(57) **CLAIM**

The ornamental design for a venous finite element analysis tool, as shown and described.

DESCRIPTION

The patent or application file contains a least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front perspective view of a venous finite element analysis tool in a first embodiment;

FIG. 2 is a top view of the venous finite element analysis tool of FIG. 1;

(Continued)

FIG. 3 is a front view of the venous finite element analysis tool of FIG. 1;

FIG. 4 is a rear view of the venous finite element analysis tool of FIG. 1;

FIG. 5 is a first side view of the venous finite element analysis tool of FIG. 1;

FIG. 6 is a second side view of the venous finite element analysis tool of FIG. 1;

FIG. 7 is a bottom view of the venous finite element analysis tool of FIG. 1;

FIG. 8 is a front perspective view of a venous finite element analysis tool in a third embodiment;

FIG. 9 is a top view of the venous finite element analysis tool of FIG. 8;

FIG. 10 is a front view of the venous finite element analysis tool of FIG. 8;

FIG. 11 is a rear view of the venous finite element analysis tool of FIG. 8;

FIG. 12 is a first side view of the venous finite element analysis tool of FIG. 8;

FIG. 13 is a second side view of the venous finite element analysis tool of FIG. 8; and,

FIG. 14 is a bottom view of the venous finite element analysis tool of FIG. 8.

The broken lines immediately adjacent the shaded areas represent the bounds of the claimed design while all other broken lines are directed to environment; the broken lines form no part of the claimed design.

The “Atlas Gold” lettering forming part of the disclosure is a trademark of Becton, Dickinson and Company and/or an affiliate.
