

US00D961097S

(12) **United States Design Patent**
Fan et al.

(10) **Patent No.:** **US D961,097 S**

(45) **Date of Patent:** **** *Aug. 16, 2022**

(54) **THERAPY PACK**

filed on Mar. 1, 2018, now Pat. No. Des. 888,973, and a continuation-in-part of application No. 29/638,937, filed on Mar. 1, 2018, now Pat. No. Des. 888,975.

(71) Applicants: **Shanghai Chuangshi Medical Technology (Group) Co., Ltd.**, Shanghai (CN); **Biofreeze IP Holdings, LLC**, Akron, OH (US)

(30) **Foreign Application Priority Data**

Mar. 2, 2018 (WO) PCT/CN2018/077916

(72) Inventors: **Litao Fan**, Shanghai (CN); **Yong You**, Shanghai (CN); **Yunguang Pan**, Shanghai (CN); **Dongjia He**, Shanghai (CN); **Rocco Mango**, Avon Lake, OH (US)

(51) **LOC (13) CI.** **24-04**

(52) **U.S. Cl.**
USPC **D24/206**

(58) **Field of Classification Search**
USPC D24/206–208, 189–192; D32/57; D6/583

(73) Assignees: **Biofreeze IP Holdings, LLC**, Akron, OH (US); **Shanghai Chuangshi Medical Technology (Group) Co. Ltd.** (CN)

CPC A61F 7/00; A61F 7/02; A61F 7/03; A61F 7/007; A61F 7/08; A61F 7/10; A61F 7/106; A61F 2007/0001; A61F 2007/0003; A61F 2007/0004; A61F 2007/0029; A61F 2007/003; A61F 2007/0031; A61F 2007/0034; A61F 2007/0039; A61F 2007/0041; A61F 2007/0043; A61F 2007/0215; A61F 2007/0228; A61F 2007/0219; A61F 2007/0231; A61F 2007/0242; A61F 2007/0258; A61F 2007/0292; A61F 2007/108

(*) Notice: This patent is subject to a terminal disclaimer.

(**) Term: **15 Years**

(21) Appl. No.: **29/737,465**

(22) Filed: **Jun. 9, 2020**

See application file for complete search history.

Related U.S. Application Data

(60) Continuation-in-part of application No. 16/425,557, filed on May 29, 2019, which is a division of application No. 15/986,790, filed on May 22, 2018, now Pat. No. 10,492,943, application No. 29/737,465, which is a continuation-in-part of application No. 29/639,805, filed on Mar. 8, 2018, now Pat. No. Des. 887,569, which is a continuation-in-part of application No. 29/638,938, filed on Mar. 1, 2018, now Pat. No. Des. 857,218, and a continuation-in-part of application No. 29/638,935, filed on Mar. 1, 2018, now Pat. No. Des. 857,216, and a continuation-in-part of application No. 29/638,936, filed on Mar. 1, 2018, now Pat. No. Des. 857,217, and a continuation-in-part of application No. 29/638,934, filed on Mar. 1, 2018, now Pat. No. Des. 888,974, and a continuation-in-part of application No. 29/638,933,

(57) **CLAIM**

The ornamental design for a therapy pack, as substantially shown and described.

DESCRIPTION

FIG. 1a is a perspective view of a therapy pack according to the invention in which the spheres or beads are a first color at a first transient temporal moment;
 FIG. 1b is a perspective view thereof in which the spheres or beads are a second color at a second transient temporal moment;
 FIG. 1c is a perspective view thereof in which the spheres or beads are a third color at a third transient temporal moment;
 FIG. 2a is a front plan view thereof in which the spheres or beads are the first color at a first transient temporal moment;
 FIG. 2b is a front plan view thereof in which the spheres or beads are the second color at a second transient temporal moment;

FIG. 2c is a front plan view thereof in which the spheres or beads are the third color at a third transient temporal moment;
 FIG. 3a is a rear plan view thereof in which the spheres or beads are the first color at a first transient temporal moment;
 FIG. 3b is a rear plan view thereof in which the spheres or beads are the second color at a second transient temporal moment;
 FIG. 3c is a rear plan view thereof in which the spheres or beads are the third color at a third transient temporal moment;
 FIG. 4a is a left-side elevation view thereof in which the spheres or beads are the first color at a first transient temporal moment;
 FIG. 4b is a left-side elevation view thereof in which the spheres or beads are the second color at a second transient temporal moment;
 FIG. 4c is a left-side elevation view thereof in which the spheres or beads are the third color at a third transient temporal moment;
 FIG. 5a is a right-side elevation view thereof in which the spheres or beads are the first color at a first transient temporal moment;
 FIG. 5b is a right-side elevation view thereof in which the spheres or beads are the second color at a second transient temporal moment;
 FIG. 5c is a right-side elevation view thereof in which the spheres or beads are the third color at a third transient temporal moment;
 FIG. 6a is a top elevation view thereof in which the spheres or beads are the first color at a first transient temporal moment;
 FIG. 6b is a top-elevation view thereof in which the spheres or beads are the second color at a second transient temporal moment;
 FIG. 6c is a top-elevation view thereof in which the spheres or beads are the third color at a third transient temporal moment;
 FIG. 7a is a bottom-elevation view thereof in which the spheres or beads are the first color at a first transient temporal moment;
 FIG. 7b is a bottom-elevation view thereof in which the spheres or beads are the second color at a second transient temporal moment; and,
 FIG. 7c is a bottom-elevation view thereof in which the spheres or beads are the third color at a third transient temporal moment.
 The appearance of the therapy pack design transitions back and forth sequentially between the first, second, and third bead color displays, depicted in grayscale, in the a, b, and c views of each numbered figure set described above and shown. Grayscale shading of the beads in the figures is representative of color generically and is not intended to represent specific colors or otherwise limit the colors or combinations thereof claimed. The process or period in which one appearance transitions to another forms no part of the claimed design. The spheres or beads illustrated in the drawings are drawn so as to appear as transparent or semi-transparent. The spheres or beads are non-fixed in position relative to one another. The baffle(s) illustrated is/are formed of two transparent pack walls, sealed together to form a thin, flat, planar surface illustrated in the drawings. The shading lines indicate the clear or transparent nature of the therapy pack shell, and also of the baffle(s). Structure

illustrated in broken lines is environment only and is not otherwise part of the claimed design.
