(57) **CLAIM**

The ornamental design for a roof support strap system for a roof support structure, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an embodiment of a roof support strap system for a roof support structure;
FIG. 2 is a top view thereof;
FIG. 3 is a bottom view thereof;
FIG. 4 is a right side view thereof;
FIG. 5 is a left side view thereof;
FIG. 6 is a front view thereof;
FIG. 7 is a rear view thereof;
FIG. 8 is a perspective view of second embodiment of the Roof support strap system for a roof support structure;
FIG. 9 is a top view thereof;
FIG. 10 is a bottom view thereof;
FIG. 11 is a right side view thereof;
FIG. 12 is a left side view thereof;
FIG. 13 is a front view thereof; and,
FIG. 14 is a rear view thereof.

The roof support structure with peripheral support strap grooves and/or support straps is shown with a symbolic break in its length. The appearance of any portion of the article between the break lines forms no part of the claimed design.

The roof support strap system for a roof support structure includes a roof support structure disposed within the straps that is illustrated in broken lines to illustrate the environment and that forms no part of the claimed design.

The roof support strap system for a roof support structure includes a plurality of instances of stitching illustrated in broken line as a rectangle with an “X” pattern extending inwardly from the opposed corners of the rectangle, which illustrates the environment and forms no part of the claimed design.

FIGS. 1 and 8 illustrate a second roof support strap system and roof support structure in broken line that is attached to and disposed rearward of the roof support strap system for a roof support structure in order to illustrate the environment. The second roof support strap system and roof support structure in broken line forms no part of the claimed design.
