(57) **CLAIM**

The ornamental design for display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of the display screen or portion thereof with graphical user interface according to a first embodiment of our new design;

FIG. 2 is an enlarged detailed view of the graphical user interface that is indicated by the dot-dash line indicia in FIG. 1;

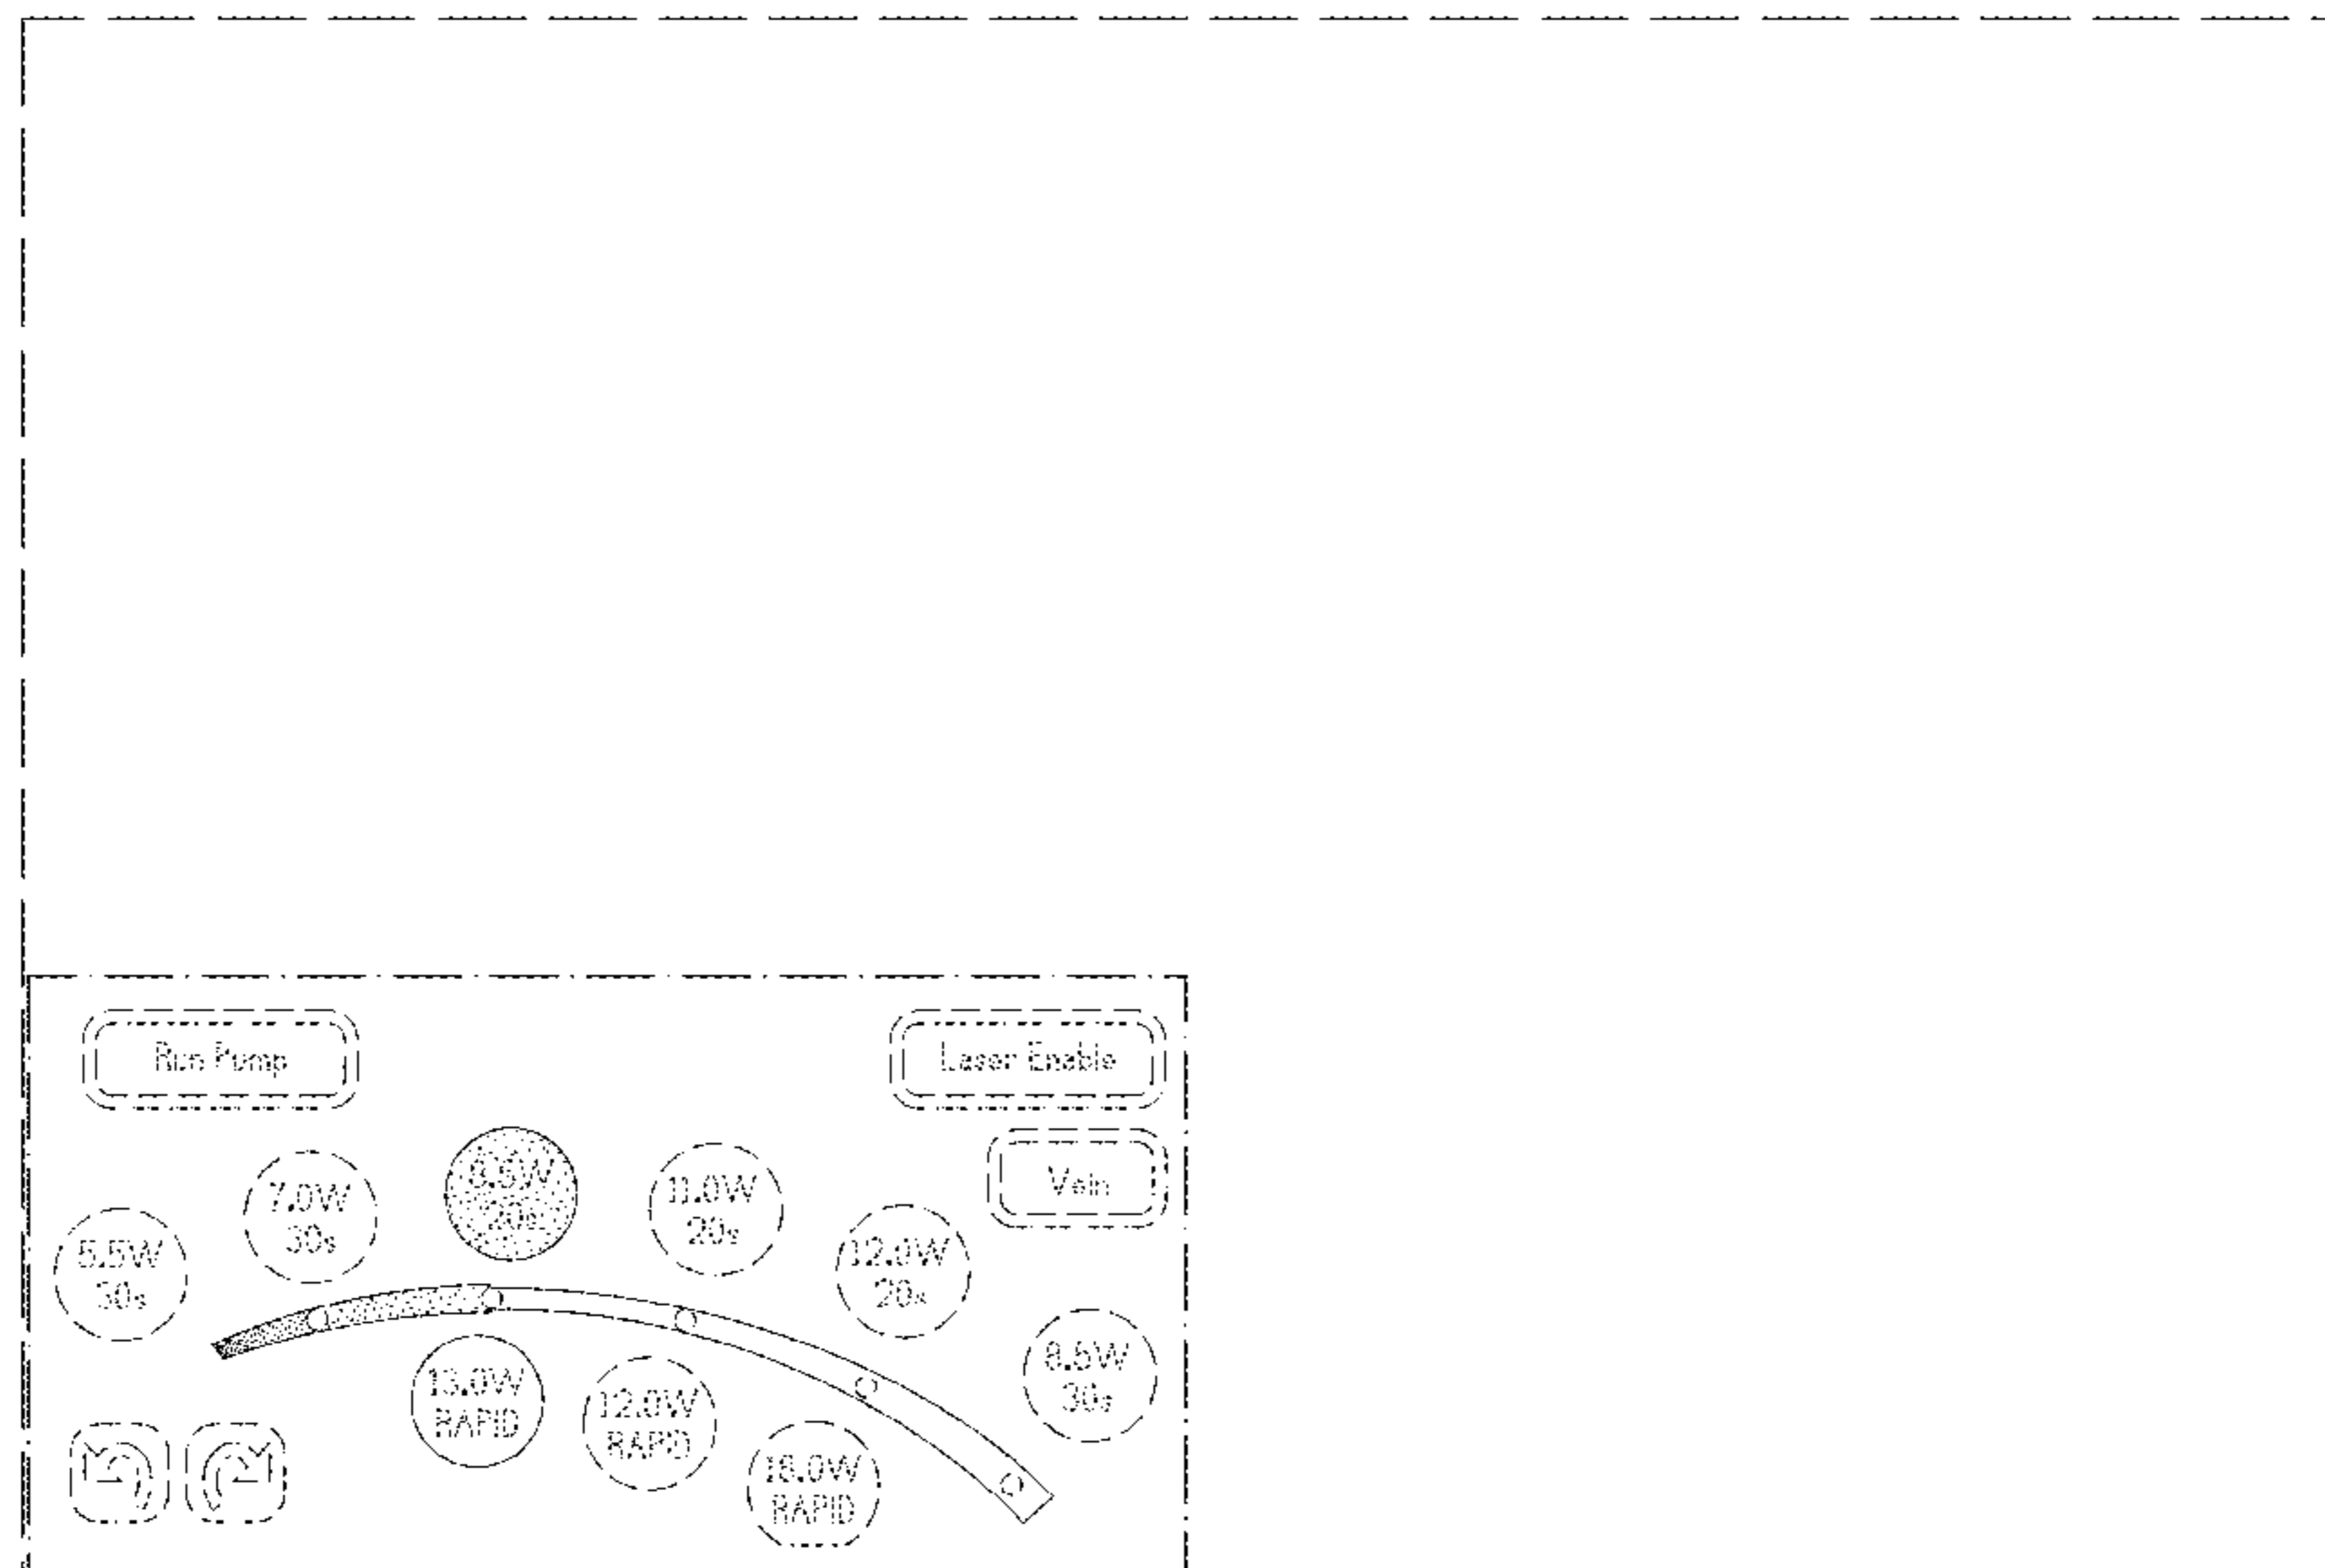

FIG. 3 is a front view of the display screen or portion thereof with graphical user interface according to a second embodiment of our new design; and,

FIG. 4 is an enlarged detailed view of the graphical user interface that is indicated by the dot-dash line indicia in FIG. 3.

The broken lines showing a display screen or portion thereof and elements of the graphical user interface illustrate portions of the article. The dot-dash broken lines represent a boundary of the claimed design. None of the broken lines form part of the claimed design.

The stippling, shading, and tonal differences in each embodiment represent a contrast in appearance among various elements in the claimed design.
