FIG. 1 is a perspective view of a first embodiment of a tamper evident bag with a closure panel in a lowered orientation;

FIG. 2 is a perspective view of the tamper evident bag of FIG. 1 with the closure panel in a raised orientation;

FIG. 3 is a front view of the tamper evident bag of FIG. 1; FIG. 4 is a rear view thereof, the right side, left side, top and bottom views forming no part of the present invention;

FIG. 5 is a perspective view of the tamper evident bag of FIG. 1 with a portion of a tear out section torn away from the bag;

FIG. 6 is a perspective view of a second embodiment of a tamper evident bag with a portion of a tear out section torn away from the bag, the tear out section at a different elevation on the bag; and,

FIG. 7 is a perspective view of a third embodiment of a tamper evident bag with a portion of a tear out section torn away from the bag, the tear out section at another different elevation on the bag.

The front and rear views of the embodiments in FIGS. 6 and 7 are as shown in FIGS. 3 and 4, except that the tamper evident bag has the tear out section at the elevation shown in the embodiments of FIGS. 6 and 7, respectively.

The elements shown in broken lines of dashes of substantially equal length indicate lines of perforations, which are aspects of the claimed design. The elements shown in broken lines in a dashed, long-short-short-long pattern form no part of the claimed design.

(Continued)

Break lines indicate no specific height or no specific width with portions between the respective break lines forming no part of the claimed design.
