

US00D961095S

(12) **United States Design Patent**
Fan et al.

(10) **Patent No.:** **US D961,095 S**

(45) **Date of Patent:** **** *Aug. 16, 2022**

(54) **THERAPY PACK**

(71) Applicants: **Shanghai Chuangshi Medical Technology (Group) Co., Ltd.**, Shanghai (CN); **Biofreeze IP Holdings, LLC**, Akron, OH (US)

(72) Inventors: **Litao Fan**, Shanghai (CN); **Yong You**, Shanghai (CN); **Yunguang Pan**, Shanghai (CN); **Dongjia He**, Shanghai (CN); **Rocco Mango**, Avon Lake, OH (US)

(73) Assignees: **Biofreeze IP Holdings, LLC**, Akron, OH (US); **Shanghai Chuangshi Medical Technology (Group) Co. Ltd.**

(*) Notice: This patent is subject to a terminal disclaimer.

(**) Term: **15 Years**

(21) Appl. No.: **29/736,593**

(22) Filed: **Jun. 1, 2020**

888,975, and a continuation-in-part of application No. 29/638,935, filed on Mar. 1, 2018, now Pat. No. Des. 857,216.

(30) **Foreign Application Priority Data**

Mar. 2, 2018 (CN) PCT/CN2018/077916

(51) **LOC (13) CI.** **24-04**

(52) **U.S. CI.**
USPC **D24/206**

(58) **Field of Classification Search**
USPC D24/206–208, 189–192; D32/57;
D6/583

(57) **CLAIM**

The ornamental design for a therapy pack, as substantially shown and described.

DESCRIPTION

FIG. 1a is a front plan view of a therapy pack according to the invention in which the spheres or beads are a first color at a first transient temporal moment;
 FIG. 1b is a front plan view thereof in which the spheres or beads are a second color at a second transient temporal moment;
 FIG. 1c is a front plan view thereof in which the spheres or beads are a third color at a third transient temporal moment;
 FIG. 2a is a rear plan view thereof in which the spheres or beads are the first color at a first transient temporal moment;
 FIG. 2b is a rear plan view thereof in which the spheres or beads are the second color at a second transient temporal moment;

FIG. 2c is a rear plan view thereof in which the spheres or beads are the third color at a third transient temporal moment;
 FIG. 3a is a top elevation view thereof in which the spheres or beads are the first color at a first transient temporal moment;
 FIG. 3b is a top elevation view thereof in which the spheres or beads are the second color at a second transient temporal moment;
 FIG. 3c is a top elevation view thereof in which the spheres or beads are the third color at a third transient temporal moment;
 FIG. 4a is a bottom elevation view thereof in which the spheres or beads are the first color at a first transient temporal moment;
 FIG. 4b is a bottom elevation view thereof in which the spheres or beads are the second color at a second transient temporal moment;
 FIG. 4c is a bottom elevation view thereof in which the spheres or beads are the third color at a third transient temporal moment;
 FIG. 5a is a left-side elevation view thereof in which the spheres or beads are the first color at a first transient temporal moment;
 FIG. 5b is a left-side elevation view thereof in which the spheres or beads are the second color at a second transient temporal moment;
 FIG. 5c is a left-side elevation view thereof in which the spheres or beads are the third color at a third transient temporal moment;
 FIG. 6a is a right elevation view thereof in which the spheres or beads are the first color at a first transient temporal moment;
 FIG. 6b is a right-side elevation view thereof in which the spheres or beads are the second color at a second transient temporal moment;
 FIG. 6c is a right-side elevation view thereof in which the spheres or beads are the third color at a third transient temporal moment;
 FIG. 7a is a perspective view of a therapy pack, showing the new design in which the spheres or beads are the first color at a first transient temporal moment;
 FIG. 7b is a perspective view of a therapy pack, showing the new design in which the spheres or beads are the second color at a second transient temporal moment; and,
 FIG. 7c is a perspective view of a therapy pack, showing the new design in which the spheres or beads are the third color at a third transient temporal moment.
 The appearance of the therapy pack design transitions back and forth sequentially between the first, second, and third bead color displays, depicted in grayscale, in the a, b, and c views of each numbered figure set described above and shown. Grayscale shading of the beads in the figures is representative of color generically and is not intended to represent specific colors or otherwise limit the colors or combinations thereof claimed. The process or period in which one appearance transitions to another forms no part of the claimed design. The spheres or beads illustrated in the drawings are drawn so as to appear as transparent or semi-transparent. The spheres or beads are non-fixed in position relative to one another. The shading lines indicate the clear or transparent nature of the therapy pack shell.

Structure illustrated in broken lines is environment only and is not otherwise part of the claimed design.
