(57) **CLAIM**

The ornamental design for a videoconference device, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a videoconference device, showing our new design having sides of indeterminate length;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a top plan view thereof;

FIG. 5 is a bottom plan view thereof;

FIG. 6 is a right side elevational view thereof;

FIG. 7 is a left side elevational view thereof;

FIG. 8 is another front elevational view thereof, shown mounted on an environmental stand and in a state of use with illumination along the upper edge visor; and,

FIG. 9 is another right side elevational view thereof, shown mounted on an environmental stand and in a state of use with illumination along the upper edge visor.

The long dashed broken lines seen in FIGS. 8 and 9 showing the stand depict environmental subject matter only and form no part of the claim, while all other short dashed broken lines depict portions of the videoconference device that form no part of the claimed design.

The oblique lines inside the bezel of FIGS. 1-2, and 8 depict a transparent covering of the camera lens.

The broken lines consisting of long and short dashes depicted in FIGS. 1, 3-7, and 9 represent an unclaimed boundaries of the claimed design.

(Continued)

The pairs of jagged broken lines depicted in FIGS. 1-5, and 8 show a symbolic break in length. Any portions of the article between such pairs of jagged lines form no part of the claimed design.

The short lines emanating from the upper edge visor seen in FIGS. 8 and 9 depict an illuminated state of use.

1 Claim, 5 Drawing Sheets
