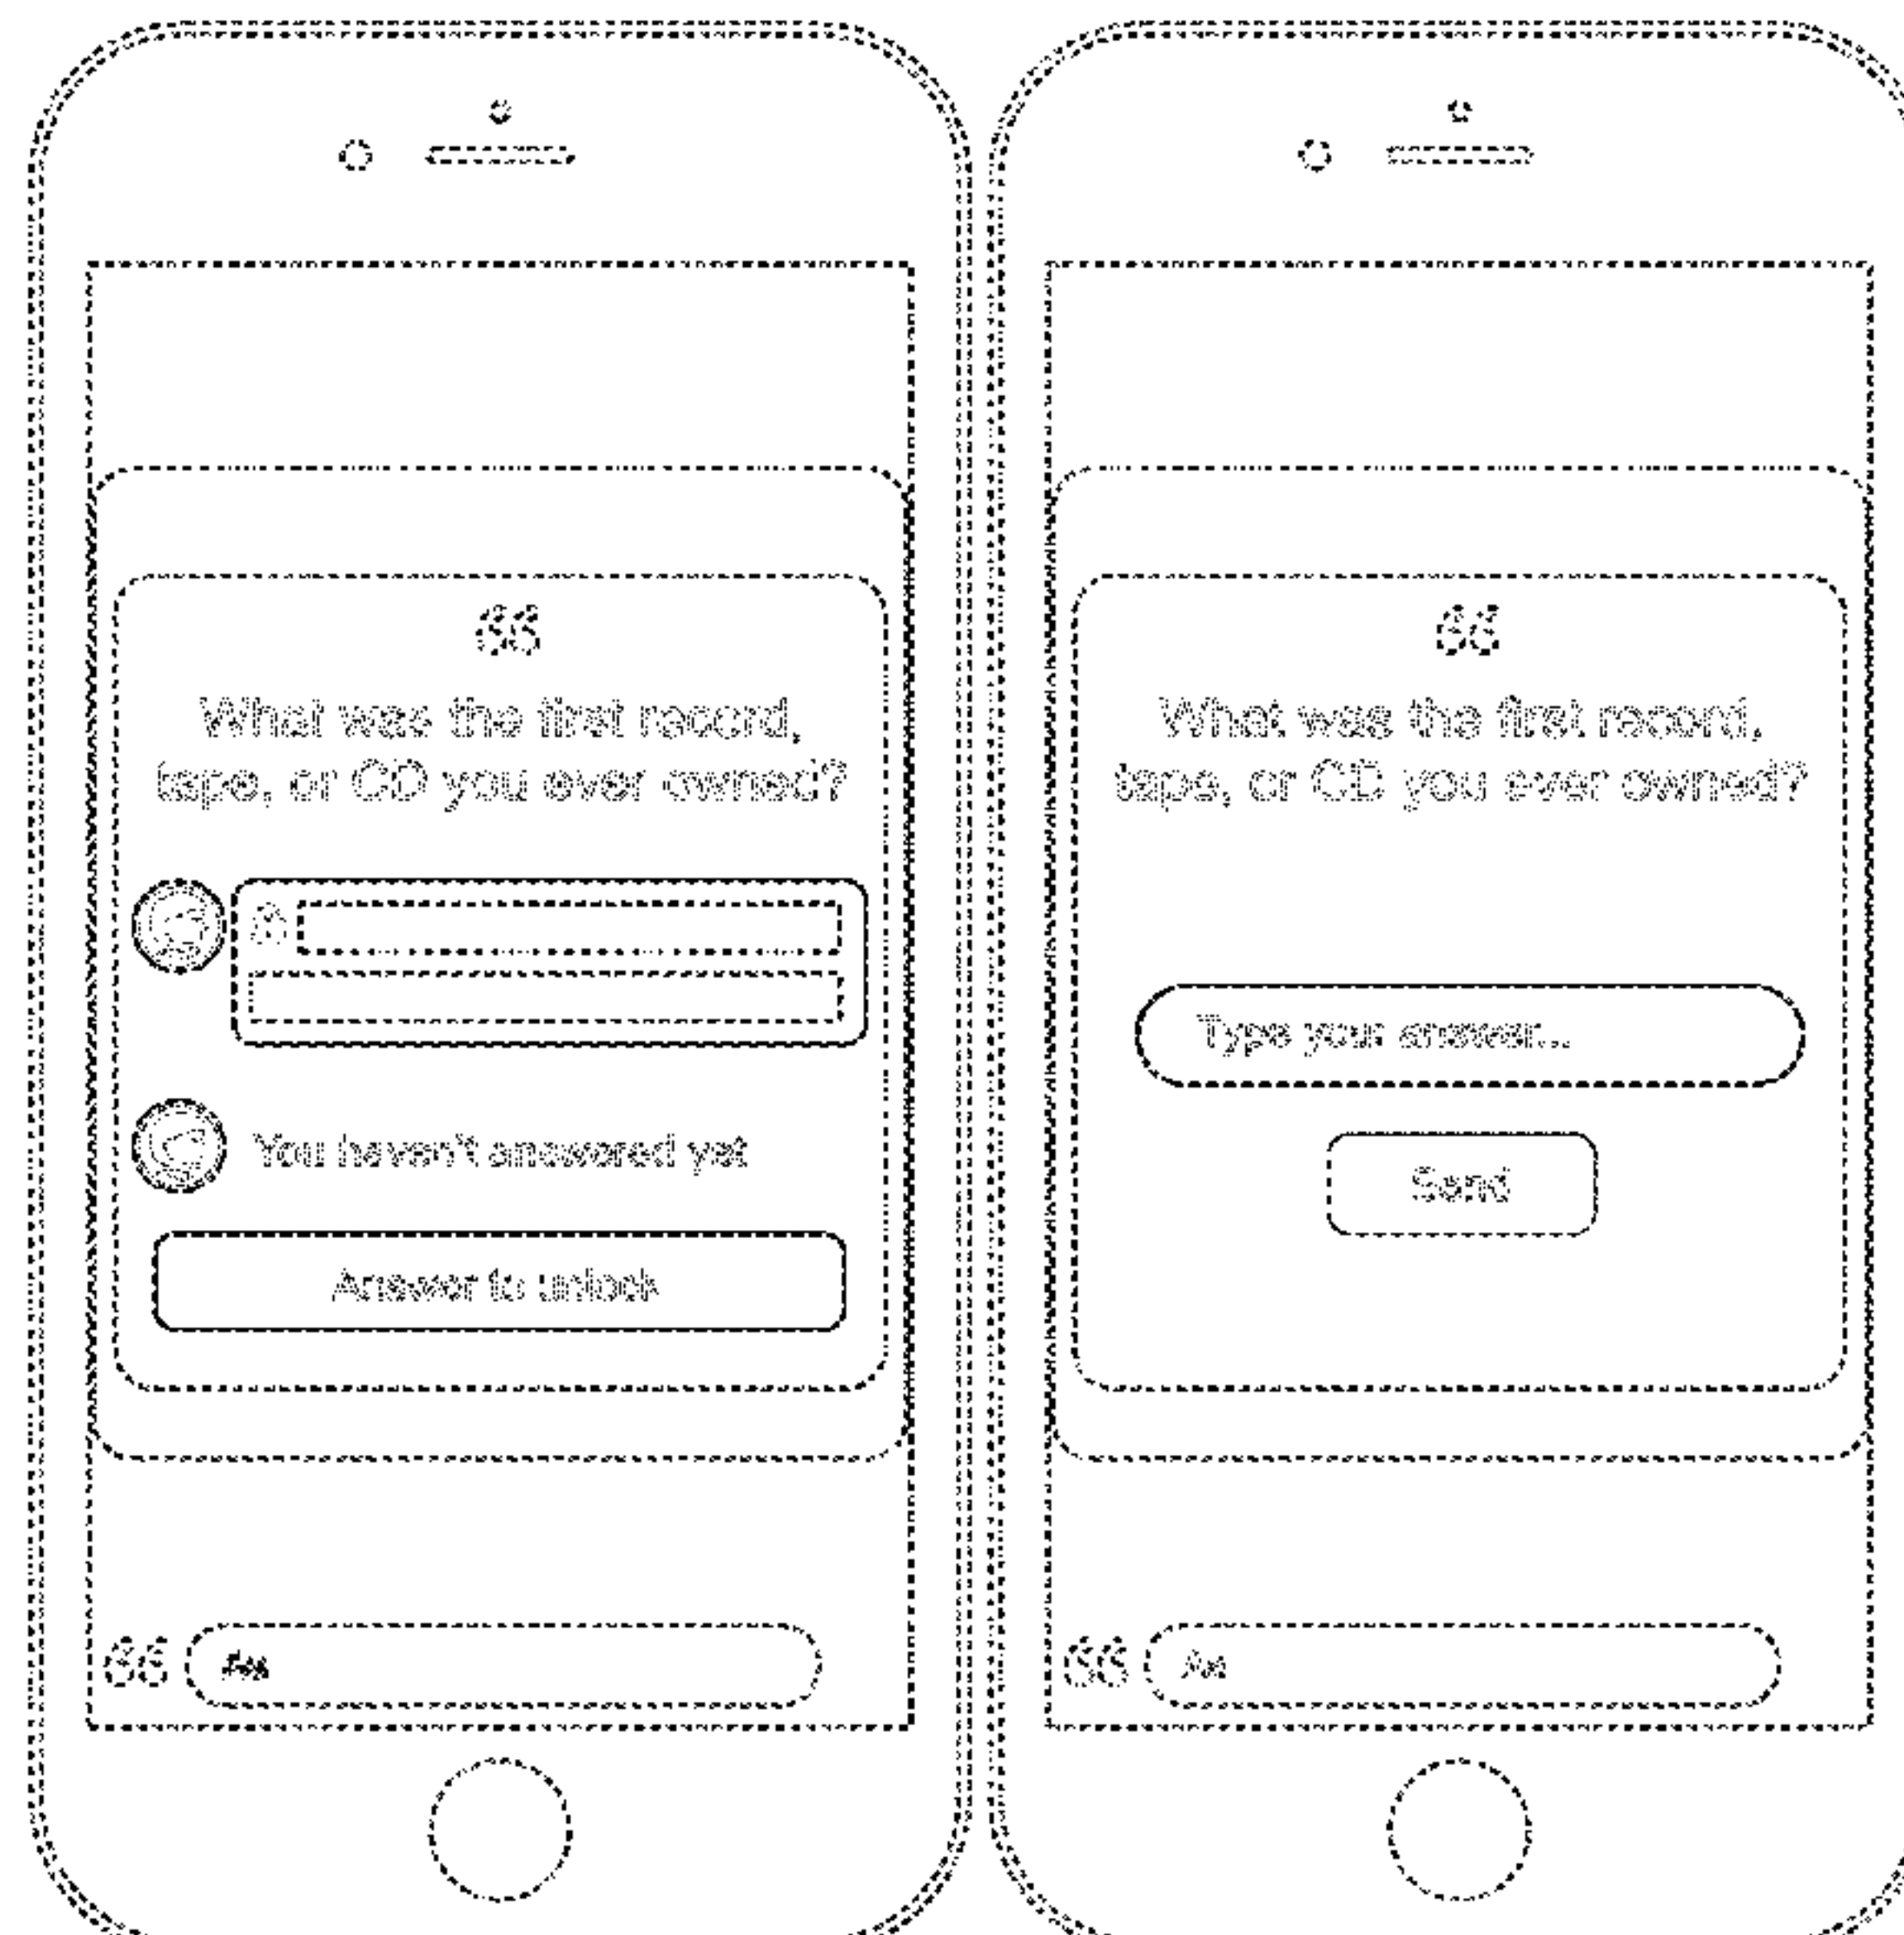

DESCRIPTION

FIG. 1 is a front view of a display screen with an animated graphical user interface showing a first image in a sequence; FIG. 2 is a second image thereof; and, FIG. 3 is a third image thereof.
The appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1-3. The process or period in which an image transitions to another forms no part of the claimed design.
The broken lines shown in FIGS. 1-3 illustrate portions of the display device with animated graphical user interface that form no part of the claimed design.
