(57) **CLAIM**

The ornamental design for a tire, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a tire taken from the front and a first side thereof;
 FIG. 2 is a front view thereof;
 FIG. 3 is a side view of the first side thereof;
 FIG. 4 is an enlarged, partial perspective view thereof taken from the front and the first side thereof;
 FIG. 5 is an enlarged, partial front view thereof;
 FIG. 6 is an enlarged, partial side view of the first side thereof;
 FIG. 7 is a perspective view taken from the front and a second side thereof;
 FIG. 8 is a side view of the second side thereof;
 FIG. 9 is an enlarged, partial perspective view thereof taken from the front and the second side thereof; and,
 FIG. 10 is an enlarged, partial side view of the first side thereof.

The top, bottom, and rear views are the same as the front views of FIGS. 2 and 5 because of the repeating nature of the tread pattern throughout the circumference of the tire. The broken lines and the regions between the broken lines defining the inner beads and the first and second sidewalls depict subject matter that forms no part of the claimed tire design and are included for the purpose of illustrating the full tire. Likewise, the tire interior forms no part of the claim.
