(57) **CLAIM**

The ornamental design for a payment terminal keypad cover, as shown and described.

DESCRIPTION

FIG. 1 is an isometric view of a payment terminal keypad cover showing my new design;
FIG. 2 is a front elevational view thereof;
FIG. 3 is a rear elevational view thereof;
FIG. 4 is a left-side elevational view thereof;
FIG. 5 is a right-side elevational view thereof;
FIG. 6 is a top plan view of thereof; and,
FIG. 7 is a bottom plan view of thereof.
The broken lines in the drawings depict portions of the payment terminal keypad cover that form no part of the claim.
The two rectangular features shown on the front hanging surface are holes that will secure around a protruding surface of the payment terminal keypad to hold the cover in place. The oblique line shading indicates the surfaces of the design are transparent.
